92,000 Watch Trojans Win, 14-0; Break Vols' Streak

Tennessee Stalls On Offensive as California Drives To 2 Touchdowns

The Other Games

THE LAST FLING of football for this winter yesterday found Catholic University tying in an intersectional game with Arizona State, 0-0; Georgia Tech beating Missouri 21 to 7; Clemson nosing out Boston College 6 to 3; Texas A. and M. creeping past Tulane, 14 to 13, and the East bowing to the West in the East-West game, 28-11. Details in sports section.

Tennessee Defeated

By the Associated Press

Rose Bowl, Pasadena, Calif., Jan. 1.—The orange and white of Tennessee drooped in defeat tonight for the first time in two long years, and there was gloom and sadness in the Volunteer State of the South, for the mighty Trojans of Southern California defeated its team in the annual New Year's Day Rose Bowl classic.

Flashing a relentless attack that spelled power and more power, the Trojan giants of the West crushed the valiant Vols, 14 to 0, in a game that kept a howling, capacity throng of 92,000 on edge for 60 minutes.

One savage burst of strength in the second quarter broke the Tennessee record of never a score against it, much less a defeat, in 16 games, and when the Vols turned loose a whirlwind parade late in the fourth period, luck was against them.

85-Yard Touchdown March

A fumble, Southern California recovered—and the warriors of Troy, ringing up their sixth triumph in this post-season classic, traveled 85 yards in 20 plays for the second touchdown.

Hero of the Trojan victory was the lad "who came back," Amblin' Ambrose Schindler, 190 pounds of battering ability from San Diego, Calif., who scored the first touchdown and passed over the goal line for the second.

On the receiving end of that pass, which came as darkness drifted over the roaring throng, was Antelope Al Krueger, the substitute end who caught the pass that brought defeat to Duke in the Bowl one year ago.

Tennessee with its star back, George Cafego, playing intermittently but never up to his old form, was unable to get across the 50-yard stripe until early in the final quarter. The offense that had whipped 23 teams in succession couldn't penetrate the Trojans.

Vols Pass Out of Danger

Suddenly the Vols came to life after they had been forced back to the 1-yard line by Quarterback Grenville Lansdell's "coffin corner" kick. Johnny Butler, standing back in the end zone, passed the team out of danger, and the Vols roared on in a sustained drive to the Trojan 9-yard line—and Bob Newman, fullback, fumbled.

Roy Engle, Trojan sub, recovered on his own 15, and the warriors of Troy, fearing their seven-point margin might be wiped out, rushed on to score. They had dominated the play all day, rolling up at the end 18 first downs to 9, and advancing the ball 272 yards to 141, and they were not going to lose or tie this game. Schindler and his fullback, Jack Banta, and Krueger, the glue-fingered end, saw to that.

Troy's first touchdown march started from the Tennessee 47. Schindler, a senior playing his last game for S. C., and Banta, ripped and battered the tiring Vols in steady rushes—4, 6, 12 yards at a crack. From the 20, Schindler made 8, and the Vols were pushed back to the 1-yard line for unnecessary

Financial Review

Today's Post includes a ten-page financial review section, including complete market tables for the year, and featuring articles by 14 Washington bankers and business men. There are also articles by Edsel Ford, Roger W. Babson, E. R. Stettinius, A. P. Sloane, Jr., David Sarnoff, J. J. Pelley, and L. J. Taber.

'Got Your Skates . . . ?"

Post Staff Photo

New Year's Day brought outdoor ice skating to Washington. Skaters were assured of safe ice when the temperature dropped to 17 degrees at 7 a. m. yesterday. Bertha Matthews, 3830 T street northwest, was one of the many who thrilled to the wintry tang in the air as they skimmed across the Lincoln Memorial Reflecting Pool. Other pictures, Page 14

D.C. Patrolman Killed As He Chases Auto

Head-on Crash Takes Year's First Victim; 3 Men Detained

A motorcycle policeman was fatally injured yesterday while pursuing a motorist. It was Washington's first traffic death of the year—19 hours and 12 minutes after the New Year had arrived.

First fatal accident of 1939 occurred January 2 at 3:20 p. m. when a pedestrian stepped into the side of a street car from a safety zone.

Private Robert W. Davis, 36, attached to the Eleventh Precinct Station, died at Casualty Hospital 5 hours after his cycle had crashed head-on into a car as he raced uphill behind a coupe. Davis, father of three children, suffered a skull fracture, crushed chest and internal injuries.

Davis was the fourth motorcycle patrolman to die in line of duty in the last 20 months. Raymond E. Grant, of Seventh Precinct Station, skidded on a sharp curve on Loughborough road northwest in August. Richard T. Conklin and Ernest E. Wessels, both of Sixth Precinct Station, collided with street cars in the spring of 1938.

Police arrested Royce W. Payne, 28, of 514 M street northwest, as driver of the coupe, and released him in custody of a relative for appearance at a coroner's inquest Wednesday at noon. James W. Belcher, 23, of 1014 Third street northeast, whom police said was a passenger in the coupe, was similarly released.

According to police and eyewitnesses, the coupe had cut around another machine on Good Hope road

Cold Drives Capital Indoors

Washington spent most of yesterday by its fireside.

The thermometer got down to 17 degrees at 7 a. m. and a bright sun was able to warm it only seven degrees by 3 p. m. Fair and continued cold with a 14-degree minimum is the forecast for today.

G. O. P. Chary Of Roosevelt Bid for Unity

Report of Cabinet Offer to Col. Knox Gains Wide Credence

Reported Administration and Democratic moves toward a measure of coalition in Government, with a damper on partisan politics, last night were meeting with apparent Republican skepticism and defiance.

A report President Roosevelt had offered appointment as Secretary of the Navy to Col. Frank Knox, 1936 Republican Vice Presidential nominee, went undenied throughout the day, and in fact were given credence in circles that might be expected to know of such an offer.

It came on the heels of an invitation to Republican leaders on Capitol Hill to attend free the $100-a-plate Jackson Day dinner here, at which the President will speak. The Republicans were assured Mr. Roosevelt's address would be "strictly nonpartisan in character."

Martin Cites Fund Drive

Republican reaction last night to these steps, interpreted by many as intended to focus attention on international questions before the Nation, centered in these developments:

House Minority Leader Martin declared that "certainly there is nothing nonpartisan about Jackson Day dinners that are held solely for the purpose of raising campaign funds for the Democratic Party."

Representative Crawford, of Michigan, charged the invitations to Republican leaders were part of "an attempt to high pressure Republican workers" in the States to attend local dinners at $25 each and thereby help the Democrats reduce their deficit.

G. O. P. Chairman Hamilton announced the party had raised $500,000 in the past six weeks to apply on its 1936 deficit and entered the campaign year "virtually" debt-free. He pointed also to the party's gain of 10 Governors 7 Senators and 74 House members since the 1936 election.

Representative Kean, of New Jersey, declared he would lead a

Wrist Touching Live Wire, Father of 4 Dies Instantly

The beginning of the new year brought sudden death yesterday to a lineman for the Potomac Electric Co., who was the father of four small children.

James Nelson Garrison, 37, of 3121 Chestnut street northeast, died instantly upon touching a 4,000-volt wire while working above Bradley boulevard, near Bethesda, Md.

Garrison was splicing a ground wire on top of a pole outside the home of Mrs. H. F. Meyer, near the National Women's Country Club, when the accident happened. Witnesses said he accidentally touched the live wire with his wrist, and was enveloped immediately in smoke and flame. His body slumped across the wires.

Mrs. Meyer told police that a few minutes before the accident he had telephoned the power company from her home to ask for help, saying the job was a difficult one. He was told to go ahead by himself, she said he told her.

The power company denied that Garrison had asked for help in his task, pointing out that according to company regulations if he felt he needed help he was bound to stop work until he received it.

N. L. Dwyer, superintendent of the overhead division, said his telephone call was to ask permission to "cut the wire through," that is to join the broken ends after putting them into position.

The company crew told county police that Garrison had used a short sleeve to protect the live wire and that he had longer insulating shields

Roosevelt Calls Preview Of Session

Garner, Bankhead, Barkley, Rayburn May See Draft of Opening Message

By Robert C. Albright
Post Staff Writer

President Roosevelt yesterday invited his Democratic Congressional leaders to the White House today for a preview of the program for the Seventy-sixth Congress' last regular session, which will convene tomorrow.

Leading the van of returning legislators, Vice President Garner and House Majority Leader Rayburn arrived yesterday on the same train. Senate Majority Leader Barkley is due back this morning.

Together with Speaker Bankhead, Garner, Barkley and Rayburn will knuckle down at once to the work of the session.

At the White House they will discuss the legislative agenda and probably view a draft of the President's message on the state of the Union he will deliver personally tomorrow.

Spending Cuts Planned

Pending today's talks, leaders declined to discuss a program which embraces sharp cuts in all save national defense spending and a solid Administration front for extension of the reciprocal trade act.

Another of the session's outstanding questions, raising of the statutory debt limit above the present $45,000,000,000, was expected to be put squarely up to Congress by the President. Mr. Roosevelt was reported ready to take the stand that the money problem is a Congressional responsibility, and leave the Legislature a free hand in spending or cutting relief and other estimates.

The President yesterday put finishing touches on his opening address. His budget message, reportedly recommending sharp pruning in regular departmental appropriations, will follow Thursday or Friday. Republican leaders said they would weigh both before conferring Friday on G. O. P. strategy.

Garner Has Reduced

Ruddy, beaming, and 6 pounds lighter than when he left for Uvalde two months ago, Vice President Garner, who last month definitely tossed his hat into the Presidential ring, had "no comment on the weather, politics, economics or any other subject you might mention."

Garner, who today will see "The Boss" for the first time since he announced for the Democratic nomination whether Roosevelt runs or not, appeared refreshed by his hunting and fishing expeditions out of Uvalde. He carried two small venison steaks to the Capitol for lunch, but on second thought presented them to reporters as a New Year's gift.

Amid the extraordinary police precautions that have marked recent Capitol openings, House and Senate will convene separately at noon tomorrow. Later the Senate

Russian Bombs Fire Finn Port, Gate for Western Aid; Britain Drafts 2 Million Men

Empire to Prepare Three Million for Expected 'Real War;' All 19 to 27 Called

By Frank R. Kelley.
Copyright, 1940, by New York Tribune Inc.

London, Jan. 1.—Great Britain girded itself today for even greater war action against Germany by summoning approximately 2,000,000 more of its youths for possible service with the colors in France and other fronts that may be opened before another 12 months have passed.

A royal proclamation, signed by King George VI at a meeting of the privy council, made liable for compulsory military service all those of the King's male subjects in the United Kingdom who today were aged 19, 23, 24, 25, 26 or 27.

Of the 2,000,000 warned tonight to "stand by," it was believed only 1,500,00 actually would enter the armed forces. The other 500,000 willl be eliminated because they are considered too valuable in civilian occupations, through failure to meet medical requirements or for other reasons, such as conscientious objections to bearing arms. Each of the six age groups is expected to yield more than 300,000 potential fighters, with the 19-year-olds, born after the World War, and the 26 and 27-year-olds, born before the war, providing most of them.

Potential Forces 3,000,000

This vast addition to Britain's manpower, which may be ordered into uniform before the end of the year, brought to more than 3,000,000 the actual and potential strength of the fighting services.

Tonight's proclamation, which military experts estimated eventually would provide a trained army of 1,500,000 troops, carries the methodical expansion of Britain's expeditionary force towards the point at which it will rank with the vast armies on the continent.

When compulsory service was introduced in Britain last May the "20-year-olds" were the first to be called up for training. There are 219,964 of these under arms. In October the summons went out to those between 21 and 22. A total of 215,231 were taken in. Last month the first of the 22-23-year olds was registered, making 238,585 more men.

Offensive Expected

These first three age groups, totaling nearly 675,000, are being brought into training gradually. Meanwhile, the six additional age groups mentioned in the latest royal proclamation will be held in reserve. At the present rate it will take another year before all have been asked to present themselves for war training. Military authorities said

Rumania to Fight Russia If It Invades Bessarabia

Province Chose to Enter Nation 'Of Its Own Free Will,' Titulescu Declares, Promising Defense 'To the Last Man'

By the Associated Press

Constanza, Rumania, Jan. 1.—Premier George Tatarescu declared today that Rumania would fight to defend Bessarabia and Bucovina, her two provinces which border on Russia.

Addressing sailors of the Rumanian navy in the presence of King Carol, the premier declared that the populations of the two provinces "chose to come to Rumania of their own free will" after the World War and "we will defend them to the last man."

It was the first time that Bucovina, Austrian before the World War, had been mentioned by Rumanian leaders in connection with dangers of foreign invasion.

Diplomats speculated as to whether the Rumanian government has reason to believe that Bucovina, as well as Bessarabia, is the object of Russian desires.

Reports that Rumania had moved most of her troops out of Bessarabia—Russian territory before the World War—were accompanied by the semiofficial explanation that the province was impossible to defend. If it were invaded, it was indicated, the Rumanians would abandon it and make their real stand on the line of the River Pruth.

However, it has been admitted that since seeing the results of Finland's resistance to the Red army, the government has expressed greater confidence in Rumania's ability to offer effective

Many Buildings in Flames After Raid On Turku; Missiles Fall on Norse Soil

By the Associated Press

Helsinki, Jan. 1.—Many buildings in Turku, seaport which has been the terminus of war materials sent to the Finns from their Scandinavian friends, were reported in flames late tonight after a fierce raid by Soviet bombers.

The Red planes, striking in retaliation for reverses suffered by Russian land armies on the central and northern fronts, roared over Turku in midafternoon.

Finnish dispatches said many incendiary bombs fell in the heart of the city, starting tremendous fires.

Turku, or Abo, is a city of some 20,000 population in southwestern Finland at the mouth of the Gulf of Finland. It formerly was Finland's capital and is the terminus of three important rail lines.

The new aerial "blitzkrieg" was unleashed as Finns officially were announcing the smashing of a Soviet motorized column and continued pursuit of a shattered Red army division on two snowbound fronts, and while President Kyosti Kallio called upon the world for help in "active resistance at the front."

Routed Foe Pursued

(Tonight's Soviet military communique said: "On the first of January nothing important occurred at the front. Soviet aviation successfully bombed a number of places. Two enemy planes were brought down in an air battle.")

The Finnish high command's communique reported far-flung Russian air raids, in one of which bombs fell on Norwegian territory.

In the Petsamo region fronting the Arctic Ocean, it said Russian fliers crossed the Finnish-Norwegian boundary and "dropped bombs on the ice of the River Pasvik inside Norwegian territory," but there were no reports of damage or injury.

Dispatches from Kirkenes, Norway, opposite the Petsamo region, said numerous Russian soldiers on that front had been found frozen to death at their posts. Night temperatures of 40 degrees below zero Fahrenheit were reported, restricting activity of both sides.

The Finns in that region were said to be assembling an air force including big four-motored planes.

The Finns reported their latest success against invading Russian columns in the Salla region, just above the Arctic Circle, where, they said, "our troops destroyed an enemy column of 12 cars."

Karelian Attacks Repelled

About 160 miles to the south, near Suomussalmi, the communique told of further development of the "great victory" reported yesterday, in which the 163rd Red Army division, some 15,000 strong, was said to have been "definitely cut up and for the most part destroyed."

Pursuit of its routed remnants continued, the Finnish command reported today, and more booty was added to the huge quantities already collected on the snowy battlefield.

President Kallio in a New Year's message thanked Finland's friends for aid already given and told of increasing arrivals of foreign volunteers for the Finnish forces. But he continued on an anxious note:

"All this is encouraging for us Finns, but it is obvious that swift solution of the situation calls for active assistance at the front, the only place where ruthless aggressors' schemes can definitely be put to naught."

(Copenhagen dispatches said several thousand Swedish volunteers had gone to Finland under command

Holiday Trains Crash in Illinois; One Killed, 12 Hurt

Arcola, Ill., Jan. 1 (AP).—A rear-end collision of two Illinois Central trains, Chicago-bound with holiday travelers, killed one passenger today and sent at least 12 injured to hospitals.

Most of the passengers were asleep or just arising at 6 a. m. when the road's No. 6 passenger train, known as the Panama Limited, struck the rear end of the No. 4, which had made a flag stop to pick up passengers.

The injuries were confined principally to passengers in the rear cars of the No. 4. One coach was telescoped against the preceding car. The engineer and fireman of No. 6 also were injured.

Former Mayor Is Shot to Death By Tax Collector

Kenilworth, N. J., Jan. 1 (AP).—Kenilworth officials looked on in horror today as August J. Stahl, borough clerk and former mayor, was shot to death at the conclusion of a caucus in the borough hall.

Police Chief George Conklin said Tax Collector John E. Butler pulled two guns from his pockets, turned to Stahl and said, "You're first," and fired a fusillade of shots into his body.

Patrolman Andrew Ruscansky, hearing the shots from his desk downstairs, rushed to the room and was struck in the abdomen by one of the bullets. His condition was termed critical.

Hunefeld Attends White House Party (There Is None)

John W. Hunefeld, 74, shivered at the White House gates yesterday, faithful to his 16-year-old New Year custom.

Hunefeld started going to the New Year's Day reception at the White House in 1924, and continued without missing a date after President Roosevelt abandoned the receptions in 1932.

He came again yesterday, "just for the novelty of it," visited with the guards from 6 p. m. until shortly after 8 a. m., then departed.

Ireland Fears Civil Warfare Early in Year

London, Jan. 1 (U.P.).—All Ireland is looking forward to the possibility of grave civil strife early this year, according to information reaching here from reliable sources

Ireland's future, according to these advices, depends largely on whether President De Valera can restrain the outlawed Irish Republican Army.

The I. R. A. wants to take advantage of Britain's preoccupation with the European war to annex the six northern counties of Ulster

Storm Batters Turkey, Hit by Flood, Quakes

New Tremors Felt As 32 Villages Are Under Inundation

Copyright by New York Times

Istanbul, Jan. 1.—The Turkish people suffered a third disaster today following earthquakes and floods, when terrific storms swept the Black Sea.

Huge waves have been dashing against Anatolian shores and it is feared that many ships have foundered. The British-built Istanbul steamer Turkan, of 304 tons, was reported sunk with a crew of 20.

Earthquake casualties are now estimated at 45,000 on the basis of reports from relief parties which penetrated all parts of the ravaged zone. The latest news is that over 300 people drowned in the floods that inundated a large area of western Anatolia.

Dam Collapses

The rivers have been swollen by torrential rains and overflown their banks in the regions already terribly stricken by earthquake shocks. Sweeping away bridges and almost every building in their path, the floods have marooned hundreds of villages.

Boat loads of gendarmes and military engineers have been sent to 500 marooned in villages in the Brusa region to the south of Istanbul, on the other side of the Sea of Marmora and on the wide plains to the south and to the southwest.

The Ismid Gulf area—where the Turkish naval base lies—is almost totally submerged. The Kemal Pasha Dam has collapsed and wrecked or carried away hundreds of houses, killing or drowning their occupants, and pinning others beneath the wreckage.

Railroad Cut Off

Troops thus far have recovered 40 bodies, and are building pontoons to rescue people in villages where, as the waters rise—in some parts from 6 to 10 feet—more of them are in danger.

Many thousands of terror stricken men, women and children are fleeing from the floods half clothed

See TURKEY, Page 4, Column 5.

Nazis' Tacoma Submits to Internment

Uruguay Will Lay Up Freighter Which Took Off Crew of Spee

By the Associated Press

Montevideo, Uruguay, Jan. 1.—The Nazi freighter Tacoma rolled dismally at anchor in Montevideo harbor tonight, prisoner of Uruguayan neutrality for the rest of the European war.

Her master, Capt. Hans Know, submitted to internment this morning at expiration of a Uruguayan deadline giving him until 8 a. m. (6 a. m. E. S. T.) to get out.

Thus ended the show the Tacoma made yesterday of taking to sea to face British warships which have watched this harbor since the German pocket battleship Admiral Graf Spee fled into refuge here at the end of a 14-hour battle December 13.

The 8,268-ton Tacoma stood by the Graf Spee and took aboard some of her crewmen just before the pocket battleship's commander, Capt. Hans Langsdorff, blew up his floating fortress December 17 rather than accept internment or battle.

Uruguayan authorities gave Capt. Know and his men two days to wind up shipboard affairs. Then they will be sent to the interior of Uruguay. The freighter will be laid up Wednesday.

Internment of the Tacoma followed charges that the ship, in standing by at Capt. Langsdorff's behest to pick up the crew of the Graf Spee, had functioned as an auxiliary man o' war during an "act of war," namely, the destruction of the Spee.

Behind this official reason, however, was the constant pressure of Allied diplomacy.

Soviet Censorship Extended to Mail

Moscow (Tuesday), Jan. 2 (U.P.).—The Soviet censorship on news dispatches sent out of Russia, imposed last week, was extended today to include all mail to and from foreign countries.

Supreme Court Case Tests States' Right to 'Tariff' Taxes

Five cases whose outcome will have a vast effect on interstate commerce will be argued today in the United States Supreme Court.

Whether New York City has the power to impose a sales tax on goods coming from out of the State, or on goods sold in the city for delivery out of the State, is the specific question involved.

Decision of this question also may be decisive of whether States imposing sales taxes have the right to impose them on such interstate transactions.

Seventeen States now impose such taxes, and the Commerce and Agriculture departments contend that they comprise tariff barriers that are a major handicap to industrial recovery. The New York City tax is 2 per cent, which is the usual rate.

The cases to be argued today involve the sale of coal, oil, and machinery. The city, which uses the sales tax revenue for relief purposes, contends that it has the right to establish the terms under which business may be transacted within its boundaries.

John W. Davis, 1924 Democratic Presidential nominee, whose firm represents the Berwind-White Coal Mining Co., will challenge the tax as an improper invasion of the Federal power to regulate interstate commerce. William C. Chanler, New York City corporation counsel, will defend the tax.

The sales tax has been an increasingly popular levy with States since the beginning of the depression. New York City has been

By Harlan Miller

CHAMPIONS IN THE SENATE

When you visit the gallery of the United States Senate keep an eye on these standouts; it'll augment your enjoyment of the greatest show in town; just consult the seating plan the doorman hands you:

Harlan Miller

Busiest: Byrnes, of South Carolina . . . Most immobile: George, of Georgia . . . Blandest: Gurney, of South Dakota.

• • • •

Most righteous facial expression: Tobey, of New Hampshire . . . Most surprised expression: Schwellenbach, of Washington . . . Most puzzled: Holman, of Oregon.

• • • •

The dreamy-eyed Senator: Johnson of Colorado . . . Jolliest: Townsend of Delaware . . . Reminiscent of the 1880's: McKellar of Tennessee . . . Least likely to offend: Miller of Arkansas.

• • • •

Most typical American: Brown, of Michigan . . . Best in a cutaway: Lucas, of Illinois . . . Nearest to invisible: Bulow, of South Dakota . . . Broodingest statesman of the lot: Downey, of California.

"—each Senator a dragon-slayer"

Most articulate dragon-slayer: King, of Utah . . . Readiest with Bronx cheer: Minton, of Indiana . . . Most aloof and withdrawn on the floor: Donahey, of Ohio. . . . Cheerlest with visiting constituents: Mead, of New York.

• • • •

Most chiseled profile: Stewart, of Tennessee . . . Ablest to concentrate amid bedlam: Sheppard, of Texas . . . Hardest to identify: Andrews, of Florida; Gibson, of Vermont; Hughes, of Delaware; White, of Maine and Radcliffe, of Maryland.

• • • •

Wariest for his age—almost suspicious: La Follette of Wisconsin . . . Most silent—I haven't heard him utter a word on the Senate floor in two years—Davis of Pennsylvania. . . . Toughest: my good neighbor McCarran of Nevada.

• • • •

Country squire type: Byrd of Virginia . . . Suavest: Herring of Iowa . . . Most urbane young liberal: Hill of Alabama . . . Gloomiest physiognomy: Burke of Nebraska.

• • • •

Most paternal manner: Walsh of Massachusetts . . . Gimlet eyed: O'Mahoney of Wyoming . . . Most immaculate: Hale of Maine . . . Burliest and curliest: Barbour of New Jersey.

• • • •

"—no Senator is negligible"

Best classroom manner: Green of Rhode Island . . . Most unctuous (a champion of champions): Maloney of Connecticut . . . Man of the Peepul: Lundeen of Minnesota.

• • • •

Most vigorous and ambulatory orator: Danaher of Connecticut . . . The hill-billy Senator: Bilbo of Mississippi . . . Most chronic expression of anxiety: Guffey of Pennsylvania.

• • • •

Nimblest on his feet: Ellender, of Louisiana . . . Most innocent facial expression: Clark, of Idaho . . . Most chronic expression of disapproval: Holt, of West Virginia . . . Most popular with the gallery-gods: Connally, of Texas.

• • • •

No Senator is a negligible figure, no matter how negligible he may be in deliberation and debate . . . There's no other body of its size anywhere whose every member is so important as an individual Senator. It's something every rich wife would want to give her husband on his sixtieth birthday.

Ely Turns Aside Suggestion He Seek Presidency

Westfield, Mass., Jan. 1 (AP).—A former Massachusetts Democratic Governor, who joined Al Smith when he took "a walk" during the last Presidential election, showed little interest today in Smith's recent suggestion that he would make a good 1940 Presidential candidate.

"I am not a candidate for any political office," declared former Gov. Joseph B. Ely.

Asserting that he did not believe President Roosevelt would break tradition and run for a third term, Ely named Secretary of State Hull and Postmaster General Farley as leading Democratic personalities, describing the former as a "man of strong and sincere conviction" and the Postmaster General as one whose "word is good" and who is a "splendid organizer."

Discussing Republicans, the former Massachusetts chief executive said former President Hoover was "the most capable man in the party," and that District Attorney Thomas E. Dewey was "ambitious," but lacking in actual governmental experience.

Wallace Urges Farmers to Be Wary of Boom

Excessive Price Rise Will End in Slump, Secretary Warns

By Felix Cotten.
Post Staff Writer

Secretary of Agriculture Wallace, in his annual report to President Roosevelt yesterday, expressed the fear that farm commodity price rises stimulated by war conditions would "increase the number of non-participants" in the Agriculture Department's crop control program.

He urged farmers not to throw away control machinery in a quest for temporary profits.

War stimulated price gains, he warned, will rebound, resulting in a new depression. For this reason, he argued, the need for "cooperative land use planning" is greater, not less. Additions to crop surpluses caused by tossing controls overboard will depress prices still more, he declared, when peace comes.

Expects Prices to Rise

He admitted, however, that any price rises due to war demand likely would induce farmers to increase production in a degree greater than the demand. Even farmers cooperating with the Agriculture Department, he declared, may cultivate their "adjusted acres" more intensely.

Wallace explained that, in discussing war demand, he was talking about a possibility, not a fact. The first three months of the war, he said, did not stimulate the export demand for American farm products. "It now appears," he declared, "that our exports in the current marketing year will be smaller than they would have been had the world remained at peace."

"Probably the tendency will be for prices to rise," he said. "As Europe increases its military efforts, it will probably become more dependent on imports.

"Among agricultural commodities, wheat and cotton seem most likely to feel the resulting price stimulus. Some of our exportable farm products such as cotton, tobacco and fruits may not benefit directly. They may even find their export market somewhat curtailed."

To farmer who, with the high prices of the World War in mind, may wish to discontinue cooperation with the department, Wallace pointed out that prices may not follow the 1914 pattern. Heavy surpluses exist in cotton, wheat and many other commodities, he explained.

"War simply enlarges the problem of adjusting our agriculture to world conditions without changing it at all," he said.

Warns of Inflation

Whatever the political outcome, he declared, "the economic effects of the war will be bad." Farmers who participate in the ever-normal-granary, crop adjustment and soil conservation programs, he said, "will constitute a stabilizing influence."

Wallace warned of the danger of inflation, saying the "aftermath would be disastrous." Pointing to the Nation's enormous bank reserves, he said the possibility existed for extensive credit inflation. But foreign loans, "one of the possible inciting factors," may not develop, he declared. Moreover, the prospective outlet for American goods likely will not be as great as in the last war, he said.

Fly From Bottle Of '28 Champagne Graces Table Here

A French fly that spent 12 years in a bottle of champagne crawled drunkenly across the dinner table of Mr. and Mrs. Louis Costello, of 806 Taylor street northwest, last night, astonished Mr. and Mrs. Costello and their guests and baffled science.

Costello, banquet manager of the Raleigh Hotel, was giving a little New Year's party for Alfred Pacoska, banquet manager of the Mayflower Hotel and his wife. They opened a bottle of Pommery, 1928.

As Mrs. Pacoska related the incident, when they opened the bottle they found the fly inside. It seemed to be dead, so they laid it on a plate. After about 10 minutes it started crawling around.

"I thought that was a very interesting thing for science," said Mrs. Pacoska. "The fly must have lived in the little air space between the champagne and the cork." The fly could no longer fly, she said, but to keep it from crawling away they put it in a water glass with a saucer on top.

F. C. Bishopp, chief of the division of insects affecting man and animals of the Agriculture Department, could find no explanation of the phenomenon.

"I have never heard of a fly living more than a few months," he said.

D. L. Van Dine, chief of the division of fruit insects, was equally baffled.

Garner Returns for Congress' Opening

Associated Press Photo.

Vice President Garner was back in Washington yesterday prepared to take his place as President of the Senate when the election-year Congress is opened tomorrow. His famous smile was missing as he stepped from the train at Union Station

G. O. P. Skeptical Of Roosevelt Bid

POLITICS, from Page 1.

new fight to curtail emergency powers now held by the President under many, many laws.

Col. Knox was said to have declined the cabinet appointment on the ground that the country is not at war and is not expected to become embroiled, and that hence there is no occasion for a Republican to become a member of a Democratic administration.

Favors Big Navy

Lending verisimilitude to reports of the presidential offer, were the facts that Knox, like Mr. Roosevelt, is known as a "big Navy" man, that he has rather steadfastly supported the President's foreign policy, has favored extension of the Administration's reciprocal trade program and, in his Chicago newspaper, has indorsed the idea of a coalition Government in case of emergency.

Representative Martin was loathe to be quoted on the Jackson Day invitations, pending a conference today with Senate Minority Leader McNary on the stand to be taken.

"I don't know what to make of it," he said, adding that there was partisan accord between Republicans and Democrats on controversial domestic issues. He indicated he may have a statement on the invitations after seeing McNary today.

The House Republican conference on strategy to be followed during the Congressional session opening tomorrow will be held late this week or early next week, he said.

Hamilton said the Republican fund-raising had been accomplished by loyal men and women who believe in . . . . perpetuation of the two-party system" and "without any patronage."

He said that after the 1936 election the party debt was $1,267,000, virtually all of which, in addition to expenses of the National Committee Headquarters, the Congressional Committee headquarters and the Senatorial committee, "to say nothing of the campaign expenses of 1938," has been paid.

Crawford Ironic

"Thus," he continued, "the Republican Party goes into the 1940 Presidential year substantially free of debt, with the morale of its organization in better shape than in many years and with an enthusiastic and firm determination to elect its nominee President of the United States."

Crawford's statement said the $100 a plate invitations to G. O. P. leaders "will be cheap at twice their value, if accepted." He said the Democrats' idea was to make "bellwethers" of the Republican chieftains with the idea that their attendance here would "inveigle" rank and file Republicans to attend other diners throughout the country as paying guests.

He said he had two letters from Democratic National Headquarters soliciting Jackson Day funds from the treasurer of a local Republican organization in his district.

Representative Kean said his bill to curtail emergency powers of the President would require the President to call Congress into session as soon as he declared a state of emergency.

President Calls Session Preview

CONGRESS, from Page 1.

in a body will march over to the House to hear the President's 2 p. m. message. The general public will be barred and admission to the galleries will be only by card.

Senate to Mark Time

The Senate is expected to mark time for the rest of the week. House leaders will determine today whether to move the first of five waiting appropriation bills immediately before the House, or delay until next week the first strenuous work of the session.

Pruned only slightly under original budget estimates, the $275,000,000 national defense deficiency bill is ready to be moved first, but the Appropriations Committee may hold it up until the House docket is cleared of the controversial Gavagan antilynching bill, now slated for consideration Monday.

The party-splitting antilynching measure will be called up on a discharge motion. Advocates claim enough House votes to force consideration and approve a rule calling for six hours of debate. Unless the issue is postponed until the next "discharge Monday" two weeks later, the House will spend the first two or three days of next week in furious debate. The measure is expected to pass the House and then run into a Southern filibuster in the Senate.

Also awaiting leadership decision today is Democratic strategy on the session's overshadowing issue of reciprocal trade act extension. Chairman Doughton, of the House Ways and Means Committee, who will sponsor the extension resolution, returned to Washington last night. He is expected to contact members of his group today on handling of the measure, which faces organized Republican opposition.

Leaders were expected to defer decision on general tax legislation until after budget needs are all known and the Treasury reports on March 15 revenue yields.

President Roosevelt meanwhile was expected to recommend taxes to finance national defense spending and renew his request for levies to pay for extra-budgetary farm appropriations.

Farm Showdown Early

The first farm bloc showdown will come within the next fortnight, when the House Appropriations Committee reports the agriculture appropriation bill. Sentiment is divided on whether to include an unbudgeted $228,000,000 farm parity-price item in this bill or delay action until 1940 farm price trends are established. Agriculture Secretary Wallace's certificate tax plan of financing parity payments will come under scrutiny of the House Agriculture Committee.

Leaders also just determined what course to follow on the pending conflicting acts of wage-hour act amendments, a rule for consideration of which still is carried in the hip pocket of Representative Sabbath (Democrat), of Illinois.

Early next month the Senate Labor Committee will complete hearings on six bills for amending the national labor relations act.

C.I.O Sees New Slump Unless Congress Acts

Jobs Have Not Kept Pace With Business Gains, Forecast Says

The Congress of Industrial Organizations yesterday declared "all signs show that the United States production index will recede sharply in the last three months of 1940," but said the new session of Congress will determine "in large measure" whether the present outlook will improve.

A new monthly bulletin, "The Economic Outlook," was issued, picturing "increased unemployment and distress" in its forecast. The bulletin, prepared by the C. I. O. unemployment division of which Ralph Hetzel, jr., is director, included this summary:

American business reached in December a very high peak from which it will recede substantially in the first quarter of the new year.

Unemployment has not been reduced proportionately to the rise in business and will increase in the next three months.

The underlying economic situation does not indicate any extensive increase in business soon.

The Federal Government's present program and projected program offer only armaments as a stimulus to business, while on the other hand, on many points, such as public works, social security and taxes, it aggravates unhealthy trends.

The Congress convening in January will determine in large measure whether or not the present outlook will improve.

Overcaution Blamed

Increased unemployment was laid by the bulletin to an increase of 6,500,000 workers since 1929 and the "disemployment" of 1,500,000 by technological change.

Businessmen "have been taking a very cautious approach to the possibility of expansion," it says, apparently in fear of undue additions to inventories — although as yet "there is no conclusive evidence of excessive inventories."

In addition, the effect of foreign trade in 1940 is not expected to be "very significant," while building construction is estimated to lag behind last year, or at best only to equal 1939.

Most important factor in the outlook, the C. I. O. declared, is the problem of mass purchasing power. "President Lewis . . . pointed out that in those periods when production expands more rapidly than purchasing power, collapse is made inevitable. There are a number of indications that the economy is again approaching such a situation."

Spending Cuts Hit

A basic factor in maintaining mass purchasing power has been Federal expenditures going directly to consumers, such as those made for WPA, PWA, etc. Each time these expenditures have gone down an economic recession set in, the bulletin says, and "such a cut is clearly impending." State and local relief, now at an average of $7.54 per head per month is also expected to decline drastically.

Further withdrawals of purchasing power in the form of workers' taxes for social security are having a serious effect on the national economy, the bulletin declares. The present practice of placing the tax burden on consumers (over 50 per cent of revenue was raised in this way in 1938) adds to this withdrawal of consumers' funds. "Unless—and the administration does not seem to be preparing to make such proposals—effective changes are made in our national tax structure," the C. I. O. says, "the tax situation will continue to be a factor aggravating underconsumption."

The Federal budget prospect, with the proposed emphasis on arms rather than expenditures for consumption," is probably the most discouraging single factor in the economic outlook," the bulletin says.

The bulletin refers to the C. I. O. legislative program for the coming session of Congress, declaring that it would, if enacted, "put the Federal Government in an economically sound position," since its emphasis on labor's rights, jobs for the unemployed and for youth, plus increased social security, health and housing programs and tax revision would "place the Government in the position of encouraging economic stability."

USHA to Move 4,800 Each Month of '40

Rehousing 160,000 A 'Drop in Bucket,' Straus Declares

The United States Housing Authority has in two years provided new homes for more than 125,000 former slum-dwellers, and will move 4,800 families into better quarters each month of this year, Administrator Nathan Straus said in a New Year's message last night.

But that is only, he added, "a scratch on the surface of a tremendous problem."

"True, the rehousing of those families will constitute the greatest contribution yet made in the history of the United States toward strengthening that great American institution, the home," he declared.

Cites Saving to Public

"But as compared with the many millions who will still be dragging out their lives in the squalor of the slums, the rehousing of 160,000 families is only a very small drop in a very large bucket."

The present program, although small, has meant a saving to taxpayers through improved public health, and a boon to labor and capital in the construction and related industries, he claimed.

He reported that the USHA had loaned $581,000,000 to defray 90 per cent of the cost of $636,000,000 worth of projects; had begun construction of 60,000 dwellings in 150 projects, on which $100,000,000 will be spent for building materials and $81,000,000 for wages; and that 63,000 workers in the building materials industry would be employed as an indirect result.

Holds Rents Lower

In every new home built through the USHA the tenants pay rents as low or lower than for the "ramshackle and insanitary firetraps" from which they are evacuated, Straus said. Private industry alone has never been able to provide proper housing at such low rents, he declared, and without Government aid "there is no reason to believe that they will soon be able to do it."

The economic benefits flowing from improved health and increased employment, Straus claimed, more than counterbalances the sums paid by the National Treasury to help keep the rents down.

As advances for the future in the housing field, Straus pointed to the Wagner-Steagall bill now before the House of Representatives, which would increase the USHA program from 160,000 to more than 400,000 family units, and to the plans for rural low-cost housing now going forward with the cooperation of the Department of Agriculture and the Farm Security Administration.

Defense Society Backs Dies Group; Clerics Oppose It

New York, Jan. 1.—The American Defense Society, of New York, called on Congress today to continue the Dies Committee, and at the same time 98 clergymen and religious workers made public an open letter to Speaker Bankhead of the House, demanding its dissolution.

In a letter to each member of the House and Senate, Robert Appleton, chairman of the American Defense Society, said the special House Committee to investigate un-American activities has uncovered the expenditure of vast sums by subversive agencies.

The clergymen and religious workers, whose letter was made public through the American League for peace and democracy charged the Dies Committee itself is "un-American" and asserted that it "must be dissolved before it succeeds in dissolving out bill of rights."

'Tariff' Taxes Before Court

TARIFF, from Page 1.

imposing the tax since 1934. The New York Court of Appeals has held it invalid, and the United States Supreme Court in two earlier appeals has refused to hear appeals from the New York high court decisions.

The fact that the Supreme Court at last has consented to hear argument on the point is significant of the importance of the Federal contention that such taxes are crippling trade barriers as against the States' contention that they are necessary for relief.

Record Police Guard Ordered For Congress; To Lock Doors

The opening of Congress tomorrow will be protected by one of the greatest forces of armed guards ever to assemble on Capitol Hill.

Under orders from the Secret Service, Capitol Police are preparing the most elaborate precautionary measures since last summer's visit of the King and Queen of England, it was learned last night.

Special guard orders issued for the recent neutrality session will remain in force, said Capt. William S. Orthman, Capitol police chief. The Metropolitan Police Department will send one of the largest squads of plain clothes and uniformed men yet detailed to an opening of Congress.

First protective steps will be taken at midnight tonight, when all doors to the Capitol will be locked and special armed police units be placed on guard.

The Capitol force of 136 policemen will be on duty throughout the opening day. A squad of 20 detective sergeants from the Metropolitan Department will augment Secret Service and F. B. I. men in Capitol corridors.

Inspector L. I. H. Edwards, assistant superintendent of Washington police, indicated an extra-large number of uniformed officers will be assigned to duty on the Plaza and adjacent Capitol Hill areas.

Admission to Congressional galleries will be by identification cards only—press and members' guests, as was done at opening of the neutrality session, hallways of the Capitol will be barricaded and will be guarded by uniformed police.

"I've been a member of the Capitol Police Force for three years," said an officer on the House side, "and I've never seen so many precautions as are planned."

Millions Rally To Defense of Trade Program

Women, Business Men Mobilizing to Support Hull Policy

By Andrue Berding,
Associated Press Staff Writer

An army of millions is in mobilization throughout the Nation to defend the trade agreements program against destruction in the session of Congress which opens tomorrow.

The State Department has learned that scores of organizations that feel they have benefited from the reciprocal tariff pacts have pledged their support of Secretary Hull's policy.

The Congressmen who are now feeling the pressure of industrial or agricultural interests which believe they have been affected adversely by the program, soon may begin hearing from the defense forces.

Women Back Policy

Defending Hull's policy are three main groups: Women's organizations, businessmen interested in the import and export trade, and organizations devoted to the improvement of international relations.

Women, so the figures show, spend the majority of the Nation's income and are therefore interested in lower prices brought about by lower tariffs. The State Department lists the following among the women's organizations which have gone on record in favor of the trade-agreements program:

General Federation of Women's Clubs, embracing 2,000,000 members; American Association of University Women; National League of Women Voters; National Board, Young Women's Christian Association; National Council of Jewish Women; Women's International League for Peace and Freedom, and the National Women's Trade Union League.

The National League of Women Voters, which has a membership of around 63,000, has made a systematic study of the trade-agreements program and has passed on its recommendations in favor of the program to its 600 branches.

Clubs Uphold Program

The General Federation of Women's Clubs, which went on record for the trade agreements in the spring of 1936, has recently become active in support of the program. There are about 14,000 women's clubs in the States affiliated with the federation.

The National Federation of Business and Professional Women's Clubs and the Zonta Clubs have not formally recommended the program but have given some study to it. A number of their local branches have passed resolutions supporting it, officials say.

The State Department lists the following business associations among those favorable to the trade program:

The American Cotton Cooperative Association, the American Cotton Shippers Association, the American Automobile Manufacturers Association, the Millers National Federation, the National Council, the National Lumber Exporters Association, and the Aeronautical Chamber of Commerce. Linked with these should be a large number of export managers and foreign trade clubs, such as at Detroit, St. Louis and Philadelphia, and certain individual chambers of commerce.

Coordination Discussed

Both the National Committee on the Cause and Cure of War and the National Peace Conference have recommended to their member organizations support of the trade-agreements program, Federal officials say, although their action does not of itself place the member organizations which compose them on record in the same way. The National Peace Conference embraces 37 national organizations interested in the promotion of peace, and claims to reach 25,000,000 persons.

As the battle is about to begin, the need for coordination of the three sections is under discussion. About two years ago, an organization was founded at Des Moines, Iowa, known as the eco..omic policy committee, to popularize the trade-agreements. It has been most active (incidentally it distributed excerpts from a 1939 speech by Frank Knox, Republican candidate for Vice President in 1936, in which he inveighs against high tariffs) and some persons here have thought it might serve in that capacity. But the majority opinion among trade-agreement proponents is that a new coordinating committee should be set up in Washington.

Rely on Outside Aid

The State Department as such may not, under the Connally act, distribute "literature" on behalf of the trade-agreements program unless someone writes to the department and specifically asks for it. There is nothing, on the other hand, to prevent opponents of the trade-agreements from flooding the country with "literature." Consequetly Hull must rely on outside organizations to work for his program.

The last few months have been a series of attacks on the trade-agreements from Congressmen behind whom are ranged industrial and agricultural interests and organizations that feel the agreements have harmed them—or may. On the defense side there has been stout but isolated resistance and even counter attacks from Secretary Hull, Undersecretary Welles and Assistant Secretary Grady, a Senator or two like Clark (Democrat), of Missouri, and behind them—just a few scattered voices. Now the main defense forces are expected to move up to the firing line to give weight and power to the strategy of the leaders.

Miss America Engaged to Fullback

Associated Press WIREPHOTO

Patricia Donnelly, 19-year-old Detroit girl, pictured at Atlantic City when she was crowned Miss America 1939, yesterday announced her engagement to Frank Bradford, 21, fullback on the University of Alabama football team. "We haven't any definite plans for the future," said Miss Donnelly. "I wouldn't think of getting married during 1940. I want to work for a while"

Austrian Reported New U. S. Bund Head

London (Tuesday), Jan. 2 (INS).—Alfred Frauenfeld, an Austrian Nazi, has been appointed to succeed Fritz Kuhn as head of the German-American Bund, the Daily Sketch said today. The newspaper declared the United States Secret Service had been informed of the appointment.

The Sketch said Frauenfeld is supposed to carry on and intensify Bund work in the United States while Kuhn serves a prison term in Sing Sing for theft.

Dr. G. W. Hawley, Orthopedist, Dies

Westport, Conn., Jan. 1 (AP).—Dr. George Waller Hawley, 65, internationally noted orthopedic surgeon, died today at his home here after a long illness.

A pupil of the famed Dr. Alexis Carrel, of France, Dr. Hawley invented the world's first fracture table 29 years ago, the original model of which now is in the Smithsonian Institution.

Parents Slain, Home Burned, Boy, 8, Relates

Justice of Peace Who Married Couple Hears of Their Death

By the Associated Press

Fort Towson, Okla., Jan. 1.—A frightened, drowsy little boy's story that two strangers shot his father and mother, then burned the house down on them and his small brother prompted an intensive investigation today.

Excited and shocked, 8-year-old James Glenn Rogers was questioned by officials studying the deaths last night of Mr. and Mrs. Elmer Rogers and their 4-year-old son, Dean.

County Attorney Norman Horton said "the physical facts point to violence of some kind."

Guided by flashlights and the flickering rays of a big wood fire, Coroner's jurors scratched about the ruins of the three-room farmhouse at the hour the rest of the world was celebrating the new year.

Judge Wed Couple Himself

They examined the charred bodies laid out a few feet from where Joe White, 70-year-old justice of the peace, convened his eerie court, shadowed by heavy timber and a black sky in penetrating cold.

White himself married the couple nine years ago. He was to hear the verdict in their deaths later today.

"It was about bedtime," James told Horton, that two men he hadn't seen before knocked at the house.

Put Coal Oil Around

"Right away they came in and shot daddy with a big gun.

"Mother ran to the yard for help. She got to the back porch and they shot her, too."

James said the men began striking matches and putting coal oil about the place.

He was in the "front room," he snatched up his 1-year-old brother, Billie Don, and ran for help. The baby in his arms, he brought first news of the tragedy to Fort Towson 1 mile from his home.

$71,000,000 BonusDeadline Falls Tonight

Office to Be Open Until Midnight for Last-Minute Claims

Washington war veterans have until midnight to decide whether they will file for their share in $71,000,000 in bonus money not yet claimed, or whether they will leave it by default in the United States Treasury.

Several veterans filed applications yesterday at the World War Division, Adjutant General's Office, in Building E, Sixth street and Madison drive southwest. The office, it was explained, will keep its lights burning until midnight for the benefit of latecomers.

Certificates already have been issued to men who served in the Army during the World War entitling them, eventually, to benefits in cash or bonds of almost $3,000,000,000. The average amount awaiting veterans is between $500 and $1,000.

Claims dropped off slightly during the Christmas and New Year holidays, but previously had been coming in at the rate of approximately 300 a month, it was learned.

C. I. O. and A. F. L. Split to Stay

By International News Service

John L. Lewis has told President Roosevelt there is virtually no prospect of an amalgamation between the Congress of Industrial Organizations and the American Federation of Labor in 1940.

Well-informed labor sources said the President's cherished hope of healing the labor breach before his second term runs out was dashed by the C. I. O. chief at a pre-Christmas conference between them in the White House.

Lewis, these sources said, asked for the audience to urge Mr. Roosevelt to present to the incoming Congress a huge public works—housing—youth employment—health program costing up to $5,000,000,000.

The President, they reported, cold-shouldered the C. I. O. plan on the ground the treasury could not bear it.

In turn, labor leaders revealed, Mr. Roosevelt suggested that settlement of the factional war would contribute as much to the public weal as Lewis' plan, and without unbearable cost to anybody.

In reply, Lewis reportedly argued that the split had worked good as well as evil, stimulating a healthy competition which increased the membership of both organizations.

346 Violent Deaths Mar New Year's

By the Associated Press

The New Year week-end took more than 346 lives by violence in 42 States and the District of Columbia. Of these 173 were caused by traffic accidents. The week-end also saw 37 suicides, 23 slayings and 13 deaths by fire.

$500,000 Fire Razes Hoboken Mayor's Home

Hoboken, N. J., Jan. 1 (AP).—Three persons were injured slightly today in a fire which swept through a city block, destroying the home of Mayor Bernard N. McFeely, four other houses, a cabinet factory, a paper plate plant and two office buildings. Fire officials estimated damage might amount to $500,000.

IN NO OTHER LAND does the magic word HOME mean so much as it does in America today.

For our homes are not only the symbols of our liberty but our standards of achievement for all the rest of the world.

In our homes we enjoy freedom of speech and opinion. Freedom of the press and freedom of speech by radio make it possible for every man, woman and child to be informed of the affairs of the world.

There is another freedom we enjoy in our homes that is the envy of the rest of the world—freedom from drudgery, drafts and contamination.

And for this freedom we can give thanks largely to the Heating and Plumbing Contractors of America.

Heating and Plumbing are the twin guardians of our family welfare. Heating safeguards our homes against cold, dampness and discomfort upon which sickness thrives. Plumbing supplies the fresh, pure water so essential to well-being and carries away waste so dangerous to good health.

Both Heating and Plumbing are too essential to the welfare of your family and to the uninterrupted enjoyment of your home to be entrusted to any but the skilled hands of a Heating and Plumbing Contractor.

Henry M. Reed
Chairman of the Board

Cold Helped Finns Destroy Soviet Division

Many Red Soldiers Too Stiff to Shoot When Caught in Trap

By Hubert Uexkuell
United Press Staff Writer.

With the Finnish Northern Army, Rovaniemi, Jan. 1.—Finnish officers tonight told the full story of the Lake Kianta "death trap" where Finland's defenders, having trapped an entire Russian division of about 18,000 men, waited for 10 days while subzero weather froze the enemy into helplessness.

The "death trap," just north of Suomussalmi where the Finns yesterday announced the virtual annihilation of the Red army's 163d Division in a two-day battle, gave the Finnish army its greatest victory thus far in the war.

A direct attack on the Russian division, vastly superior in numbers, would have been suicide for the Finns so they called on their best ally, the weather, to aid them.

After drawing the Russians into the trap at the eastern side of Finland's 135-mile-wide waistline, it was said, the Finns waited for 10 days until the Russians were so numbed by the bitter cold that many could hardly lift a rifle.

This, the Finnish officers said, is the story behind the Finnish high command's communique of Sunday night describing the rout of the Russian division and the capture of enormous amounts of war booty of all kinds.

The triumph came at a point where, early in the month-old conflict, the Russians seemed about to roll across Finland's narrowest section, cutting the country in half at the top of the Gulf of Bothnia.

The wiping out of the division was only the final phase of the battle, which actually had been going on north of Suomussalmi for three weeks. As early as December 9 A Finnish communique told of the recapture of Suomussalmi village and the surrounding of Russian forces at the western end of Lake Kianta.

Nothing more was heard from Suomussalmi except an occasional official statement that "mopping up operations" were continuing. The real significance of these mopping up operations was not apparent until yesterday's communique.

When the Russians got into the "death trap," the Finns surrounded them, cutting off all hope of communication with their supply bases.

Ten days of bitter cold without shelter and with dwindling supplies were enough to sap the fighting strength of the entire Russian force.

When the Finns finally attacked on the eleventh day, Russian soldiers as well as horses were found on the battlefield so weak and so frozen they could hardly move their limbs.

Nevertheless, the Rusians resisted for three days. On the fourth day all the fighting was over on this side of the lake. "Several thousand" Russians were dead and the remaining scattered in small groups in the forest, where pursuing Finns and the inescapable cold accounted for many more.

No accurate estimates of the dead are yet possible, but military observers believed there were at least 3,000 to 4,000.

Night Route Described

By K. J. Eskelund
Copyright by New York Times

Helsinki, Jan. 1.—I talked today with an officer who witnessed a few days ago the big Russian defeat at the Aglajervi front, about 200 kilometers north of Lake Ladoga.

He related that the attacking Russian units, numbering several thousands, were allowed to advance along a forest clad promontory, where, at nightfall, the Finns encircled the invaders.

The encircling Finns, concealed behind trees in the forest, allowed the Russians to approach to within 20 meters of them, and then the order to fire was given.

In the freezing weather the bewildered Russians, who had been advancing in groups, were mowed down by the Finns who continued their fire until all was quiet, as it was impossible to take prisoners, according to my informant's account.

The place of carnage was marked by heaps of dead, this officer went on; the Russians having later been found lying as they had fallen with their bare hands stuffed into their sleeves in order to keep them warm. Many of the Red army soldiers were found to have been pierced by several bullets and others to have been practically disintegrated by Finnish shells.

This victory was important as one of the Russian crack regiments from the Moscow garrison was virtually annihilated. Russians participating were all young, splendidly uniformed and equipped with rifles and machine guns of extra quality. All were provided with telescopic sights. Most of the arms were from the Skoda factories of Czecho-Slovakia.

This Finnish officer stated that the Russian troops, however, had no idea of the use of these excellent arms and had mostly fired the rifles from their hips.

Blizzard Halts Fighting in West; Poilus Repel Raid

Paris, Jan. 1 (INS).—Blizzards halted virtually all activity on the Western Front today except for one unsuccessful attempt by a German detachment to raid a French outpost west of the Vosges Mountains.

The morning communique said "nothing to report from the entire front."

The evening communique said "a quiet day on the whole. An enemy detachment attempted a raid on one of our posts west of the Vosges which was repulsed."

(The German communique was equally brief in its statement of calm. It said "nothing noteworthy is happening on the Western Front.")

Report Goering Was Shot 'Nonsense,' Say Nazis

Berlin, Jan. 1 (AP).—Reports published abroad that Field Marshal Goering had been shot, either accidentally or in an attempt on his life, were described as "nonsense" tonight by an authorized Nazi spokesman.

'Six Lucky Girls' Ordered Home From Europe

Associated Press Photo.

These six Chicago dancers, who toured France, Germany, Norway, Sweden and Denmark as the "Six Lucky Girls," arrived at Jersey City aboard the S. S. Scanpenn. They are (left to right) Evelyn Willard, Dotty Dollaske, Geri Donahue, June Just, Loraine Borris and Babs Flannery. They were ordered home from a cabaret engagement in Copenhagen by the American Consul

Bombs Set Fires In Finnish Port

FINNS, from Page 1.

of former Swedish army officers.

(Britain informed the League of Nations she would give Finland all assistance possbile to fight the Russian invasion.)

The Finnish communique recounted results of yesterday's extensibe Russian raids, asserting 7 civilians were killed and many wounded at Jyvaskala, 170 miles northeast of Helsinki, and three civilians killed and many hurt at Vaasa, on the west coast.

The communique declared the Finns had repulsed heavy artillery-supported Russian attacks on the Karelian Isthmus and above Lake Ladoga.

Kallio, in his mesage, reviewed Finland's diplomatic negotiations with Russia prior to hostilities, and said the nation was "atttacked by Russia while the negotiations still had not been concluded.

"Her action in setting up a Communist government for a nation she had not yet conquered shows that she had decided to occupy and bolshevize our country because we had not accepted the Russion demands outright."

The President referred to the Communist regime set up at the frontier village of Terijoki, which Moscow recognized as the legal Finnish government, and with which she signed a nonaggression pact.

"Old imperialistic Russia, throughout our history a threat to Finland, stands revealed. Without the slightest cause on our part she invaded our country," Kallio said.

"Our comfort in this time of great trial is the spirit of sacrifice and solidarity that lives in our midst. In its distress the Finnish nation has found its true self. And for that, at least, we can feel joy."

After thanking the army and women's organizations helping behind the front, the President closed with the prayer that "God protect this country and this people during the year now beginning and forever."

Norway Opens Inquiry

Oslo, Norway, Jan. 1 (AP).—The government today ordered an investigation of Finnish charges that Soviet fliers had bombed Norwegian territory in the Petsamo region.

Report Petsamo Retaken

Helsinki, Jan. 1 (INS).—Finland's troops tonight were reported semi-officially to have recaptured Petsamo, Finnish Arctic port.

The report would indicate a Finnish victory over Russian forces estimated at 16,000 men, including motorized equipment and many planes operating out of Murmansk, Soviet Arctic port and terminal of the strategic Murmansk-Leningrad railroad.

Red Cross War Aid Climbs To $858,881

Heavy Expenditures For Finnish Relief Boost 4-Month Total

Due to heavy expenditure for Finnish assistance during the past ten days, costs of American Red Cross war relief now total $858,881, according to an announcement yesterday by Chairman Norman H. Davis.

Almost $300,000 has been spent directly for gauze and material by chapters, in addition to the following sums expended both in America and abroad; $307,432 for Polish relief, $138,746 for Finland, $25,000 for Great Britain and $12,755 for France.

No requests for aid have been received from the Red Cross societies of Soviet Russia or Germany, Davis said.

Finnish Needs Urgent

Purchases abroad are being confined to expenditures in which delay might add to the suffering, and these, the chairman explained, are being handled by American delegates.

Major problems are Finnish and Polish needs, Davis said, declaring that latest cables from Wayne Chatfield Taylor, who has been in Helsinki, carry urgent appeals for clothing and medical supplies.

Among other mass migrations, 400,000 Finns, mostly women and children, have fled west toward the Norwegian and Swedish borders. As a consequence, thousands of pounds of medical supplies have been shipped from London to the Finnish areas to forestall threat of epidemic outbreaks of typhus and other Oriental diseases.

50,000 Volunteers Work

Warm clothing, medical supplies, surgical instruments, and other emergency requirements are being furnished in all four of the countries, Chairman Davis said.

Approximately 50,000 volunteers are producing surgical dressings and warm garments in chapters throughout the country, he said, estimating that without the volunteer help costs of the four months of war would have run above $1,000,000.

"The value of this chapter-produced work, however, is worth much more than the cost of materials," the chairman declared. "Such splendid and sympathetic work on the part of volunteers is enabling the organization greatly to expand its assistance to the sufferers in Europe."

2 Million Men Drafted by Britain

BRITISH, from Page 1.

today that the pace might be speeded up, however

Formal call-ups for the new age groups will be spaced over some months, with the 23-year-olds being mobilized first, perhaps on March 1.

The speed with which the new age groups will be called up will be governed by developments. There have been strong indications that British military leaders expect sharply intensified warfare in 1940.

Sir Thomas Phillips, secretary to the labor ministry, said: "I think it is pretty certain that all new classes will have been called to the colors by the end of 1940."

Thus, should a major offensive develop on either side of the Western Front in the spring—or if the war should spread to the Balkans or the Scandinavian peninsula—the potential conscripts may be whipped into shape.

All male Britons between 18 and 41 are liable for military service, but the practice is to call them by age groups. Heretofore age groups have been summoned singly. Tonight six classes were linked in one order for the sake of administrative convenience.

The six new groups may now be registered for service at any time, without the formality of a royal proclamation for each. In addition, the government will be able to survey at its leisure how the removal of such a vast number of men from civilian life will affect vital industries. This wholesale calling up is expected also to have an effect on Britain's unemployment figure, which now stands roughly at 1,500,000.

Impressive as are the statistics on Britain's manpower, as indicated in tonight's news, military observers in London point out that manpower is only a minor problem for Britain: The major hurdle is that of equipping a vast army in the shortest possible time.

The military correspondent of the Times remarks today that the problem of military training is more important because of the highly technical nature of modern arms and equipment. Thus it is that it will require more than a series of strokes of a sovereign's pen to bring into being a qualified, mechanized army on the continental model.

B. E. F. Not Overarmed

Even now, the Times expert adds, it does not appear that the existing British expeditionary force is "overarmed."

An additional complicating factor in supplying Britain's army is the arrival of contingents of troops from the empire. Canada has already sent at least one full division across the Atlantic for last-minute training in England. In September it was estimated that her population could provide seven divisions.

Four may be expected from Australia, one from New Zealand and slightly more than a division from South Africa. India has already sent troops to France and in the last war India supplied 1,000,000 combatants.

Danish King Thanks U.S. For Greeting to His Son

Copenhagen, Jan. 1 (INS).—King Christian of Denmark tonight thanked all Americans and Danish-Americans for the friendly welcome which greeted Crown Prince Frederick and the Crown Princess when they visited the United States last summer. The King spoke at a state dinner.

Nazis Building Midget Subs For Spring Drive, British Say

By the United Press

Paris, Jan. 1.—An official admiralty announcement today said Germany has begun construction of a new fleet of 150-ton "vest pocket" submarines to be used exclusively for extension of the counter-blockade of Great Britain and France.

The vest-pocket submarines would require crews of only 20 officers and men as compared with crews of 60 or more men for Germany's 1,500-ton U-boats and 40 men for her 550-ton and 720-ton types.

Size of the midget U-boats would limit their fuel capacity, however, and reduce their radius of action to four or five days' cruising in contrast to large submarines which are able to remain at sea a month.

The official assertion of Germany's plan to build "vest pocket" submarines coincided with another announcement that the French navy has sunk nine German submarines since start of the war and that a tenth may have been sunk off Spain a few days ago.

French naval experts profess to believe Fuehrer Hitler has decided to build small submarines because they can be turned out 10 times as fast as the big U-boats and can be built in many small shipyards without interfering with normal construction of big-tonnage ships.

Germany, it was asserted, hopes to have a fleet of the "vest pocket" submarines ready by spring when the Nazis are expected here to start an intensified submarine and mine campaign against allied shipping and all other sea-borne commerce traversing allied routes.

The French Admiralty said many steel plants inside Germany far from the coast could build parts for the small U-Boats and ship them to the coast for assembling, thereby speeding up production.

Answering German claims that submarines are being built in the Reich at the rate of one a day, the admiralty referred to World War statistics showing Germany never built at a pace faster than four to 12 submarines a month except in October, 1917, when 13 were built.

6 "EXTRA" HELPS quickly relieve DISTRESS of CHILDREN'S COUGHS DUE TO COLDS

DON'T "take chances" with unknown products to relieve discomfort of your child's spasmodic croupy coughs caused by colds. Use "Children's" Musterole! Musterole gives such QUICK relief because it's not "just an ordinary salve." Rub it well on your kiddie's chest, throat and back. It soothes and stimulates surface circulation and helps break up local congestion and pain. Its soothing vapors ease breathing. 40¢. Approved by Good Housekeeping Bureau.

Allies Sending Planes, Guns To Aid Finns

Gasoline, Ammunition Included in Supplies; Intervention Spreading

By James B. Reston.
Copyright by the N. Y. Times

London, Jan. 1.—The British and the French governments are putting fighting planes, antitank and anti-aircraft guns, gasoline and large quantities of ammunition at disposal of Finland.

The foreign office announced tonight that the British government had advised the League of Nations of its intent to "afford all assistance they are in a position to give the Finnish government" and while no official details were given, it was disclosed here that between 80 and 90 British and French planes already have been earmarked for the Finns.

Last week 30 of the newest French planes, just off the production line, were brought here for shipment to Helsinki. The British added nearly twice this number, and even if these were not of the new Hurricane or Spitfire types, they are planes good enough to be used in the front line of the British coastal defense.

The British announced December 6 they were sending between 20 and 30 fighters to the Finns. These, however, are believed to have been shipped across the North Sea. They are entirely separate from this new shipment.

In addition to planes, the French have released a considerable quantity of antitank guns and small ammunition and the British have dipped into their much needed stores of antiaircraft equipment and gasoline in an effort to keep the Finns from being overrun.

In the past few days it has become evident European powers are intervening in the Russo-Finnish dispute more all the time. It is maintained here in most reliable quarters, for example, that even Germany still is sending whatever arms to Finland the Finns can purchase with cash.

Outside of official Allied and Finnish quarters, it is not known to what extent Sweden is helping Finland. According to diplomatic dispatches the Swedes are putting their entire arms industry behind their neighbor and Swedish volunteers are beginning to move across the Finnish frontier with great regularity.

Black Sea Storm Adds to Turks' Woe

TURKEY, from Page 1.

and suffering from the bitter cold. It is feared that the full extent of the flood damage will not become known for several days.

Railroad communications between Istanbul and Ankara were cut off, defeating attempts to rush aid to the earthquake wrecked regions of Anatolia, when flood waters raced through the Geyve Valley 97 miles southeast of Istanbul.

The flood inundated 32 villages of the Geyve region.

Meanwhile, new earthquake shocks added to the devastation in Anatolia.

The new tremors again severed hastily repaired communications with the interior and there was no news from Erzincan province, where 70 per cent of a total population of 135,000 is believed to have perished.

The suffering was aggravated by a blizzard in some regions and temperatures as low as 22 below zero.

The worst flood devastation was in the Adapazar valley, about 65 miles southeast of Istanbul, where the Sakaria and Mudurno rivers burst their banks in Izmit Province, and continued to rise rapidly.

The Nilufer, Halife and Karadere rivers were said to have changed their courses because of the flood and to have turned back from the Sea of Marmora to the Lake of Apaleon.

Seven Shocks in 24 Hours

Today's new earthquake shocks, toppling buildings and burying refugees in Anatolia, increased the sufferings of thousands of homeless and added to the burden of relief workers as the death toll mounted. New quakes continued throughout last night and today. At Erzincan seven new shocks were registered during the last 24 hours.

Puerto Rico Base Work Progressing, Leahy Reports

Work on the $30,000,000 Army and Navy base in Puerto Rico is progressing satisfactorily, but it will be a long and difficult task to complete the island's defenses, Admiral William D. Leahy, governor of Puerto Rico, said last night.

Admiral Leahy returned to Washington yesterday from Puerto Rico where he has been directing work on the base.

Bolivar Pagan, whom Leahy appointed to represent Puerto Rico in Congress as resident commissioner, also arrived to assume the post left vacant by the death of Santiago Iglesias, his father-in-law. Pagan proceeded to Baltimore, to discuss the island's problems with Rafael Martinez Nadal, president of the Puerto Rican Senate, who is a patient at Johns Hopkins Hospital.

Hitler to Step Down as Fuehrer, Paris Paper Says

Paris, Jan. 1 (INS).—The semi-official newspaper, Petit Parisien, asserted today in a dispatch under an Italian date line that Adolf Hitler is preparing to step down as chancellor of Germany and eliminate more radical Nazis from his regime in order to persuade the Allies to make peace.

The article, repeating recent Anglo-French reports branded by the Germans as Allied propaganda, said that Marshal Goering would become chancellor and that Hitler would become President of the Reich.

The correspondent gave no authority for his report.

$450,000,000 Spent in '39 to Build Up Army

736 Planes Delivered, 3,547 on Order; Guns, Air Defense Boosted

The Army reported yesterday that weapons and equipment purchased last year cost more than the Spanish-American War.

Procurement of military supplies during the fiscal year 1939 reached a new peak with expenditures of $450,000,000, Assistant Secretary of War Louis Johnson stated.

An even larger program is now under way, the War Department official noted in his annual report to Secretary of War Woodring. Last year 736 airplanes, costing $39,000,000, were delivered to the Army and orders placed for 1,047 more, costing $66,000,000, he said, while this year's orders total 2,500 planes.

"This is the greatest peacetime procurement of aircraft ever made by this Government," Johnson added.

As the result of continuous conferences with the aircraft industry, he stated, productive capacity ample to give the Army a minimum strength of 5,500 first-line warplanes by mid-1941 has been developed.

"To gain a quick and decisive victory," he declared "a nation at war today must not only arm its fighters with the product of industry, but it must coordinate and integrate its entire economic resources."

Inauguration of a program of educational war orders for American industry under a $14,250,000 appropriation, the Army chief said, represented "a significant milestone in our quest for adequate industrial preparedness."

"A civilian industry, trained to produce our needs in an emergency," he added, "will save us from great sacrifices in treasure and, what is more important, precious lives—the lives of American young men that no money can buy."

Johnson said that the Army, Navy, Labor and Interior Departments, Civil Aeronautics Authority, the Civil Conservation Corps and the National Youth Administration were cooperating in the preparation of a program of vocational education to create a reserve of mechanically skilled manpower.

Skilled Labor Problem

"Preliminary surveys indicate," he said, "that one of the most serious problems that will arise in time of war is the supply of skilled labor in the mechanical trades."

Without giving actual numbers, Johnson reported the following progress in equipping ground elements of the Army:

"Production orders have been placed for a 400 per cent increase in the number of sound locators for antiaircraft guns and carriages; a 210 per cent increase in antiaircraft guns and carriages; 140 per cent increase in antiaircraft guns; 153 per cent increase in semiautomatic rifles; a 130 per cent increase in directors for antiaircraft fire control, and a 15 per cent increase in trench mortars and scout cars.

"Contracts have been placed for the first time for quantity purchases of antitank guns and 37 millimeter antiaircraft mounts.

"Orders have been placed with industry for assorted types of ammunition aggregating approximately $12,000,000. More than $4,000,000 were used to buy war reserve machinery. Springfield armory was tooled up, at a cost of $1,800,000 for increased production."

Discussing progress made in plans for industrial mobilization and procurement in time of war, Johnson said that this of necessity must "encompass every phase of our national life."

The Army and Navy Munitions Board, charged with planning for industrial mobilization, has studied the problem of price control in time of war.

Johnson declared that American industry is becoming alive to national defense necessities and its role in time of war.

"I am convinced," he said, "that our Nation, awakening to realities, is coming to a much clearer and certainly more definite understanding of the close association of military and economic factors. If the requests for information by industry upon my office may be taken as a criterion, then I am confident that national interest in our problems is avid, keen and intelligent."

British Vessel Sunk With 20; Base Raided

Second Ship Beached; Nazi Bombers Driven Off From Shetlands

By Raymond Daniell.
Copyright by New York Times

London, Jan. 1.—Just when the British were congratulating themselves on the increased tonnage that was entering and leaving United Kingdom ports and upon the sharp drop in sinkings due to enemy action, bad news came from the sea. Twenty members of a crew of 32 aboard the Box Hall, 5,677-ton London steamship, it was made known, were killed when she sunk in two or three minutes after an explosion in the mine littered waters of the North Sea, and the British steamship Delfino, a new vessel of 8,000 tons, was beached in the nick of time after striking a mine.

The trawler Barbara Robertson, survivors said, was torpedoed by a German submarine. One man was lost from the Barbara Robertson.

Norse Vessel Lost

The Norwegian steamer Luna, 959 tons, was sunk after striking a mine off Bergen. Another Norwegian vessel rescued the crew.

These were entries for the debit side of the war at sea. They did not seriously diminish the Admiralty's satisfaction in figures made public today. Showing that in the ten days, from December 11 to 20, 1,454 ships, representing a gross tonnage of 3,648,000, entered or cleared British ports. This was an increase of 30 per cent in tonnage over the figures for the first ten days of December.

Sinkings due to enemy action from December 24 to 30, inclusive, amounted to only about one-fifth of the tonnage lost in the preceding week.

Three British ships, totaling 3,056 tons, were sunk last week. In addition two neutral ships, totaling 1,643 tons, were sent to the bottom by mines or torpedoes.

Two German bombers raided part of the British navy near the Shetland Islands today but did not succeed in doing any damage or cause any casualties, according to the joint statement of the Air Ministry and the Admiralty. One of the planes power dived directly over a warship in an effort to destroy her but a heavy anti-aircraft fire drove it off.

The enemy raider was last seen in an erratic flight, its engines alternately racing and slowing down. While it was believed the plane had been too badly damaged to be able to get home, search of the waters east of the Shetlands by a British destroyer failed to reveal any trace of wreckage or signs of the bomber's crew.

The second German plane escaped.

Battle Off Scotland

Another air battle took place 130 miles off the east coast of Scotland, it was said, when three British aircraft encountered two Heinkels flying toward the British coast.

One Heinkel was hit in the fuselage, engines and wings several times, and a moment later was seen plunging into the sea in flames. As it neared the water one member of the crew bailed out, but a member of the British plane's crew said he was unsuccessful in avoiding the blazing wreck. The other plane managed to escape, the statement said.

(In Berlin the German high command said that, during an air battle resulting from today's reconnaissance flights over the Shetland and Orkney Islands, a German plane was forced down at sea because of a previous technical defect and that "it is hoped that the crew will yet be rescued." One of the British planes was badly hit, it was said, and undoubtedly was unable to reach its base.

(The German command also announced that an attempted British raid on Germany's North Sea coast was beaten off yesterday. No further details were given.)

Britain Issues Ban On Tobacco Imports

Copyright by New York Times

London, Jan. 1.—Cuban cigars and American cigarettes are the chief products hit by a Board of Trade order, effective today, prohibiting importation of manufactured tobacco and snuff except under special license. It was added that no further import licenses would be issued until further notice. The ban has been imposed because of unfavorable rates of exchange.

Cash When Sick

Over 120,000 People Have Already Provided a Cash Income Up to $100 a Month

Sick benefits up to $100 a month when you are laid up from ANY kind of sickness will be paid under a New health policy now issued by the National Protective Ins. Co.

Men from ages 18 to 69 and women from ages 18 to 59—whether employed or not—and who are now in good health are eligible. No application to fill out. No medical examination required.

Sickness strikes suddenly and unexpectedly. It always causes greatly increased expenses and usually a reduced income. Over 120,000 people have already bought National Protective health policies Over one and one-half million dollars have been promptly paid in benefits to policyholders.

SEND NO MONEY. Just write your name, address, age and sex to National Protective Insurance Co., 3075 Pickwick Building, Kansas City, Mo., and they will mail you a policy for 10 days' Free Inspection. See the policy first and if you are satisfied, then send $3.65 to pay the premium for nearly five months. This offer is limited, so write today.

Finn Main Line Stronger Than At War's Start

Reporter Finds Men In Good Spirits, but In Need of Rest

By Walter Kerr
Copyright, 1940, by N. Y. Tribune, Inc.

With the Finnish Army on the Karelian Isthmus, Jan. 1.—The Finnish army defending the Mannerheim Line on the Karelian Isthmus is holding a fortified position at the beginning of the new year that is far stronger than it was at the outbreak of the war.

I visited a sector of the battleground today and talked to a colonel of a front-line regiment, whose men were holding ground on which they stood more than a month ago. He showed me how they had dug themselves in along the woods at the edge of a frozen lake, and waving toward the lake, he said: "Somewhere out on that ice are 1,000 dead Russians."

In Line a Month

I got the impression that he thought his regiment could hold out as long as ammunition kept coming up and as long as his men could stand the physical strain. For the men have been in the front line almost continuously since the beginning of the conflict, and almost every afternoon an attack has been launched by the Russians.

The Finns I saw seemed to be in good condition. They were laughing about what had happened last night when one of their artillery batteries pounded Russian lines for 3 minutes to provide sound effects for a radio broadcast to the United States by Warren Irvin, of the National Broadcasting Co.

According to an artillery officer, the Russians were astonished by the sudden burst of night fire and throught an offensive was being prepared. They promptly unleased their own guns and shelled every path and crossroad for miles around for 20 minutes before Irvin and the Finns dared come up for air. There probably will be no more gunfire for radio sound effects here.

The colonel with whom I conversed said the regiment's day-time activities during the last two weeks had become a matter of routine.

"We fight and we build and we sleep and we eat, and then we eat and we sleep and we build and we fight," he said.

"The Red forces usually start their artillery at about 3 p. m. each day. Sometimes they keep it up for hours. Once this regiment got 40 to 60 shells a minute thrown at it for five consecutive hours. When the artillery stops, there's no rolling barrage, but infantry troops—from a company to a regiment, but always led by a few tanks—come across.

Don't Like Woods

"For some reason they do not like the woods. When they get near enough to us, we turn on the floodlights and begin shooting. They always fall back.

On the whole he considered the Russians good soldiers on the defensive, but neither well trained nor well led. They operated at night with only artillery preparation, he said, but without scouting patrols.

The Finnish colonel said his regiment had destroyed or captured 37 Russian tanks. The captured ones were sunk in the ground and used as pillboxes.

A. J. Schlosser Quits Water Job

Henry J. Schlosser, 65, of 1231 Staples street northeast, retired yesterday after 39 years of service in the District Water Department.

A native of Washington, he entered the department in 1900 and five years later was appointed engineer. His son, Private William T. Schlosser, is attached to the Ninth Police Precinct.

Air Route Permit Sought

The Civil Aeronautics Authority today will be asked to permit United Air Lines to fly passenger, airmail and express planes between Boston, Mass., and Cleveland, Ohio, W. A. Petterson, president of United Air Lines, announced yesterday. The proposed schedule calls for three trips daily between Boston and Cleveland, with a stop at Hartford, Conn.

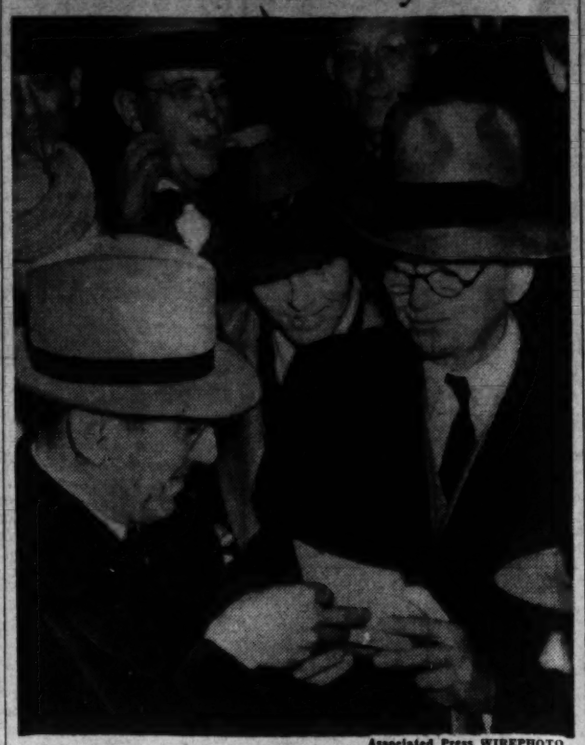
Five Seconds a Mayor



Associated Press WIREPHOTO

E. H. Crump (right), political overlord in Memphis, hands his reseignation to City Attorney Will Gerber

Memphis, Tenn., Jan. 1 (AP).—On a railroad platform 20 minutes after midnight Edward H. Crump became mayor of Memphis today, but resigned five seconds later, after rescinding his predecessor's invitation to the American Newspaper Guild to hold its 1940 convention here next June.

Crump, fiery political overlord here for three decades, said his action was aimed at the C. I. O., of which the Guild is an affiliate, and at Watkins Overton, mayor of Memphis the past 12 years and with whom Crump broke last year over municipal purchase of local utilities.

Before resigning Crump advised city council to elect Representative Walter Chandler (Democrat), of Tennessee, in his place as mayor.

Crump soon is expected to name his candidate for Chandler's vacated Congressional post. The election is set unofficially for February 15.

49 Decorated For 'Successes' Of Red Army

General Staff Chief Gets Highest Award, The Order of Lenin

By the Associated Press

Moscow, Jan. 1.—Russia's highest decoration, the order of Lenin, was awarded today to Gen. B. M. Shaposhnikoff, chief of the army general staff, "for successful guidance of the operations of the Red Army," but the announcement made no mention of the campaign in Finland.

Tass, the official news agency, in publishing the award, did not specify what operations were meant.

Also rewarded by the supreme Soviet were 48 commanders and political workers in various military organizations "for successful accomplishment of tasks assigned by the Red Army command in connection with operations of the Red Army." Lesser decorations went to 169 workers on construction projects.

In recent months the Red Army has been in action in Eastern Poland and against the Japanese on the Manchoukuo-Outer Mongolia border as well as in Finland.

Considerable progress toward better relations with Japan was disclosed with publication of agreements on Japan's fishing rights off Russia's far eastern coasts and final settlement of Manchoukuo's payments for Russia's share in the former Chinese Eastern Railway.

Tass said the fishing pact extension, until December 31, 1940, "shall be replaced by a new convention for which negotiations now are in progress between the U. S. S. R. and the Japanese government and which will be signed in the course of 1940." This is expected to be a long-term agreement which Japan has been seeking.

Americans Get October Mail Now in Berlin

Letters Are Received After 8 Weeks in British Custody

By Guido Enderis
Copyright by New York Times.

Berlin, Jan. 1.—Americans in Berlin received in their New Year's mail today letters from the United States, bearing dates ranging from October 19 to October 24.

The envelopes had been opened and resealed with English printed stickers bearing an inscription in heavy black letters—"Opened by the Censor." Thus the letters reached their destination after having been in British custody anywhere from 8 to 10 weeks.

Mail out of New York, which eludes British seizure, makes fairly good time via the Clipper and other neutral routes. Usually it is only 10 to 12 days in transit. Although opened by the German censors, letters are promptly released in so far as they do not violate war-time censorship regulations.

It is chiefly the American mails carried on neutral ships which touch British ports that are arbitrarily seized and held indefinitely. Americans in Berlin are now awaiting with considerable curiosity to learn whether the United States liners Washington and Manhattan, which are resuming European service by the way of Genoa, Italy, will also have their mail confiscated at Gibraltar.

Gibraltar in War Zone

The British may claim the right of such seizure because Gibraltar is in the war zone, despite American claims that mails for the continent are immune from confiscation.

In anticipation that the British practice may be made the basis of vigorous protests by neutral powers, it is contended here that the present procedure transgresses the provisions of the international postal convention.

4,000-Volt Wire Kills Lineman

JAMES N. GARRISON, 37, Pepco lineman, was killed instantly yesterday when he touched a 4,000-volt live wire near Bethesda, Md. Garrison, father of four children, is shown with his 5-year-old son, David

Live Wire Kills Father of Four

WIRE, from Page 1.

in his truck which would have covered the wire in the section where he was working.

After the phone call Garrison climbed the pole again, watched by Louis Baker and Armand Salturelli, who lived at the Meyer house. He hauled up the broken wire from the ground with a rope, and was beginning to splice it when his wrist touched the live wire. He was wearing a safety belt.

Baker and Salturelli called the Bethesda Rescue Squad and the Montgomery County police, and the power company was also called. Within a half hour the power was turned off, and a line crew under N. L. Dwyer arrived.

F. Cornwell and W. Penninger, Pepco employes, climbed the pole and brought down the body, which was taken in the Rescue Squad ambulance to W. Reuben Pumphrey's funeral home, 7005 Wisconsin avenue, Bethesda.

Dr. C. E. Hawks, Montgomery County medical examiner, said he would issue a certificate of accidental death by electrocution. He said death was instantaneous.

The wire had burned through the dead man's wrist to the bone, and the steel spike on which he was standing had burned through his shoe.

Garrison was a native of Virginia and came to Washington 18 years ago.

He leaves his parents, Clinton L. and Mrs. Mattie A. Garrison, in Virginia; his wife, Mrs. Esther E. Garrison, and four children, Preston, 14, James N., 7, David, 5, and Paul, 9 months. He also leaves three sisters, Mrs. Mary Rambo and the Misses Susie and Eva Garrison, and six brothers, Norris, Carl, Smith, Odis, Nickel and Herbert.

Edwin D. Detwiler, assistant secretary of the company, said Garrison's family would receive $7,500 compensation, plus two months' pay and retirement benefit, computed on the length of time he had worked for the company. This would total about $10,000.

Detwiler said "the company always tries to take care of widows and orphans of its employes."

WOODWARD & LOTHROP
THE MEN'S STORE...SECOND FLOOR

Annual Winter Reductions Offer Generous Savings on
Men's Fine Clothing

Well-dressed men welcome this event—for every suit, topcoat and overcoat offered is a definite wardrobe asset. The tailoring is excellent—the styling up-to-the-minute—the savings are appreciable throughout. With wool prices steadily rising—filling out your wardrobe needs at this time is a wise investment.

Handsomely-styled Suits
$31.50 $38.50 $48.50
Regularly $35, $40 *Regularly* $45, $50 *Regularly* $55
Worsteds, tweeds, twists, unfinished worsteds and Shetlands—both domestic and foreign—tailored into good-looking suits for business and sports. Single and double breasted, and three-button lounge models, with one pair of trousers; in the $38.50 group are one and two-trouser suits.

Warm Overcoats and Topcoats
$31.50 $38.50 $48.50
Regularly $35, $40 *Regularly* $45, $50 *Regularly* $55; $65
Domestic and imported tweeds, fleeces, camels hair, kerseys and slide-fastened lining coats in medium and heavier weights—styled for smart protection in raglans, ulsters, Chesterfields and box models. (Mt. Rock Overcoats and Llambak Topcoats not included.)

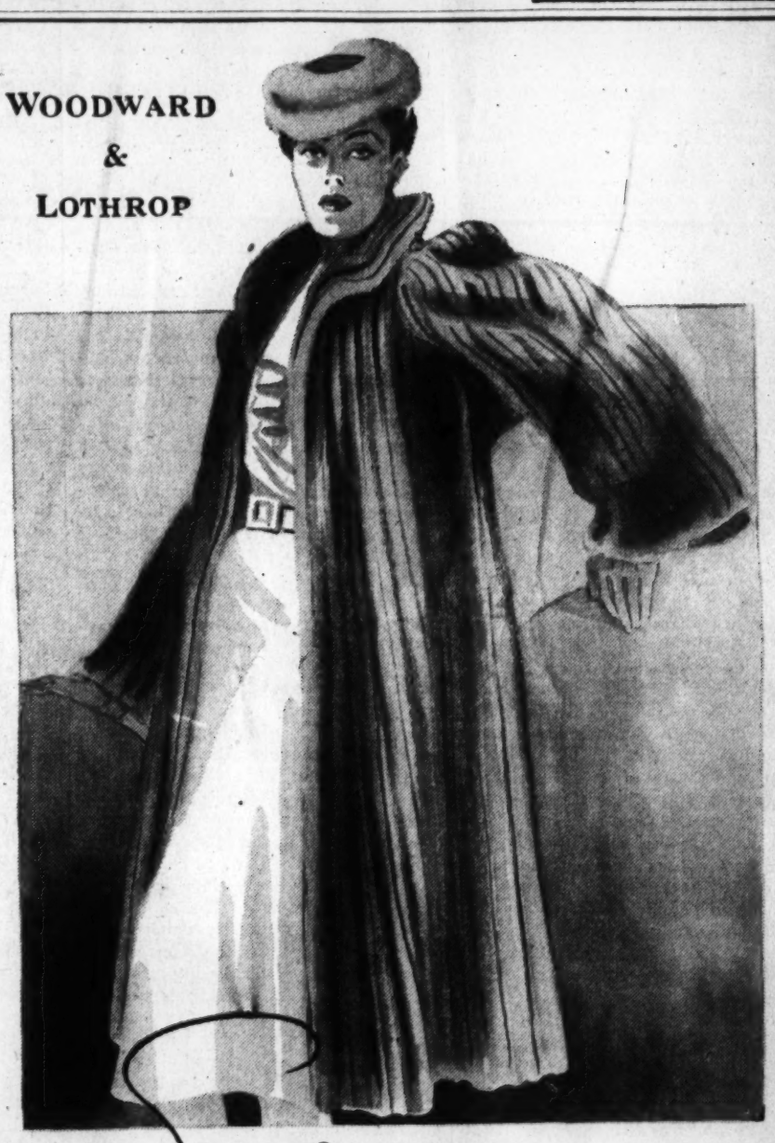
Handsome Sports Jackets . . $14.75, $19.75
Regularly $20 *and* $25
Plain and belted back models in two and three button effects. Wide and colorful variety of patterns and colors in imported and domestic tweeds.

Custom-tailored Suits $57.50, $67.50
Regularly $65—$70—$75—$80
Imported and domestic worsteds, cheviots and tweeds—in rich patterns and unusual weaves exclusive with custom-tailors—cut and tailored to your individual requirements and measurements.

Students' Two-trousers Suits
$21.75 $29.50
Ref. $25, $27.50 *Ref.* $35
Well-tailored "Woodshire Varsity" suits in plain and sports models—for school or dress. Regular sizes, 34 to 38; long sizes, 35 to 38.

Students' Topcoats and Overcoats
$21.75
Regularly $25 *and* $27.50
Smart-looking, serviceable coats in raglan, ulster and reversible models—warm and comfortable. Regular and long sizes, 35 to 38.

WOODWARD & LOTHROP



Savings
of $200 to $500 on
Luxurious Mink Coats

From a master maker of mink coats, we have obtained—at great price concessions—his remaining stock of fine mink coats. And we have added to these, coats from our own stock at greatly reduced prices.

Only because it is growing late in the season, could we obtain these coats to sell at these exceptionally low prices. Each coat, however, is new and fashioned of fine blended or natural skins. Each is made to the high standard of workmanship and quality we demand for fine furs. Each, whether casual or dressier model, is indubitably chic with its new Johnny collar, bell sleeves and ripple back.

If you are at all interested in a mink coat, we strongly urge upon you the desirability of inspecting these and trying them on—to appreciate fully the unusual savings. Sizes from 12 to 40 in the group. But the time is limited—so we advise your earliest possible selection.

Natural Mink . . *Now*		Blended Mink . . *Now*

Age Of Fable

The death last week of Luis P. Senarens served to remind middle-aged men of how thoroughly extinct is the once flourishing art of which he was such an accomplished practitioner. Mr. Senarens was a dime novelist. A collected edition of his works would probably run well over 50,000,000 words, devoured, week after week, in doses of 40,000 or thereabouts by the youth of America.

For a reason never quite clear, dime novels were thought to exert a strangely pernicious effect upon the mind. The discovery of a dime novel under one's mattress was pretty certain to be followed by an invitation to the woodshed. Today dime novels are collectors' items for Mr. Roosevelt and other wealthy hobbyists, and some of them fetch fancy prices indeed.

The first dime novels, the famous Beadle Library, made their appearance in the 1860's. Curiously enough they seem to have been addressed to adult readers. The list of contributors included such well-known names as Mayne Reid, Edward S. Ellis, Prentiss Ingraham and Ned Buntline. Some of the titles are almost novels in themselves, e. g., "El Rubia Bravo, King of the Swordsmen, or the Terrible Brothers of Tabasco" and "Saul Sabberday, the Idiot Spy." In 1877 was launched the Beadle Half Dime Library in which occurs the celebrated Deadwood Dick cycle.

Other publishers had already entered this profitable field, notably George Munroe, under whose aegis appeared the first dime novel detective, "Old Sleuth," precursor of Nick Carter, Old Cap Collier and King Brady. But it was not until 1878 and the advent of Frank Tousey that the enormous possibilities of dime novel literature were first understood.

Tousey seems to have been the first publisher to realize that, though dime novels were written for grown-ups, they were read by boys. He reduced the price to 5 cents and standardized the 8-by-11-inch format, so admirably suited to concealment behind a school geography.

It was for Tousey's Wide Awake Library that Mr. Senarens produced the Frank Reade and Frank Reade, jr., stories, whereby he earned his soubriquet, "the Verne of the dime novel." Long before Orville Wright was out of petticoats Frank Reade was flying all over the solar system in his "War Cruiser of the Air." Years before Henry Ford began to tinker with his engine Frank Reade was riding through unknown lands on his Great Electric Tricycle.

The heyday of the dime novel was just before and just after the turn of the century, when Tousey and Street and Smith dominated the field. Dime novels were to be seen in the display windows of every corner confectionery in the land, and small boys who had neither the nickel nor the moral courage to buy, would gaze wistfully at the garish lithographed covers. The dozens of "libraries," like "Secret Service," "Pluck and Luck," "Boys of '76" and "Diamond Dick," were not enough to fill the need. There were also the "dime novel story papers," such as Tousey's "Golden Weekly" and "Happy Days" and Elverson's "Golden Days."

Mr. Senarens was one of the undoubted masters of the dime novel, but there were others, like Stanley Norris, even greater than he. Greatest of all was Gilbert Patton, who wrote under at least a half dozen names including his real one. It was Patton who created the greatest of all dime novel characters, the Merriwells of Yale.

Merited Promotion

In naming Charles Edison as Secretary of the Navy, President Roosevelt has given well-merited recognition to a man who, without benefit of the title, has long carried out the onerous duties of the high office to which he has now been assigned, and has done so with intelligence and vision.

During the six months since the death of Secretary Swanson on July 7, Mr. Edison has been Acting Secretary of the Navy. A large part of the responsibilities of the Secretaryship fell upon him even earlier because of Mr. Swanson's long illness. His present appointment thus involves no change in duties and it finds him fitted by rigorous experience to cope with the great task of expanding and improving the American Navy so as to make it more than ever the first line of our national defense.

The surprising thing about Mr. Edison's appointment is not that it was made but that it was so long delayed. It is to be hoped, in this connection, that no similar delay will occur in the naming of his successor as Assistant Secretary.

The Rules Of Fair Play

Among the complicated issues by which Congress will be confronted in its 1940 session is the provision of more systematic judicial review of the action of administrative agencies. Last year the Senate passed the Logan-Walter bill authorizing the Supreme Court to prescribe uniform rules and practices of procedure for quasi-judicial commissions, boards and administrative officers. That measure now awaits action by the House.

The controversy which has grown up around this bill was the subject of a long and scholarly address by Prof. Charles Grove Haines, retiring president of the American Political Science Association, at its convention here last week. Opponents of the bill will probably find a great deal of comfort in this disquisition. But it will fail to satisfy many who believe that the protection of individual rights is an even more vital objective than efficient operation of administrative agencies.

Prof. Haines admits that some check against arbitrary procedure on the part of administrative agencies is essential. But he thinks the Logan-Walter bill goes too far in attempting to impose uniform procedure upon boards created to administer complicated statutes in widely differing fields. His contention that the legislature and the courts are not competent to handle the tasks assigned to administrative agencies is well taken. The only point really at issue is how the regulatory agencies themselves shall be kept within the scope of the law.

Three checks against arbitrary action by administrative boards are already available, according to Prof. Haines. Congress may reduce their appropriations or curtail their powers. The President may make new appointments, and judicial review, he says, "remains in most instances as a check upon extreme forms of unfairness in procedure or of arbitrariness in action."

Congressional investigations of administrative boards are often effective, as in the case of the NLRB. But such inquiries or other legislative action can be undertaken only when flagrant or long continued abuses are alleged. In individual cases Congress is no more competent to protect citizens against arbitrary governmental action than it is to tackle the regulatory functions assigned to quasi-judicial boards.

Nor can the President be expected to check abuses of power by removing board members. In some cases these officials are beyond his control, as the Humphrey case proved. Moreover, the President has no time to concern himself with the details of administrative decisions. The only practical safeguard against occasional misuse of power and undemocratic procedure is judicial review, and at present that safeguard operates in a haphazard manner.

Prof. Haines protests emphatically against what he calls the monopoly of lawyers and courts in the interpretation of the law. Trust-busting is popular these days. But some agency must be entrusted with a final interpretation of the law, and no one appears to have suggested any agency as reliable as the courts for the performance of that function. If executive officials and boards were allowed to place their own interpretation upon the law, chaos would be unavoidable. So long as we have a government of laws and not of men, some final law-interpreting agency is a first essential.

As Prof. Haines notes, the way in which the courts perform this function could be much improved. But that does not minimize the desirability of judicial review of administrative orders believed to impinge upon individual rights.

In establishing this safeguard care should be taken not to put administrative agencies into a strait-jacket. Such boards as the NLRB and the Federal Trade Commission are likely to be increasingly important in our governmental system. They must have a certain amount of leeway to work out their administrative problems. But no board is justified in taking short cuts which encroach upon the rules of fair play. Surely greater uniformity in the protection of individual rights can be attained without hamstringing regulatory bodies.

Our Loss Of Ships

When the United States Lines some time ago proposed to transfer eight of its ships to Panamanian registry, to be operated by a dummy corporation actually controlled by the original owners, there was widespread criticism of the plan. It was charged, and not without considerable justification, that the contemplated deal was in violation of the spirit of the Neutrality Act.

There can be no such objection to the action of the shipping firm in selling the same vessels outright to a Norwegian corporation. They are to be operated under the Norwegian flag by Norwegian personnel and will be subject exclusively to the laws and regulations of that Scandinavian country. Since the Government holds no mortgages, claims or other obligations against the ships there is nothing in the existing law to bar the transaction.

On practical grounds, moreover, there is much to recommend it for the sale will relieve the owners of the burden and expense of maintaining the vessels in port for the duration of the war.

American shipping interests generally, however, will find no solution for their dilemma in the action taken by the United States Lines. A large number of American vessels now tied up at the docks cannot be sold because the Government has a financial stake in them. Furthermore, the sale of those vessels that are actually free of Government liens does not solve the problems of seamen thrown out of work by the Neutrality Act. Nor can the Nation view with equanimity any weakening of the American merchant marine, built up at such great cost, through the sale of American vessels to foreign owners.

The fact is that the Neutrality Act cuts athwart the national interest of building up an American merchant marine whose usefulness, not only as a commerce carrier but also as an auxiliary to the fleet, cannot be exaggerated. It will not be easy to resolve this dilemma. Yet Congress cannot safely evade it without being remiss in its duty.

The Hopkins Report

In his first annual report as Secretary of Commerce, Harry Hopkins devotes a large amount of space to a defense of the Administration's spending-for-recovery program. Such a dissertation seems out of place in a Government publication dealing primarily with the activities and problems of the Department of Commerce. In recent years, however, the practice of utilizing the Government Printing Office to give currency to the personal views of public officials has become so common as to cause little surprise.

Unfortunately, the *ex parte* opinions of departmental heads tend to divert public attention from the achievements and specific problems of the agencies under their supervision. That is the case in the present instance. For the report of the Secretary of Commerce contains a great deal of interesting information in regard to various bureaus, which so far has attracted little, if any, notice in the press.

Mr. Hopkins' survey of the decade ending with the fiscal year 1939 shows that his belief in the efficacy of Government spending as a recovery measure is as strong today as it was when he was head of the WPA. He asserts without reservation that in recent years we have "developed the techniques necessary to halt a deflationary process and to secure recovery." "If the instruments created within this ten-year period are used promptly and aggressively," he adds, "the country need never again be subjected to the intolerable and unnecessary costs of continued deflation."

One is justified in concluding from this statement that Mr. Hopkins is fairly well satisfied with a recovery movement that has left millions still unemployed, has failed to revive private investment activity, and continues to be supported by lavish Government spending. He admits that the spending technique is difficult of application, referring to the "sharp bulge" in Federal outlays due to payment of the bonus as a factor in the development of dangerous inventory accumulation. The subsequent decline in net Federal cash outlays he regards as having played a part in the sharp recession of 1937-38.

On the other hand the increase in Federal spending beginning in March, 1938, is enthusiastically indorsed as providing the needed stimulus to a new upturn. "WPA rolls were expanded," Mr. Hopkins says, "public construction was rapidly brought to a new peak, residential construction was promoted and payments to farmers were increased. Through the operation of these and other parts of the program, recovery was advanced strongly during the fiscal year 1939."

Since Mr. Hopkins' survey does not extend beyond the end of the last fiscal year, he does not need to consider the painful adjustments that will ultimately have to be made to adapt our national economy to a less extravagant scale of public spending. He anticipates an easy balancing of the budget "as we approach full employment of our productive resources." But the fact that the spending program itself is a major obstacle to expansion of our industrial plant and fuller utilization of our resources makes it impossible to share his confidence.

Poise is an attitude which is acquired by feeling that you're a superior person and not giving a darn how many persons fail to agree with you.

Because a person is listed in Who's Who doesn't necessarily mean he knows what's what.

Heat will allay pain in some cases, but getting hot under the collar will not minimize a pain in the neck.

Clinical Note

From "Our Army."

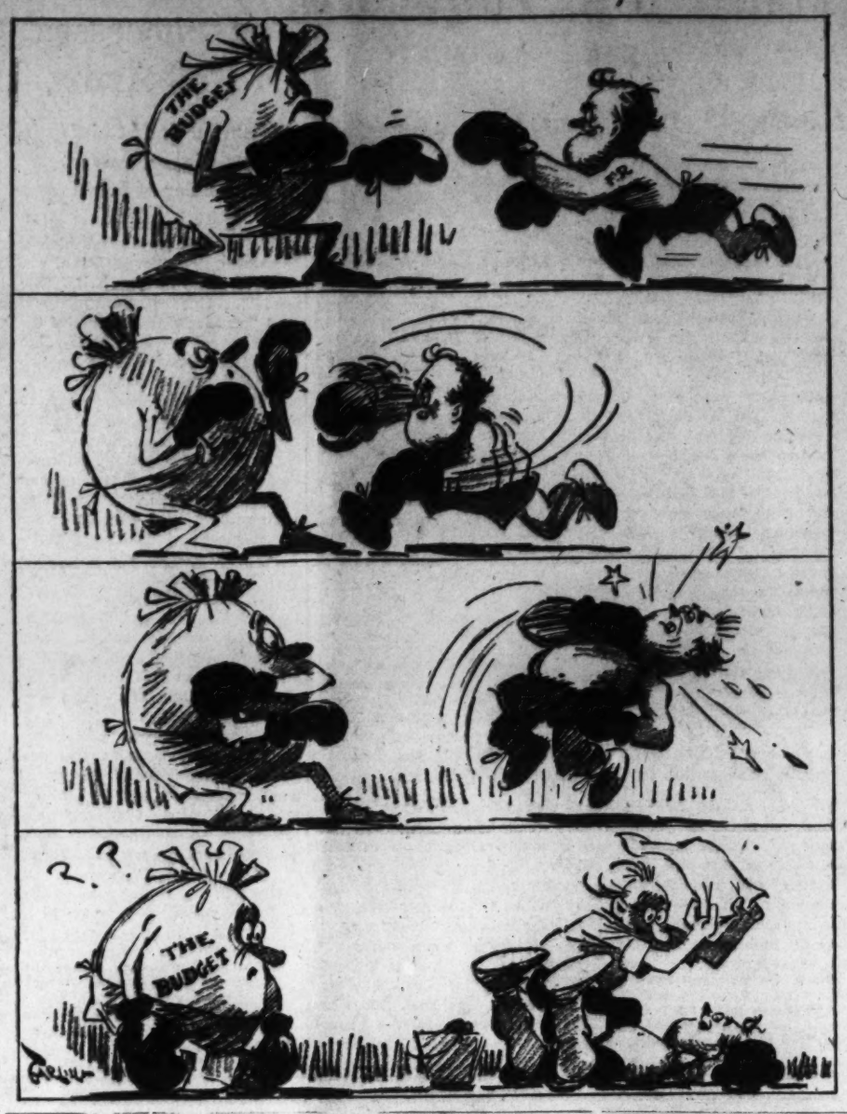
Two G. I. screwballs, talking things over, decided they were quite sane and should be turned loose. "Let's do something about it then, buddy," said one. "Let's go and demand our release!"

"O. K.," said the other, "but first let me put you to a test. I've got my right hand behind my back. Now tell me, what have I got in that hand?"

"A Greyhound bus."

"Damn it all, you cheated! You saw me pick it up!"

Did Someone in the Back Row Yell 'Fake!'?



Letters To The Editor

All communications must carry the writer's name and address, though pen names are permitted at the editor's discretion. In fairness to other correspondents brevity is requested. Letters are subject to condensation.

New Deal Record

To the Editor of The Post—Sir:

Certain Republican politicians imagine they can gain support of the so-called "liberal" voters by what they term "preserving the good features of the New Deal." Has it ever occured to them to analyze these alleged "good features?"

The following partial list of New Deal accomplishments may be of interest to these politicians:

Recognition of Soviet Russia in 1933 which opened the United States to the activities of Communist secret agents and propagandists.

Encouragement of radicals (including Communists) to infiltrate the Government service and work to undermine the American system.

The disruption of American agriculture including attempts to buy the form votes and make government wards of independent American farmers.

Permitting labor racketeers to virtually blackmail business under the guise of strikes, thus prolonging the depression and unemployment.

The deliberate stirring up of group and class hatred by New Deal officials.

The appointing of subservient Federal judges, some of them with inadequate trial experience.

Constant attacks by the Government on business and businessmen, including punitive and crippling taxes, all following the Communistic plans for destroying our economic system.

The hamstringing of the securities and commodity markets by excessive Government regulation.

The gigantic "share the wealth" scheme and poor man's income tax subterfuge called "social security" (with Government spending the taxes soon as received) and designed by the radicals to eventually bankrupt the Government.

Lack of any serious action by New Deal Government to compel socialistic Mexico to restore to the owners or adequately compensate them for property seized from Americans.

Adoption of business and labor policies which have maintained unemployment at a high level.

The destruction of the moral fiber of millions of self respecting Americans who have been forced onto relief by unsound Government policies, and the despicable attempt to control the votes of those on relief ("making political capital of human misery").

Reckless spending and criminal waste which have raised the national debt to a record figure of over 40 billion dollars.

These are just a few of the New Deal accomplishments. Which of these would the Republican politicians like to designate and remain as "good features?"

STANLEY F. MORSE.
Sumter, S. C., Dec. 28.

Profits And Taxes

To the Editor of The Post—Sir:

All opportunity is not dead.

The high-bracketed businessman who bewails the burdensome tax laws which yearly take $800,000 in taxes from every $1,000,000 he earns, has the opportunity to lighten the grasping grip of the Government on his income.

He has but to resolve that during the coming year he will permit his competitors to make more of the profits which unfortunately place him at the Government's mercy.

ALBERT A. VOLK.
New York, December 29.

"More Conservation"

To the Editor of The Post—Sir:

In an editorial in The Post of December 27, "More Conservation," I find these words: "Performance on the individual farm will also be more carefully checked and the Department of Agriculture will supply farmers with numerous plants that help to keep the soil in place and restore dwindling fertility." Let us hope.

I was a boy when Uncle Sam first began his bureaucratic system of assistance to farmers. Congressmen sent seeds to constituants, and I found that these free seeds either failed to grow at all, or were of vastly inferior quality to those purchased at the corner drug or grocery store. Even at that time it was a current saying among us that "Washington bureaucrats going to work, met themselves going out to lunch; returning from lunch they met themselves going home for the night."

Henry Wallace's grandfather was a farmer in the lush days when a farmer could make money with 25-cent corn and 5-cent hogs. He retired and founded a farm paper in Des Moines; Henry's father was a "gentleman farmer" and politician who became Secretary of Agriculture, but he knew enough to let the individual farmer alone.

The Iowa farmer made money because he was not interfered with by the speculative markets. He sold his surplus beef and hogs to a friendly commission man who acted as his agent and sold direct for cash to Armour or Swift. He fed his corn and hay, and small grains as well, to his stock. Madame Farmer made butter and eggs and sold them to her friends in town on a yearly price basis. J. P. GRUWELL.
Wisconsin Rapids, Wis., Dec. 28.

Safety Zone

To the Editor of The Post—Sir:

Mr. Lippmann's article in your issue of December 30, showing in practical terms the difficulties and the dangers with which we have complicated our neutrality by the Declaration of Panama, deserved the most serious consideration by the Government and the public.

We all know now the part played in our entry into war in 1917 by Mr. Wilson's insistence on belligerent respect for our "neutral rights" on the high seas. Because we know it, we have, for all practical purposes, waived these "rights" in the present neutrality act. But in the Declaration of Panama we insist again that the belligerents respect the rights we claim outside of territorial waters.

It is true that, this time, our insistence covers only a few million miles of ocean instead of all the oceans, but it is also true that, this time, it has no justification in international law. We can only now make the belligerents respect it by sanctions which go beyond the accepted provisions of international law, or else by force.

If we continue to try to enforce respect for this safety zone, our prestige will become involved. Beyond a certain point, there will be no turning back without acknowledgment of defeat, and going ahead threatens to generate exactly the kind of dangerous friction with belligerents we have sought to guard against in the neutrality act. We are out on a limb now in regard to this safety zone, and it would be wise to climb back from it while we can still do so gracefully.

LIVINGSTON HARTLEY.
Washington, Dec. 30.

Two Liberals

To the Editor of The Post—Sir:

In the passing of Dr. Kelly Miller and Heywood Broun, two noblest of the Romans have departed from the scene of battle. One white, one black, both liberals of the truest sort, they have affected, flavored or molded the opinions of hundreds of thousands of Americans.

Most people are so busy attending to selfish individual wants and needs that they don't or won't take time to try to convert people to the habit of loving humanity. Not so with spirits like those of Miller and Broun, for they strove incessantly to interpret the life of the depressed minorities to their fellowmen. It is difficult to estimate the socializing influence of the published thoughts of such logicians.

In later years both men evolved into tolerant liberals. Miller was at one time a philosophic conservative. In the battle of the racial ideologies of Dubois, Trotter and Booker T. Washington, Dr. Miller essayed the role of mediator to the extent that he was often labeled the "Great Straddler."

Broun also espoused the interests of the unorganized impoverished struggling classes, and strove to teach the borderline middle classes how to battle for civil liberties and democratic safeguards.

In his last days Broun became less sympathetic with the radical fringe whose identification with leftism was measured more by the hatred they bore opponents than by their devotion to social principles.

Writing over a period of half a century, Kelly Miller endeavored not only to inspire and teach his own people, but sought to interpret the political, economic and other social strivings of his group. His articles to the press were meaningful, although sometimes laboriously rhetorical. He had a gift of words that made his readers keep close to the dictionary for the subtleness of his polemics.

Broun was more simple and direct. In his column, "It Seems To Me," he was pithy, short, convincing to all but the hardened of heart.

Two great men have died within a month. Who among the white group will embrace the unpopular cause and risk loss of caste? Who among the Negro minority will forsake exploitation of the race through leadership, and in the humility of Dr. Kelly Miller take up the task of trying to further the kingdom of Christ in the United States?

Foreign Agents

To the Editor of The Post—Sir:

It is, to the average citizen of this maltreated land, an extraordinary thing that these foreign leaguesters and/or bundsters, together with bolshevists, are so openly permitted to flout the hospitality and protection here accorded, which if correspondingly carried out in their own benighted lands would result in the perpetrators' "liquidation."

It seems strange that any normal person residing here can be so misguided and stupid as to uphold the criminal efforts of the worst set of gangsters the world has seen, viz, Hitler & Co., recently merged with Stalin & Co., the agents here of this association in aggression being active at this time on behalf of their foreign employers.

Why are not such rats promptly deported to where they belong instead of wasting taxpayers' money and time in proceedings?

That the impudent, insolent and unpatriotic remarks of the so-styled "president" of a foreign league are given consideration and space in the American press is indeed a gross insult to the people's intelligence. May the Allies win and consign the Nieblings to the Nibelungs!

INDIGNANT CITIZEN.
Silver Spring, Md., Dec. 28.

The Post Impressionist

Indolence

We cannot for the life of us understand why Americans, as a class, abhor indolence. They possess, it seems, a national unity of antipathy toward any form of laziness, despite many differences of opinion on politics, religion and the relative merits of cigars. A man in this country may be a boor, a cad or even a moron and he is still recognized in the "best" circles.

Let him manifest, however, the slightest tendency toward inaction, let him manifest a disdain for "success" and he is forwith ostracized. This is, we contend, a national madness we are not capable of understanding.

We have been indolent all our life and we unblushingly record the results of our laziness for the benefit of those who would emulate our virtues. To be quite frank about it, our own peculiar system of indifference toward work has never got us anywhere. But, then, neither have any of our friends or acquaintances got anywhere. On the contrary, they are suffering from a multitude of cardiac and gastronomic disturbances, all calculated to bring them to an early grave, while we continue to enjoy an abundance of health.

We learned the fundamentals of indolence from the Italians and the French among whom we lived for a considerable time in our youth. These people are quite aware of their national inertia and even boast of it, much as they talk of their wines and their climates.

We have observed some dissatisfaction with the Italians, particularly, because with the advent of Mussolini many of those who had spent happy years in indolence were put to work. On the whole, however, the Italians have stoutly maintained their national traditions and it is safe to predict that with the death of Mussolini they will quickly revert to what they believe is a more sane existence.

With this extraordinarily fortunate background in the art of doing nothing, we arrived in the United States, flat broke. It was another period of insolvency, a not unusual experience for the indolent. Fortune was with us, however, for within a half hour of disembarking we ran smack into the mother of an old school chum who insisted, against our insincere protestations, that we visit her son for a few hours.

The son, age 23, had been kicked out of Harvard, Yale, and finally Columbia. He and his mother, who was fabulously wealthy, lived in a swanky penthouse on Park avenue. The boy was mentally deficient, to put it mildly. He was sincere and earnest but extremely short on intellect.

His mother erroneously assumed we were brilliant because on the way to the house we quoted profusely from Oscar Wilde, whom we admired at this period of our life. The mother thought these verbal gems were of our own creation and before we reached the house we were offered the job of tutoring her son at $25 a week, plus room and board and numerous perquisites, including cigars, cigarettes, liquor and the theater.

Being in straightened circumstances we snapped at the job. A brief examination of the boy revealed he knew about five out of ten words in English. This, we could foresee, was going to be a snap for a person of our indolence.

For the first three months we spent part of the day reading David Copperfield, the hope being the chap would increase his vocabulary. That is all we did. The rest of the day was spent at cocktail parties, dinners and the theater, the mother insisting we accompany her son on all these occasions "to help him acquire poise."

Sad to relate, the boy made not an iota of progress under our tutelage, despite the beaming smiles of approval from the mother as days went by. We had too much respect for the mother's feelings to give a frank appraisal of the situation, with the result that 18 months flew by and we were only on page 245 of David Copperfield. The whole performance was becoming quite boring to us by this time and we threw in the sponge. We had had enough of it, despite the wonderful opportunities it afforded us of doing nothand while living magnificently.

We had saved enough money to enable us to give vent to a passionate desire to live in Greenwich Village without working. Late in the twenties the Village contained the greatest collection of indolents the world has ever seen, with the possible exception of the golden age of Rome. People who worked or who believed in work were not welcome into the esoteric circles of the Village. We were, of course, received cordially, particularly after it became known around Canal street that we had a few dollars.

We spent the next six months of our life discussing art, about which we knew nothing, and drinking horrible gin which invariably gave us a headache.

About this time, a friend of ours in Philadelphia asked us if we wanted to work on a newspaper. We had never thought of work, as we have confessed, but he assured us the life of a reporter was a life of ease. Accordingly, we took a job at $18 a week on the Evening Ledger.

It was a delightful shop, particularly delightful because we met a fellow who, like ourselves, never had a dime, did not believe in work and yet mysteriously managed to be seen at every social and intellectual function in town.

We can honestly say we never did a day's work in eight years of newspaper work. The closest we came to violating our code of indolence occurred during a murder trial when we worked 22 hours straight. We called it work, like all good reporters do, but in reality we were playing poker for 21¼ of the 22, waiting for the verdict.

Thus life to us has been a succession of pleasures, all obtained through the simple process of indolence, an art, unfortunately, insufficiently known in this country.

EUGENE DELANEY.

The Once Over

By H. I. Phillips

A Creed For 1940

I believe in the United States of America, in trouble or out of trouble, in war or in peace.

I believe in the future of its institutions despite the snipers, underminers, termites, life savers and apostles of doom.

I believe there are still great frontiers offering unlimited opportunities and that the main trouble is all the trails leading to them are held by scalping parties.

I believe the kidney punch should be barred in Government as well as in boxing.

I believe this country is not nearly as bad off as it thinks and that if the Government got off its neck prosperity would return so fast that it would be necessary to bank the curves.

I believe in the democratic form of government, but I do not believe in the form of all Democrats in charge of it.

I believe in an occasional good word for diligence and thrift.

I believe the American businessman was never as bad as he has been painted and that, man for man, he has always been as trustworthy as his most severe critics.

I believe that the industrial leaders of this country are, in the great bulk, at least as square, honorable, well-meaning and kindly as any other group and that impulse for impulse, heartbeat for heart-beat and mood for mood, they are as dependable in the pinches as the reformers, agitators and fix-it-alls.

I believe it is time to start boosting and to stop knocking; to give the green light at least the same interval as the red; to admit that there are still two sides to every issue; to give the tommyhawk back to the Indians and to cease preaching the Gospel that anybody who is in business for himself is a larcenous, corrupt, penny-pinching Simon Legree wholly unworthy of a second-hand New Year's card.

I believe the best thing that could happen to America would be for some Government official, somewhere, sometime, to greet a businessman without a sneer and allow newsreel pictures of the strange spectacle to be circulated.

I believe the depression would have been ancient history if the amateur economists, rainbow painters, theorists, soothsayers and first-aid specialists had developed fallen arches earlier in their mad dashes hither and thither.

I believe in budgets, double-entry ledgers, plain arithmetic, old-fashioned auditors and in the old adage: "Nobody has all the right answers all the time."

* * * *

I believe that the main reason for discontent in America is that too many people who can't afford gasoline regard ownership of a limousine as an inalienable right, even if it's necessary to get Mother and Aunt Minnie on the relief rolls, too.

I believe in the ability of America to come back despite all the overstuffed medicine cabinets and the congestion of diagnosticians in the main lobby.

I believe industry alone can take up the unemployment slack and that it will take it up as soon as it can shake off those handcuffs, leg bands, lariats, bear traps, slip nooses and summonses to drop everything and come in for another load of don't lists.

I believe in less promotion work for hate and suspicion, and a little more emphasis on mutual respect and team work.

I believe these remarks have gone far enough.

Winter

The winter is a swan, afloat
Upon the cosmic, spacious lake
Of space, whose lovely feathery coat
Of white is snow, laid flake on flake.

—Alfred August Schenck.

Lou (Buddy) Davis cards that the name of his museum at Mount Ida, Ark., has been changed from "Look" to "Laugh at Life." Melvin Justin is still with it.

Norma Norman reports she recently appeared in Jo-Jo Jordan's Revue in Broadway Theater, Tampa, Fla., doing an Oriental dance.

'Never' Saw Such Good Will as for Finns, Says Hoover

New York, Jan. 1.—Former President Hoover returned to New York this morning from Chicago, having completed a four-day trip which included Minneapolis and Duluth to stimulate interest in his campaign for relief in Finland.

Hoover gave out a statement in which he said:

"In a long experience I have never seen such a response of good will," his statement said. "There have been many large and important contributions, but even more revealing of popular support are the 100,000 and more contributions of $1 or less. This is the kind of support that the American people can and should give a distressed sister republic."

Today And Tomorrow

By Walter Lippmann

Hindsight And Foresight

IT IS THE FASHION to think poorly of hindsight but as matter of fact there is no way to learn foresight except by studying the past. Unless we fancy ourselves to be endowed with prophetic genius, we can improve our estimates of the future only by remembering which of our former estimates have turned out to be right, which wrong, and, if possible, why.

The past 25 years provide abundant material for the exercise of hindsight, and as I look back at the false hopes and the false fears by which I have been misled, it seems to me that what I ought to have learned is to distinguish between what might be called the movement of events and the currents of opinion which accompany events. For sometimes the opinion of the moment is the truth about what is really happening. Often it is not the truth. When the opinion is true, it is like the wind which causes the incoming tide to rise higher; and when the opinion is false, it blows against the tide, holds it back a bit, but does not cause the tide to turn.

In critical moments of decision the men whose judgment has been proved to be correct have been, so I have learned, those men who discounted the opinions and theories and ideologies of the moment, relying upon a knowledge of history and the logic of human behavior.

Men Rebel Under Fierce Oppression

THEY FORESAW, for example, that the spirit of the Versailles settlement must lead to an embittered rebellion in Germany, knowing that a people which has enjoyed independence cannot for long be kept in subjection. They can now foresee that the spirit of the immeasurably more cruel settlement which Germany has imposed on the conquered nations must, in the nature of things, lead to an even more embittered rebellion. On past experience it was predictable that Versailles could not endure, and that prediction was correct; by the same experience it is predictable now that Berchtesgaden cannot last, and will go down in violence.

In the past six years the soundest judgments have been made, it seems to me, not by men who had the latest inside reports at first hand or second hand but by those who relied upon simple and rather commonplace generalities. It is a simple commonplace generality to say that a vindictive treaty like Versailles could not endure, or that a fierce oppression like that which is now practiced in Central Europe must cause men to rebel. There are other generalities of the same sort, and on the whole they are more serviceable than complex and ingenious theories.

The Spanish revolution and the civil war which followed it are a case in point. There was once an opinion current that Spain would convert itself into a parliamentary democracy; then, that it would convert itself into a socialist republic; then, that it would become fascist and totalitarian. None of these opinions was true. The simple fact was that parliamentary democracy is quite alien to the traditional habits of the Spanish people, and those who knew Spain foresaw that. The simple fact was also that the social structure of Spain is profoundly Catholic and Mediterranean; therefore it could not be rebuilt on a pattern developed in Central Russia or in Northern Germany.

Geography Keeps Spain From Axis

IT WAS ALSO feared or hoped that General Franco's Spain would join the "axis." But that was based on an illusion about the axis, and upon forgetfulness of the simple geographical fact that Spain is virtually an island surrounded by seas in which the British and French navies are supreme.

Italy is an even more interesting illustration of how the simple realities outweigh the elaborate appearances. Few diplomatic arrangements have been more ferociously advertised than the Rome-Berlin axis. But the true prophets were those who said that Italy is virtually an island and that, therefore, Italy will never fight against the predominant sea power, and they are probably right when they say that Italy will take her place eventually on the winning side. These generalities might be wrong. But they are less likely to be wrong than current opinion based on speculation and propaganda.

* * *

Russia is an even better example of how much more reliable is a judgment based on simple and commonplace generalities than one based on near-sighted intricate knowledge. The bulk of opinion in the democratic countries believed until the end of August of this year in the liberalism of Soviet foreign policy and in the military power of Russia. But the men who were right about Russia, only a handful here and there, held that on general principles a totalitarian system like Russia's cannot be efficient, and that an army which has been purged like the Russian cannot wage a successful offensive campaign, and that a regime so steeped in brutality and betrayal can never be depended upon as an ally.

It took great courage for Mr. Chamberlain to refuse to pay the price demanded by Russia for an alliance. But it showed an even greater foresight.

Past Experience Applies to Nazis

IF NOW WE TRY to reason in this fashion about Germany, what can we say about the probabilities? We knew from the experience of history that a regime like the Nazi would have to expand until it met resistance somewhere that caused a great war. We know from the past that when a war begins in which the issue is not local, limited and specific but is the general issue of European supremacy, then that war does not end until the issue is decided. There may be a truce; there were five or six truces in the Napoleonic era but a war of this character ends either in the victory of the conqueror or in his downfall.

We know, too, from past experience that the nations which command the seas will win such a war unless the conqueror can strike decisively at the inner citadel of sea power. Therefore, it will be prudent to expect that at some time in the next eighteen months, perhaps even at the end of this winter, Hitler must strike with all his force at the British and French. He may not do that. If he does not, the forecast will be most agreeably wrong. For it will mean that the war can end without the devastation of Europe.

But we shall be less likely to deceive ourselves if we expect 1940 to be a year of great and historically decisive battles.

Turks Send Reinforcements To Troops On Soviet Border

Army in Eastern Part of Country May Be Increased by a Third; Iran, Afghanistan Strengthen Forces

BELGRADE, from Page 1.

resistance against Russian pressure.

Tatarescu also reiterated that Rumania would fight to keep Hungary from recovering her war-lost province of Transylvania, now Rumanian territory.

By Cyrus Sulzberger

Copyright by New York Times

Belgrade, Jan. 1.—According to reliable information here, Turkey is sending considerable military reinforcements to the Russian frontier.

Turkey already has 6 of her 13 army corps stationed east of Sivas, which is 250 miles east of Ankara. It is understood the new dispositions will increase the military forces in eastern Turkey by about as much as one-third. At the same time it is confirmed here that Iran and Afghanistan are continuing to bolster their armies facing the Russian frontier.

The three countries are all members of the Saadabad pact and are keeping each other mutually informed. It is, therefore, logical to believe there have been concrete indications of Russian military movements in the region between the Black and Caspian seas.

The Italian press yesterday played up reports from Egypt that the Russians had concentrated some 800,000 troops on the border of Afghanistan.

Allies Developing Force

The French and British are believed to be developing a force of something like 300,000 men in the Middle East under the command of Gen. Maxime Weygand. The Allies have a mutual assistance past with Turkey and have given Rumania and Greece unilateral guarantees against aggression.

Turkey, Rumania, Greece and Yugoslavia are allied too, in the Balkan Entente, directed originally against Bulgaria's irredentist claims arising from the Balkan and World wars. Bulgaria recently has been reported subject to Soviet diplomatic and propaganda pressure, presumably connected with Bulgaria's territorial claims.

Without making any official diplomatic intimation of the request, it is understood that the Soviet has hinted to Turkey that she would like some border rectification in the district around Kars and Ardahan. Turkey would not even consider such a change, and the movement of troops is the answer. No trouble is feared in that quarter at present as fierce cold and snow render attack unlikely. Troop reinforcements are regarded here mostly as a diplomatic gesture.

While Russia would seem to be well occupied in Finland, there are some who believe that now she is throwing her weight around, she is likely to extend her imperialistic aspirations in other quarters. It is widely thought that Germany is seeking to channel any conceivable excess of Soviet expansionist hopes toward the Middle East in order to keep Russia out of the Balkans.

Whether the Kremlin is willing to go along in this respect is a question. In the meantime, the great Soviet mystery continues to create a dither in eastern Europe and western Asia.

Some interesting changes have been taking place in the strategic disposition of the Rumanian army. An excellent source reports that Rumania has recently withdrawn three divisions from Bessarabia. This would leave only one division of cavalry and three of infantry stationed east of the Pruth River.

Nazis Believed Irked

Germany is believed to be somewhat irritated by this weakening of the Bessarabian frontier. The Reich certainly does not want to see any move which the Soviet could construe as an invitation to attack the Balkans.

However, if Russia ever invades Rumania, military authorities are now of the opinion that Bessarabia alone would not be the objective and that the main force of the attack would come from the occupied districts of Poland, where other concentration of the enormous Soviet military forces are centered. German troops are also massed nearby and could conceivably slice through Russian Poland to the Bukovina.

It is thought that in the case of an invasion Russia would try to press directly south between the Pruth and the Carpathians. For this reason Rumania now has 2 divisions of cavalry and 16 of infantry massed around Cernauti. The bulk of the remainder of the armed forces is roughly split, with about seven divisions along the Hungarian border and an equal number in the Dobruja.

It may be seen from these acts of strategy that Russia is now regarded as a more imminent threat than Germany in this region. In fact, the sincerity of Germany's wish to stave off possible Soviet aggression in the Balkan peninsula is emphasized by the fact that she is selling antitank guns and airplanes to Rumania.

There is some talk—naturally unconfirmable—that Germany still dreams of dragging Italy in as an ally and, after embroiling Russia with Turkey, finding a front between Egypt and the Caucasus where a war of movement could be staged. Those who uphold this theory think the Reich would keep the peace in the Balkans and ship troops east from Trieste, instead of launching them overland.

Italy is almost as much of a question mark as Russia, however. Some Rumanian circles believe Italy would be willing to help Rumania against the Soviet by sending military equipment and holding Hungary in check. Such optimism is subject to caution.

Allies Reassure Turkey

In the meantime, it is learned from unquestionably accurate sources that Turkey has received assurance from England and France that if either Germany or Russia attacks Rumania an Allied fleet will be sent to the Black Sea. Russia has not been notified of this intention.

With this background it is apparent why uncertainty still grips the Balkans and why a surge of diplomatic activity continues behind the scenes. Basil Stoica, Rumanian Ambassador to Turkey, passed through Sofia again today on one of his shuttle trips between Bucharest and Ankara and the Turkish Ambassador to Rumania has been recalled for consultation.

Reports continue to circulate that the foreign ministers of the Balkan Entente countries may meet this month. Rumania is anxious for an early conference. However, Yugoslavia remains cool to the idea and it is still indicated that no meeting will be held before the traditional February gathering.

Italian Envoy To Leave Moscow

By Herbert L. Matthews

Copyright by New York Times

Rome, Jan. 1.—Augusto Rosso, Italian Ambassador to Moscow who was formerly in Washington, is returning to Rome, it was reported tonight. Now that the Soviet Ambassador to Rome, Nicolai Gorelkin, has been recalled to Moscow. Some sources say Russo will not go back to Moscow.

The story cannot be officially confirmed here tonight, but it gains plausibility through its connection with the report that the Russian embassy here has been instructed to send Gorelkin's belongings back to Russia.

Gorelkin, the ambassador-designate, was called back to Moscow before he even had time to present his credentials to the king. That was during the period of tension over Finland and the Russian threat to the Balkans.

Another indication of the way the wind is blowing is that the Italo-Russian trade agreement expired at midnight, December 31, and it has not been renewed. However, an exchange of views has been taking place, and it is understood that both parties will tacitly agree to consider the commercial accord operative until negotiations either succeed or fail.

It may turn out that Rosso is being brought back merely to report. On the other hand perhaps the decks are being cleared for action.

Old-Age Problem

By Mark Sullivan

Population Trends

THE SESSION of Congress beginning this week will last some six months. It has no fixed date for ending, but will probably conclude about the time of the national conventions of the two parties to nominate Presidential candidates—the members of Congress will wish to attend those conventions. By the time the session ends, Congress will have filled some 15,000 pages of the Congressional Record's close-set type, something like 30,000,000 words. It will have covered many questions, decided some, and passed laws settling the questions—for the time being.

What the program of Congress will be is the subject of many New Year's Day forecasts. Most of the forecasts are sound enough. They deal with the more familiar questions, the subjects taken for granted—possible change of the national labor law, Mr. Hull's trade treaties, national defense measures, and the like.

For myself, I take a subject regarded as more trivial but which, when understood goes very deep, which casts a long shadow into the future. I take my text from one of those mimeographed "hand-outs" which, on various subjects, daily deluge the desks of Washington newspapermen. The one that impresses me this morning comes from the Dr. Townsend organization, the old folks' pension promoters.

The announcement begins: "A new Townsend Plan bill will be thrown into the House . . . soon after the opening of Congress." The announcement says that they will fight hard for the bill; that they think they have enough friends in the House to get action this session. But if not—they cast a menacing threat at the Democratic leaders: "Before next June our organization will be almost as strong in the South as it now is in the North; we're going to elect a lot of Southern Congressmen in 1940."

To that, most readers will say: "What of it; they have tried before and failed; $200 a month is fantastic; 'ham-and-eggs' failed in California; the Townsendites won't get anywhere; let's worry about something else."

Proportion Of Old Folks Increasing

BUT YOU WOULD take the old folks more seriously if you read the address made last week at a session of the American Statistical Association, by Dr. Raymond Pearl, professor of biology at Johns Hopkins. Dr. Pearl points out the enormous increase in the number of old folks, relative to the younger part of the population. He proves, by actuarial figures, that the proportion of old folks is going to increase still more. Since they have votes, their demand for generous public support is going to be more and more and meet. As Dr. Pearl puts it, rather more difficult to escape, or to harshly:

"The increase in the proportion of persons who have finished whatever biological justification there ever was for existence, constitutes a social problem of the first magnitude in all the populations of the western world."

The same point is made, and proved, by another expert on length of life, Dr. William Ogburn, professor of sociology at the University of Chicago. He shows the tendency of the proportion of old folks in the population to increase.

In 1900, the number of persons over 65 was about 3,000,000; by 1930 about 6,500,000; today about 8,000,000. By a quarter-century in the future, about 1970, the number will be some 16,000,000.

It is not the increase that is important; it is the increased proportion. In 1850, out of every 1,000 of the population, only 28 were over 65. By 1930 there were about 57.

Total Population Gains Only Slightly

WHILE THE NUMBER of old folks increases greatly, the total population increases only slightly. In the next quarter-century, by about 1970, the total population will increase only about 18 per cent. But—and this is the impressive thing—the number over 65 will increase about 100 per cent.

Dr. Ogden wonders if the working part of the population, that is, the ones between 20 and 65, omitting housewives and others not working—will these be able to support so many old folks, and at the same time support families of young children? He says that every 100 workers will be supporting about 50 old folks.

These estimates about the future can be accepted as accurate—actuarial experts know. The condition suggests a score of topics: The reasons for the increase of old folks. The reasons for the decrease of young folks—that is, the decrease in birth rate. Late marriages. Small families. Birth control. Is it good for a nation that families should be supporting old folks—instead of having babies and raising them?

The qquestions raised cover the whole gamut of society. To politicians, to members of Congress and of State Legislatures, the problem is immediate and practical—and certain to grow more so. The march of the sexagenarians is on.

Japanese Push Across River In Kwantung

By F. Tillman Durdin.

Copyright by New York Times

Chungking, Jan. 1.—Heavy fighting continued in North Kwangtung Province today. The Japanese forced their way across the Pa River and engaged Chinese troops at a number of points 60 and 70 miles north of Canton.

The first battle between Chinese and Japanese pursuit squadrons since the fall of Hankow took place on Saturday at Liuchow, in Kwangsi. Eighteen Japanese naval planes presumably from Canton, apparently sent especially to challenge the Chinese, took part in the Liuchow fight, which lasted 15 minutes. The Chinese state that eight Japanese ships were shot down. The Japanese claimed 21 Chinese planes were downed, with no Japanese loses.

Meanwhile, it was reported from Kunming that the Japanese had again bombed the French-owned Indo-China-Yunnan Railway today.

The recent Japanese capture of Nanning and the present offensive in North Kwangtung have made China's outlook for 1940 somewhat less favorable than it was two months ago. Yet the nation entered the new year with a widespread determination to carry on the fight and has justifiable hopes of ultimate success.

It is unlikely that any Japanese military operations in the coming year could extinguish the Chungking regime or force a surrender as long as the government leaders remain resolved to continue the struggle at all costs. It is possible that the early months of 1940 may see a change in the military situation auspicious to China.

Although Japanese reinforcements are being pushed in from the sea to Nanning the continuing Chinese attacks there are making the Japanese hold on the Kwangsi city precarious. The Chinese recapture of the place is not impossible.

At the same time the new Japanese offensive in north Kwangtung may be risky, since a straight advance of parallel columns would leave them exposed to Chinese attacks from mountain strongholds. The Kwangtung drive may end in defeat for the Japanese if they push too far.

Browder Trial Postponed to Jan. 15 or Later

Attorney in Passport Case Delayed by Business Elsewhere

Copyright, 1940, by N. Y. Tribune, Inc.

New York, Jan. 1.—Earl Browder, general secretary of the Communist Party in America, who was scheduled to go on trial tomorrow on charges of having used passports obtained under false representations and through false statements, will not be tried before January 15, at the earliest, it was learned today.

The immediate reason for the postponement is the fact that his attorney, George Gordon Battle, is busy on a case in Augusta, Ga., which will occupy his attention for a week or more.

Five persons are under indictment in the Government's passport case, aimed at breaking up a Nation-wide Communist "passport mill."

Five Plead Not Guilty

Developments in the next two weeks will decide whether Browder or one of the others will be tried January 15. These developments include the growing possibility, it was believed, of at least one of the others pleading guilty. At present Browder and four others have all pleaded not guilty to indictments.

The other four are Robert William Wiener, whose real name is Welwel Warszower, and who is national treasurer of the Communist Party; Harry Gannes, foreign affairs expert and columnist for The Daily Worker, Communist newspaper; Isaiah Litvackoff, a garment worker, and Nicholas Dozenberg, a former Soviet intelligence agent, according to Federal officials, and considered one of the influential Communists in America.

Investigation Continues

Browder and Wiener are now at liberty on $7,500 and $10,000 bail, respectively. Dozenberg, who was held in $35,000 bail after Federal agents took him in Bend, Oreg., December 9, was unable to furnish bail. Litvackoff is being held on $2,000 bail while Gannes has been ill in the Jewish hospital, in Brooklyn, and has not been arraigned.

The special Federal grand jury which began the investigation of the "passport mill" in October and indicted Browder in its first official move on October 23, is continuing its investigation full force, it was learned today, and additional indictments are expected before January 15.

Jackson Dinner Officers Named

Richmond, Va., Jan. 1 (AP).—Campaign officers have been appointed in the nine Congressional districts of the State to head plans for the Democratic Party's Jackson Day dinners January 15.

G. Jeter Jones, managing director for the Virginia campaign, announced the appointments.

Campaign officers for the Congressional districts were announced as follows:

First—Stanley S. Garner, Newport News, chairman; Ben Hilliard, Tappahannock, vice chairman.

Second—Parke P. Deans, Isle of Wight, chairman; Redwood Council, Suffolk, vice chairman.

Third—Edwin P. Cox, Richmond, chairman; James E. Garner, Richmond, vice chairman.

Fourth—Sidney B. Barham, Surry, chairman; Garland Moss, Chase City, vice chairman.

Fifth—John W. Carter, Danville, chairman; John D. Hooker, Stuart, vice chairman.

Sixth—A. M. Bowman, Salem, chairman; John Goldsmith, Radford, vice chairman.

Seventh—Mrs. F. Cleveland Davis, Lexington, chairman; Francis Miller, Harrisonburg, vice chairman.

Eighth—Charles B. Fenwick, Jr., East Falls Church, chairman; John A. E. Donovan, Falls Church, vice chairman.

Ninth—Mrs. Howard C. Gilmer, Pulaski, chairman; Miss Addie Muncy, Bland, vice chairman.

Charles Fenwick Heads 8th District Dinner Committee

Charles R. Fenwick, delegate to the State Legislature from Arlington County, Va., heads the Jackson Day dinner committee of the Eighth Congressional District, it was announced yesterday.

Mrs. Beulah Goss and J. Maynard Magruder have been named co-chairmen for Arlington County, and Elwood Clements, chairman of the Young Democratic division.

Virginia Democrats will pay $25 a plate for the dinner, to be held January 15 at the John Marshall Hotel, Richmond.

Coast Artillery Band Holds New Year Banquet

The Regimental Band of the 260th Coast Artillery held its third annual New Year's Day banquet yesterday afternoon at the Maine avenue armory. Warrant Officer Joseph Berst, leader of the band, presided, and the guests of honor were Col. Walter W. Burns, in command of the regiment, and Capt. James Heizer, Headquarters Company. Thirty-one members of the band were present.

Before the banquet the band played an hour's concert at Brig. Gen. Albert Cox's reception to National Guard officers and their wives in the Pennsylvania avenue armory.

Ewin Davis to Head Trade Commission

The Federal Trade Commission has elected Commissioner Ewin L. Davis to serve as its chairman during 1940. Davis' home town is Tullahoma, Tenn.

Plant Election Ordered at Docks In New Orleans

The new chapter in the prolonged fight between the C. I. O. and the A. F. L. over bargaining representation at the New Orleans plant of the Todd-Johnson Dry Docks, Inc., last night split the three-man National Labor Relations Board three ways.

Each member wrote a separate opinion in ordering a secret ballot election among all employes at the plant on whether the workers favor the C. I. O.'s Industrial Union of Marine and Shipbuilding Workers of America or the A. F. L.-affiliated Metal Trades Council of New Orleans, or neither.

The company two years ago negotiated an agreement with the Metal Trades Council covering the entire plant, but the council in the present dispute sought establishment of 18 smaller bargaining units.

Chairman J. Warren Madden contended the question of the appropriate bargaining unit should be decided by the workers themselves.

Your Figure Madame

By Ida Jean Kain

Determination Is the Real Key to Figure Control

THE THREE things you need to start your figure program are scales, a tape measure, determination. The last is not least! But of one thing you can be sure—it never takes more determination to stay on a slimming program than it does to get started on one! If you have made up your mind to be slim, you are not the kind of person who is easily discouraged.

It is a decided advantage to have a scale of your own. Then you can weigh without clothing, and always at about the same time of day. Go by your weight trend for the week, however, rather than the day-to-day changes.

You are aiming, of course, at perfect weight. That depends on your structure as well as your height. If you are a small-boned person—with small feet, hands, wrists and narrow shoulders—your perfect weight will be lower than for someone of the same height with big bones and a wide frame.

Varies With Structure

The variation in structure is easily taken into account. All you have to do is allow for a difference in the basic height of 5 feet. If you have a slight frame, allow as little as 100 pounds for the first 5 feet of your height. If you have a medium frame, allow 105 pounds for the first 5 feet. And if you should happen to have a wide frame, a basic weight of 110 pounds can be allowed for the first 5 feet of height. In each case, an additional 5 pounds for each extra inch of height is the rule.

The person with the exceptionally heavy frame is entitled to an even higher weight. For this type, an additional 10 per cent of the total weight may be needed. For example, we'll suppose you are 5 feet 6 inches tall with a very wide frame—normal weight for you could be figured at 135 pounds. But you might look and feel better at 148! It would be detrimental to health and looks to attempt to reduce below the weight your structure warrants.

It may not be the scale . . . it may be the tape measure that gives you the facts about your figure. This will certainly be true if you are overweight in spots.

Watch Tape Measure

Let's see about your measurements. To have a perfect figure, the waistline must be a good 8 inches less than the bust, the hips not more than 3 inches larger than the bust. Some of the movie stars whose figures you envy boast figures that measure the same at hips and bust. If your weight is in the vicinity of normal, the tape measure is a much better criterion than the scale, but you will probably want to consult both at regular intervals—the scale once a week, the tape once a month.

At first, it will be hard to stick to your program. But as soon as you begin to record missing pounds and inches, you will be more and more determined to arrive at your goal of a perfect figure.

*From leftover beef.	
TOTAL CALORIES FOR DAY	1,135

Now Is Time to Pay Luncheon Debts

Start 1940 right by clearing up your luncheon debts. Get the habit of paying off a few guests at a time (invite three if you want to even up a bridge foursome.)

For an easy-to-fix midwinter luncheon, one hot dish is enough. It can be generous bowls of soup—vegetable, cream of mushroom, chicken or asparagus. Corn chowder is a fine choice. And, if you are sure that all the guests like seafood, try an oyster or clam bisque. Pass radishes, celery and toasted crackers on fried sticks. Follow the soup course with a salad—fruit, vegetable or fish, depending on the soup. Serve cheese biscuits, bran gems or more bread sticks with the salad. Finish off this tasty luncheon with a light dessert—fruit sherbet, jellied pudding or, perhaps, just assorted cookies.

Midwinter Hats Are Gay, Urbane and Feminine; Resort Models Show Flowers and Veiling.

By Marshall Adams.
The Post Fashion Editor.

Here is one of the new midwinter hats in all its light-heartedness. It is a puff of a hat, no more, and its gayety belong entirely to the first weeks after the New Year. It is of a soft sky-blue pink, the edges a triple row of fluted scallops. A smart urbanity is given this felt by the black grosgrain bow and wreathes of black veiling which extend almost to the hem of the skirt.

The girl wearing the hat is an authentic type for such a feminine style having the gracious qualities needed for it. Meredith Howard is the girl, and she is widely known about town because of her fashion and beauty co-ordinations for radio and because she's one of the Howard twins, formerly of the Follies and lately of Hollywood movie fame. Meredith's sister, Mary Howard, won the coveted role of Ann Rutledge in the film "Abe Lincoln in Illinois," which will have it premiere in Washington toward the end of the month with all the Howard clan in attendance.

The hat Meredith wears is by G. Howard Hodge, noted millinery designer. His millinery predictions for advance southern wear include cuff birettas of imported Madeira lace straw trimmed with bracelet loops through which are strung flaming red jersey drapes. Another Hodge prophetic is a halo of seashell braid which has a head band and neck scarf of flame and white clown-dotted silk jersey.

Prominent among his bonnets for resorting or for immediate wear with furs (and on into spring) are close fitting cloches and turbans of silk braid straw topped by enormous cabochons of straw roses, which also are worked in chaplet fashion around the skull cap and extend into veilings the length of the dress.

Mary Haworth's Mail

Girl's Holiday Telephone Call to Man Is Indifferently Received; How Convince Him She Isn't "Designing?"

DEAR MARY HAWORTH: For a couple of years, a man from New York has been stopping at the place where I board, during his trips to this part of the country. We have become quite friendly, going out together when he comes, which is eight or ten times a year. On one occasion, I spoke of having been in New York a short time before, and he asked why I hadn't let him know.

On my way back from New England after Christmas, I changed trains in New York and telephoned him from the station. I asked him if he would be coming down my way that day, as he had said the last time I saw him that he would be in Washington around Christmas. He replied that he had just returned from the South, where he had spent Christmas, that he was quite busy, etc. He didn't offer to see me, but seemed very nice. Well, first I was hurt, and then I was mad (after I had hung up, I mean). While talking to him, of course, I was quite pleasant, reminding him that he had said he would be coming down, etc.

Later, in thinking over the conversation, it dawned on me that he must have assumed I was telephoning him from Washington. Yet I had taken it for granted he would realize I was in New York, and so hadn't mentioned the fact. Now, I am sure he must think I have designs on him, assuming that I would take the trouble to put in a long distance call. Yet, if I try to explain, he will be even more convinced to the contrary. So what is the sensible thing to do—explain to him or let the matter slide? I have never written to him, except a Christmas card, and so I am afraid a letter would be out of place. In your judgment, does the situation require explanation? Sincerely, M. R.

Spontaneous Civility Needs No Justification

DEAR M. R.: Your spontaneous and innocent civility requires no embarrassed explanation. Your telephone call was made in casual good faith, since the man had once incidentally indicated that he would be pleased to hear from you when you are in New York. If it should be that he is so lamentably conceited as to misconstrue friendliness for designing pursuit, don't bother to take the iniative in disillusioning him.

You would be demeaning yourself to no point whatsoever—would, indeed, be making a mountain out of a molehill—in painstakingly outlining for him the unpremeditated motives and circumstances of your call. If the incident is ever to be clarified discussion, let it be because he has introduced the subject.

It is my belief, however, that the man did realize you were in the vicinity—else he would not have stressed the fact that he was "quite busy, etc." He probably was up to his ears in social engagements characteristic of the holiday season; may have a "best girl" who has prior claims on all his leisure time when he is at home in New York; and so perhaps had no alternative to bringing the conversation lamely to a close without inquiring into your whereabouts or availability at the moment.

My advice to you is to pass over the incident as though it hadn't happened. If the man has average social intelligence, that untimely call will not, of itself, impair your standing in his eyes,—whereas a tortured explanation of just where and why you made it might cause him to avoid you in future as a morbidly sensitive woman.

As a matter of fact, the psychologically healthy person is amiably indifferent to what others may think of what he does, so long as his own conscience is clear. And in this case, if you were as emotionally unconcerned with this man as you would have him believe, you would have been more disappointed by his tacit rudeness than agitated over the possibility of losing his esteem. So why not act on the theory that explanations and apologies, if any, are owing from him to you, rather than the reverse? M. H.

Woman Tells Harm Of Emotional Frigidity

DEAR MARY HAWORTH: I read in your column with great interest the letters of the "Preplexed Husband" whose wife wanted their marriage to be a platonic association, and I applaud the wise counsel you gave him. If I may judge from my own experience as a wife, there are many women who might profit tremendously by reflecting upon the implications of those letters and your replies.

The wife in that case represents an extreme example of a type that is all too frequent a factor in unhappy marriages, namely: the wife who, for one reason or another, is unwilling or unable to enter into the sexual relationship of marriage completely and without reservation. There are varying degrees of frigidity in women, and many are unaware of this psychic deterrent, rationalizing its existence in their nature as modesty, high mindedness, etc., etc.

Complete participation in this basic and central experience of marriage is necessary for satisfying the innermost psychological needs of both husband and wife, and for promoting harmony and success in all phases of their social partnership. Conversely, even slight reservations, regardless of the supposed high-mindedness of the motives, has harmful emotional consequences. For one thing, it is instinctively felt by a sensitive partner as distrust or dislike, which evokes a reaction of confusion, hurt pride and anger. Resulting misunderstandings and quarrels are inevitable.

I hope you will continue for a long time to come to conduct this fine forum for the discussion of these vitally important human problems. Sincerely,

ANNA M.

New Fabrics Created for Spring Clothes

New York (AP).—New fabrics have been created here to make the 1940 spring clothes. New rayon jerseys, said not to stretch, but still to drape with grace, make afternoon and cocktail frocks. Very fine cashmere wools make street clothes and new plaid "handkerchief cottons" fashion sports frocks.

New accessories have been evolved here, too. Among them are colored leather belts and buttons. Snakeskin has been dyed bright hues and leather tinted turquoise and coral and studded with stones to match to make belts and buttons. There is a wealth of gold and silver gadgets to wear on costume suit lapels.

Naby blue, gray, grayed blue, black and beige are talked of as costume colors. Sometimes they are combined with a touch of white, again with a gay hue. One designer brightens her navy blue and gray costumes with polka dotted hats and gloves.

Go to College At Home

"THE talk's over my head," mutters the girl who missed college. Vainly she tries for attention, turns on a swing tune.

But anyone—you for instance—can go to college at home. You can become interesting, sought-after by cultured people. And now, at the beginning of the new year, is a fine time to start!

What makes college people stand out in a group? Their alert minds, their understanding of what's going on in the world. So read newspapers, turn to magazines and radio forums which feature the talk of the day.

Perhaps you find the accent is on current American problems—violations of the Bill of Rights, un-American attitudes.

To get the background of those problems, dip into history, read the thrilling historical novels picturing the struggles of our Nation to preserve its liberties.

And do you feel stupid when important names are mentioned—Molotov, Barbirolli, John Steinbeck? Keep your own Who's Who—jot down names you see in reading, add a note or two about them. Soon you appear well-informed.

Do you hear an unfamiliar word or expression—introvert, defense mechanism? A good dictionary will explain those pyschological terms. And exciting to go on, read college texts on psychology.

But so your information won't be scattered, so you can hold your own in any group, you need a plan of study based on college courses.

Our 40-page booklet, "Suppose You Haven't Gone to College," outlines a simple plan for college study at home, recommends books on science, economics, literature, other college subjects. Tells how to make use of free educational resources to advance yourself culturally, in your work.

Send 15c in coins for our booklet, "Suppose You Haven't Gone to College," to The Washington Post Home Institute, 109 West Nineteenth street, New York, N. Y. Write plainly your name, address, and the name of booklet.

* Reg. U. S. Pat. Off.

The Gentler Sex

By MALVINA LINDSAY

Hat in the Ring

Mrs. Henrietta DeGoofey, founder and president of the Do Something About It League, is a candidate for President of the United States on the "Square Deal" ticket!

Mrs. DeGoofey

The famous reformer made jaunty black this announcement yesterday at her weekly press conference after reporters had congratulated her on her new spring hat—a jaunty black straw with trim of pink button daisies.

"I'm really ashamed to appear this late in my spring hat," Mrs. DeGoofey told the press. "Heretofore, I have always had my spring millinery at least by Christmas. But I did not intend to throw my hat in the Presidential ring until New Year's Day and I felt it should be brand new for the occasion."

"Do you intend to run even if President Roosevelt seeks a third term?" asked a political columnist.

"Certainly! I am an unconditioned, unfettered, unbossed candidate. I don't care who runs—Roosevelt, McNutt, Clark Gable, Charlie McCarthy—I shall stay in to the finish. And I will be elected!"

Square Deal For Everybody

"What makes you so confident?" asked an Indiana correspondent.

"Because I am offering to the people of this country—especially the women—a Square Deal. People are tired of the New Deal. And from the Republicans they can only expect a Raw Deal. Their only hope in the present crisis is my Square Deal program."

"What is your program, Mrs. DeGoofey?" asked an editorial page pundit.

"You may quote me as saying I am for true democracy, the right kind of Americanism, worthwhile legislation, the rights of the masses, liberty, progress, peace—"

"Just a minute Mrs. DeGoofey," interrupted an Ohio publicity man. "Won't you be more specific?"

"This is not the time to be specific. A little later I will outline in detail what I stand for. I will say this much, however. I will stand four-square on the platform of the Do Something About It League whose main planks as of course you know, include the abolition of the overnight guest, the reform of the buffet supper and the large tea, the suppression of banquet oratory, the invention of a workable can opener, the development of a practical housecoat and other measures designed to rid life of its small annoyances."

"You will seek election as the candidate of the Nation's womanhood will you not?" asked a representative of the Woman's Daily Hatchet.

"Not entirely. While I am primarily interested in helping women meet their problems—such as freakish hats, meatless lamb chops at club luncheons, compacts that spill powder, etc.—yet there are many things I can do for men if I am elected President. To mention just one, I can start a school to train women in necktie selection. But more of that later.

Will Campaign For Men's Vote

"Now I intend to have a man's division in my campaign organization. It will be headed by Prof. Byron Bysshe Aspic, the only man member of the Do Something About It League, who has been directing my campaign to retain the short skirt and to combat the trousers-for-women movement. Professor Aspic will shortly announce his plans for boosting my candidacy among men voters.

"Who will head your women's division?" asked a "woman's angle" reporter.

"I have not fully decided. I am looking around for a woman leader with—with—"

"Ability?" supplemented a cub reporter.

"No! Money!"

"Won't you tell us something about yourself Mrs. DeGoofey—that is give us some folksy, human interest material?" asked a feature writer.

'Modest, Unassuming, Plain as an Old Shoe'

"Well, while I am not looking for any personal notoriety, I will say this much: I am a widow, which fact alone should insure me a large male vote. I am a grandmother and can be photographed with small children. I am a member of 47 organizations, an expert knitter, a restorer of old houses, a good (but not too good) bridge player, a collector of antinques, the owner of a Pekingese, a patron of the arts, a music lover, a nature lover, a poetess, a radio fan, a devotee of the comic strips, an authority on canapes, and a raiser of guppies. And despite all my accomplishments, I am plain as an old shoe.

"And by the way, that reminds me! I have with me some kodak prints showing me in my apron in my kitchenette whipping up a lemon meringue pie with one hand, holding an encyclopedia of movie stars with the other, and listening to Amos and Andy on a portable radio. I thought some of you might like to run these with your announcement of my candidacy."

A Woman's New York

By Alice Hughes.

Best-Dressed Are Between 40 and 55, Runyon Reports

New York, Jan. 1.

MY ERUDITE and versatile colleague, Damon Runyon, brightened the holidays by ripping off an interesting piece on the ladies of this town. Brother Runyon, after much arduous field work including dashes through department stores and the luncheon places sacred to the exhibitionism of our show-off sets arrived at the conclusion that the best dressed and handsomest women here are ladies between the ages of 40 and 55.

Alice Hughes

Comrade Runyon, in his thesis for his doctorate in a sphere beyond Broadway, has no respect for the youngsters of our town, in the way of dress. He is of the opinion that in this, as in other fields, the babes from the Stork Clubbe do not know which way is up. I incline to the belief that the Balzac of the Horse-Players sells the children a trifle short, but in the main I agree that the best garbed girls here are either nudging 40 or have rolled over that momentous peak.

Runyon studied the situation here through fumes no stronger than those of rich black coffee, his strongest tipple. Thus clear-headed, he opines that the girls are really studying the intricate art of tasteful dress until they approach the two-score mark, and in this I am afraid he rather overshoots the target. For in such a town as this women become clothes-conscious at an astonishingly early age, and if they have a feeling for apparel, they should know what to buy and how to wear it, at 30, if ever. And it is my belief that they do. I should incline, therefore, to cut down my colleague's figure by nigh onto 10 years.

Damon's best point, I feel, is that a really smart woman can be better dressed in an inexpensive reproduction than her less crafty sisters can in a garment right off the Paris racks. No one, I think, can deny that one.

GIRL ABOUT TOWN—Having pretty thoroughly checked the gift list among the girls I know here, I think the drollest exchange between Mary Lewis, the store executive, and her friend Grace Ashley, fashion creator. Grace has a farm with an acre near the house not yet under cultivation. So Mary sent her enough forget-me-not seed to sow the entire meadow—a pretty thought of remembrance, indeed. I'd like to see a whole acre of those wishful blossoms. . . .

And Beatrice Mathieu, the magazine writer who is now building a home at Carmel, Calif., writes me that one friend sent her and her husband a half ton of cement as a Christmas gift. Can anyone tie that for practicality?

ONE OF THE local stout gentlemen, who must remain nameless here, received from his doting daughter a set of dinner napkins with buttonholes worked in one corner. Now he can button the serviette to his weskit and thus keep it from sliding off his copious facade. And to make sure papa doesn't forget to take off the napkin when the meal is over, on another corner is embroidered, "You can't take it with you!" Some papoose! . . .

Takes Time to Develop Style Sense, He Thinks

Built With Amplifying Sides "Big Piano" Tone in This Small Piano
'MINIPIANO'
PRICED FROM $240
Droop's • 1300 G

"*Doing* the household buying used to be pretty much of a chore. It meant literally hours of wandering from store to store, looking, shopping, selecting, searching for the best.

"But since I discovered my telephone, I really look forward to marketing. It's so easy, and the store people are so helpful and nice about things. And if I don't find what I want at one place, I can cover the whole field by telephone in less time than one trip used to take.

"I'm certainly sold on the slogan 'The telephone is lighter than the market basket'!"

Informal Parties Take the Place Of Official New Year's Day Calls

Eggnog by Special Recipe Enlivens Gathering At Justice McReynolds' Home; The Arnolds Serve Black-Eyed Peas, Greens for Luck

It's been many years since the New Year's Day receptions at the White House and holiday calls on leading officials were an important part of the social routine on this day, but society still goes calling anyway on New Year's. There were so many parties yesterday afternoon that anyone who'd been obliged to do the social stint which used to be required by officialdom here would never have had the strength to get around afterwards to private functions.

Yesterday found everybody who was anybody breathlessly leaping around from in town out to the suburbs for the various festivities. To name but a few of the functions, there were Justice James C. McReynold's annual eggnog party; the tea given by Mrs. John R. Williams, her daughter, Mrs. Joseph Leiter and Miss Nancy Leiter; the informal gathering at the home of Assistant Attorney General and Mrs. Thurman Arnold, the "at home" held by the Chairman of the American Red Cross and Mrs. Norman Davis at their residence in Alexandria, Mr. and Mrs. David Cushman Coyle's party before luncheon, and the tea given by Mr. and Mrs. John Ihlder.

Diplomats, Cave-Dwellers at Williams Party

Limousines were lined up three deep outside Mrs. Williams' home on Massachusetts avenue, where Mrs. Leiter and Miss Leiter are making their home this year. A marquee stretched from the sidewalk to the front door, and inside all was cheer and merriment. Among the callers were many leading members of the diplomatic corps, as well as representatives of the "cave-dweller" set.

At Justice McReynolds' party the guests came early and stayed late. More or less the same group is invited every year, and the Wilbur Carrs were remarking yesterday that in all the time they've lived in Washington they've only missed two, when they were in Europe.

Eggnog whipped up according to a special recipe by Harry, the justice's super chef, was the high light of the party. Guests wandered about admiring Justice McReynold's fine collection of Audubon prints in the drawing room, his camelia prints in the hall, and the many other pictures which the host collects.

Mr. and Mrs. Stanley Hornbeck, glimpsed leaving 2400 Sixteenth street, where the justice lives, said they were en route out to Alexandria to Mr. and Mrs. Davis' party. Countess Szechenyi, recently returned to the Capital, was being welcomed on all sides, and Mrs. Charles M. Lea told friends she was back from Philadelphia, where she spent the holidays. Mrs. Jacob Leander Loose and Joseph Tumulty were also making the rounds yesterday afternoon.

Arnolds Try Good-Luck Recipe

Motoring out to the home of Mr. and Mrs. Arnold in Virginia, the guests started the New Year right by partaking of black-eyed peas and greens. According to and old Southern custom, this brings luck for the New Year. Spiced ham, another Arnold specialty, beaten biscuits, and cottage cheese from "Angel," their cow, were also served.

Thurman, jr., and George Arnold, students at Yale and Hotchkiss, respectively, received with their parents. The hostess wore a green crepe dress with a handsome piece of silver costume jewelry.

Informality was the keynote of the party. Among the many who dropped in were Wesley Sturgis, formerly of the Yale Law School, and Mrs. Sturgis; Mr. and Mrs. William P. MacCracken, Judge and Mrs. Clarence Norton Goodwin, accompanied by their son, Morton; Mr. and Mrs. Raymond P. Brandt, and Mr. and Mrs. Duke Shoop.

Hot spiced cider outdid in popularity even the delicious, foaming eggnog at the party given by Mr. and Mrs. Coyle. Though the guests were invited for 11 o'clock, many were still arriving at 2:30. Mrs. Coyle wore black brocade trimmed in silver and was assisted by her two sons, John and Larry. Her daughter, Miss Anne Coyle, had already returned to New York, where she does research, after spending the holidays with her parents.

Pouring coffee at the Coyle party was Miss Anne Moorhead, daughter of Mrs. Howell Moorhead. Mrs. Spencer Thompson presided at the eggnog table.

Mr. and Mrs. John Ihlder not only celebrated New Year's at their party, but also the hundredth anniversary of their charming house in Georgetown.

Party Invitations Still Going Out

Even though the holidays whirl is just past, party invitations are still going out by the dozens. Among events already on the calendar is the dinner to be given by Senator and Mrs. Millard Tydings on January 22. The event is being planned in honor of Mrs. Tydings' father, former U. S. Ambassador to Belgium Joseph Davies, and Mrs. Davies.

Mr. and Mrs. John McClure will entertain at a wild duck dinner at the Burning Tree Club Friday night. Mr. and Mrs. W. S. Culbertson have cards out for a dinner January 26.

Mr. and Mrs. Louis Owsley will give a dinner January 26, and the following night Mr. and Mrs. Edward Eilber will entertain at a similar affair, their party taking place at the 1925 F Street Club.

Corcoran to Show Eugene Vail Art

The president and trustees of the Corcoran Gallery of Art have issued cards for the opening of a memorial exhibition of paintings by Eugene Vail.

Saturday afternoon, January 6, between 1:30 and 4:30 p. m. has been set for the opening. The exhibition will continue through Saturday, January 28.

Engagement Made Known

Hessler Studio.

MISS MARY FRANCES WARNER,
whose betrothal to John Andrew Gilmore is announced by her mother, Mrs. Henry Warner. The bride-elect, who is a popular member of the younger set here, is the daughter of the late Henry Michael Warner, of Baltimore and Chicago. She is a graduate of the Madeira School and Wheaton College, Mass. Mr. Gilmore is the son of Eugene Allen Gilmore, president of Iowa State University, and Mrs. Gilmore. He is a graduate of Dartmouth College and received his law degree at Iowa State University Law School. The wedding will take place in the late spring

Robert Herzogs On Bridal Tour

Mr. and Mrs. Robert P. Herzog, who were married in New York on Sunday, will make their home at 529 East Eighty-fifth street, New York, on their return from a honeymoon in Cuba.

The bride, the former Miss Katherine Sloss, is the daughter of Mrs. Milton J. Sloss, of New York, and the late Mr. Sloss, and Mr. Herzog is the son of the late Mr. and Mrs. Solomon Herzog, of Washington.

The ceremony took place at the home of the bride's mother, the Rev. Benedict B. Glazer officiating.

Rita McCarthy Is Engaged

Mr. and Mrs. J. M. McCarthy announce the engagement of their daughter, Rita McCarthy, to Philip L. Roache, jr., son of Mr. and Mrs. Philip L. Roache, of this city. The betrothal was made known to a number of friends at a party given recently by Mr. and Mrs. Lester Holsinger.

The bride-elect attended school here. Formerly of Troy, N. Y., she moved to Washington five years ago. Her fiance is a graduate of Gonzaga Junior College and now is a senior law student at Southeastern University. He is employed in the Postoffice Department. No date has been set for the wedding.

Miss Freedman Is Wed To John J. Millsback

Mr. and Mrs. Albert L. Freedman, of Arlington, Va., announce the marriage of their daughter, Margaret Elizabeth, to John Joseph Millsback, son of Mr. and Mrs. William J. Millsback, of Meriden, Conn.

The wedding took place Saturday, December 30, at St. Thomas' Catholic Church, Arlington, Va., with the Rev. Edwin C. Lee officiating. Mr. and Mrs. Millsback will make their home on Lee Terrace after a tour through New England.

Dr. Coil Weds Miss Beaton

The marriage of Miss Mary Beaton, of Casper, Wyo., to Dr. E. Johnston Coil, of Washington, director of the National and Social Planning Association here, took place at 10 o'clock yesterday morning at St. Alban's Church. Later the couple left for a wedding trip, after which they will reside in Washington.

The bride wore a street-length frock topped by a fur coat and turban and carried a large bouquet. Among the guests were Representative and Mrs. Clarence Cannon, of Missouri.

Mrs. Coil, a graduate student at Leland Stanford University in California, has been doing graduate research work here at the Library of Congress. Dr. Coil is the son of Dr. and Mrs. Paul E. Coil, of Mexico, Mo., who were present at the ceremony.

Nancy Luttrell To Be Married

Nathaniel Horace Luttrell has anounced the engagament of his daughter, Nancy Lee Luttrell, to Edgar Joseph Orme, jr., son of Mr. and Mrs. Edgar Joseph Orme.

The bride-elect made here debut here a couple of seasons ago. She attended Potomac and Madeira schools before going to Vassar College, where she was graduated last June.

The wedding will take place in the spring.

Army and Navy Club Holds Open House

Some Thousand of Service Set Stop In For Greetings, Eggnog

More than a thousand leading members of the service set turned up at the "open house" held yesterday at the Army and Navy Club on Farragut Square. The party lasted from 3 until 8, so at no time, despite the throngs, was the spacious clubhouse too crowded for comfort.

This annual event offers the women of the Army and Navy circle their only opportunity to enter through the front door of the club, on all other days reserved for the men.

Music and Eggnog Both Soothing

A large Christmas tree towered to the ceiling of the main lounge, and nearby a stringed orchestra played not too loud to drown conversation. In the dining room to the right of the main hall there were bowls of creamy eggnog as well as plates piled high with sandwiches and hors d'oeuvre.

Noted in the crowd was the recently appointed commandant of the Army Medical Center at Walter Reed, Brig. Gen. Raymond F. Metcalfe and Mrs. Metcalfe. Other high-ranking officers and their wives present included the Chief of Ordnance and Mrs. Wesson, Admiral and Mrs. Ben Moreell, the judge advocate general of the Army, Gen. Allen Gullion, and Mrs. Gullion, Gen. and Mrs. Thomas Robbins, Maj. Gen. David Shanks, Maj. Gen. and Mrs. Andrew Moses, Gen. and Mrs. C. D. Roberts, Maj. Gen. John L. Hines and Gen. and Mrs. Charles Cootes.

Capt. and Mrs. Lybrand Smith were accompanied by their two sons-in-law and daughters, Lieut. and Mrs. Albert J. Shower, Lieut. and Mrs. Bernard Dunkel, and their youngest daughter, Miss Rosalind Smith.

Lady Leslie Is Welcomed Home

Lady Leslie was being welcomed back on all sides after a stay in New York. Others present included Mrs. Baden Waring, Baroness von Below, Gen. and Mrs. Amos Fries and their daughter, Miss Carol Fries, Col. and Mrs. E. B. Clark and Col. and Mrs. W. H. Haskins.

Capt. and Mrs. Joseph Battley, Gen. Joseph Tracy, Col. and Mrs. Paul English and Col. and Mrs. Haig Shekerjian were others who exchanged new year's greetings over a glass of eggnog.

Younger Set Gathers at Slingluff Tea

Two hundred strong, debutantes and sub-debs and their beaux home from college gathered at the home of Commander and Mrs. Frank Slingluff yesterday afternoon for the tea given by their son and daughter, Frank and Miss Suzanne Slingluff.

The young hostess wore a floor-length frock of dusty pink trimmed at the sleeves with silver, and her mother chose black with a sequin bodice. Assisting at the tea table, which was centered with a small Christmas tree, were Mrs. E. J. Foy, Mrs. Elliott Nixon, Mrs. Cecil Cowan and Mrs. Richard Buchanan.

Among the young people who called during the afternoon were the Misses Douglas Woods, Bernice Merchant, Beatrice Recinos, Ann Buchanan, Audrey Cowan, Suzanne and Mary Tudor Morsell, Sylvia Alexander, Helen Crean, Jacqueline Keyes, Isabelle Badger, Ann Huidekoper, Beatrice Chew and Jane Badger.

Edouard Dreux Weds Mrs. Crabbe

Of interest to Washington is the marriage of Mrs. Harriet Huntress Crabbe and Edouard Albert P. Dreux, which took place Saturday at the Hotel Van Rensselaer in New York. The bride is a daughter of Mrs. G. Brown Huntress, of New York, and George Huntress, of Clearwarte, Fla., both of whom formerly resided in Washington.

Mrs. Huntress' suite at the Van Rensselaer was the scene of the 3 p. m. ceremony at which the Rev. Frederick Mabon, of the Dutch Reform Church, of Madison, Conn., officiated.

Mr. Dreux is the son of Mr. and Mrs. Emile Dreux, of Delaware Water Gap, Pa. The former Mrs. Crabbe is the window of Birbeck C. Crabbe, of Toms River, N. J. She and Mr. Dreux will make their home in Delaware Water Gap and Magnolia, N. C.

Son Born to Cooks

Mr. and Mrs. Frank Cummings Cook, jr., announce the birth of a son, Frank Cummings Cook, 3d, on December 22 at Garfield Hospital. Mrs. Cook is the former Elizabeth Rose Peirce.

Notes of Society

Official and Residential

The French Ambassador, Count de Saint-Quentin, entertained at dinner last night for members of the embassy staff.

Mr. and Mrs. J. L. Houghteling will entertain at a cocktail party this afternoon from 5 to 7 o'clock.

Mr. and Mrs. C. Oliver O'Donnell, who are spending part of the winter in Washington, went for New Year's to Newport, where they were guests of Mr. and Mrs. Francis Taylor.

Miss Helen de Limur, daughter of Count and Countess Andre M. A. de Limur, of the French Embassy, is at the St. Regis, in New York.

Mrs. James E. Freeman will be at home on Fridays after 4 o'clock until Lent.

Miss Genevieve B. Wimsatt, of Washington, has gone to Deland, Fla., to spend the rest of the winter.

Mr. and Mrs. John Holliday Perry, of Palm Beach, have as their guest there George Henry Payne, of Washington.

Mr. and Mrs. Lowell Blake Mason have issued cards to a "musical dinner" January 12 at 8 p. m. The event will take place at the Mayflower Hotel.

Coleman Rogers Gray, of Alexandria, has clever hand-drawn invitations out for a "kitchen party" Sunday from 5 to 7 p. m. The party will take place at 600 South Alfred street, Alexandria.

Donald Creech has returned to Colgate-Rochester Divinity School to resume his studies after spending the holidays with his parents, Dr. and Mrs. G. Tinsley Creech, on Manchester lane.

About The Town

With Dudley Harmon

IF SALVADOR DALI ever were to paint his impressions of New Year's in Washington, he doubtless would design an eggnog rampant and the head of a mink-turbaned woman sticking out of a sea of Christmas wreaths. If he'd followed us about on New Year's Eve and yesterday afternoon, he would have gotten inspiration for no end of pretty pictures.

Among them:

Mrs. John Roosevelt, dropping in at a small, informal party after New Year's Eve dinner at the White House, wearing a stunning, Christmas-red velvet dress with short, puffed sleeves and a square neck. Topping off the former Anne Clark's frock was a brooch of seed pearls and a pearl necklace . . . Her handsome mother, Mrs. L. J. Wiltse, who looks young enough to be her sister . . . John Roosevelt telling us how much he liked his job at Filene's store in Boston, and how he now is concentrating on their branch outfits in neighboring towns . . . The Roosevelts, incidentally, followed their family dinner at the White House with a showing of a Paul de Kruif film. Distant cousin Joseph Alsop was among guests.

Mrs. George T. Pettingill receiving an extra kiss from the other guests at midnight because yesterday also was her birthday . . . Mrs. Gale McLean, in a stunning ermine wrap, dashing off with her husband after this party to another one at the Sulgrave Club, where Betty and Marian Shouse, the James Gibsons and a few others were celebrating.

MRS. GEORGE MARYE'S apartment yesterday afternoon between 5 and 7 o'clock, the only apartment in town big enough to accommodate a large crowd without crowding . . . The Christmas tree shining forth from the second-floor window of her residence, 1785 Massachusetts avenue, where the late Andrew Mellon lived with his priceless art collection for so many years.

The two little silvered trees stuck in the fireplace of her enormous hall . . . the high-ceilinged diningroom, with an enormous mirror over one wall and a long table centered with a handsome epergne of crystal and silver, filled with fruits.

THE JOHN ROOSEVELTS leaving to return to Boston last night. Mrs. Wiltse, however, will remain here until January 16 before commuting again to her home at Nahant . . . the Peruvian Ambassador sitting in earnest conversation with Mrs. Warren Delano Robbins, who did not get around to taking off her mink coat.

Mrs. Wallach Merriam, in black with a red velvet snood-hat, chatting as she dished out the eggnog—the hostess, in black velvet, receiving with her son-in-law, Commander W. D. Thomas, while Mrs. Thomas wandered about and a young Thomas daughter made herself useful.

THE GEORGE A. GARRETTS wishing friends a happy New Year . . . Mrs. Randall Hagner, with touche: of red on her black frock at . . . Keith Officer, of the British Embassy, looking a bit confused, as was practically everybody at that point.

Senator Vandenberg and Snowden Fahnestock, but we didn't see their wives . . . Mrs. Emmons Smith, in a rust-colored dress and jacket, sitting on a chair to talk to Harold Hinton . . . Mrs. Hinton seemed to be another missing wife.

Mrs. Harold Sims and Miss Mary Louise Marsh among the silver-fox-jacket contingent . . . Representative and Mrs. Sol Bloom talking to George T. Summerlin, of the State Department . . . Admiral John Towers, who hates paper-hat-and-noise-maker parties, telling us he and his wife had set the alarm for midnight on New Year's Eve, planning to open a bottle of champagne together, and slept right through it.

RALPH SNOWDEN HILL and Eddie Gardner among the bachelors . . . Mrs. Pearsons Rust, in red and black . . . Mrs. Harry Grant Meem . . . Mr. and Mrs. John Caswell, the latter wearing a mink coat and a crimson beret . . . a cluster of men standing around the bar set up in one of the living rooms . . . Dr. and Mrs. Kurt Hetzel . . . Capt. and Mrs. Deyo . . . Mrs. Francis Whitten, in dark green velvet with a matching hat . . . Mrs. William MacCracken, who wore two silver foxes with her beige frock . . . Mrs. Marshall Exnicios, who combined beige and black . . . one of the Vom Rath sisters, but as all look exactly alike, we couldn't distinguish which.

Attractive Mrs. Robert Low Bacon, in black with a silver fox jacket . . . the Misses Patten . . . and dozens and dozens of others.

Eve Lewis, Cousin Of Justice Cardozo, To Be Married

Mr. and Mrs. Harold L. Lewis, of Elberon, N. J., have announced the engagement of their daughter, Miss Eve Lewis, to Frank Schlossinger, of Zurich, Switzerland.

The bride-to-be, who is a cousin of the late Associate Justice Benjamin N. Cardozo, of the United States Supreme Court, was graduated from the Dalton School in New York. Mr. Schlossinger is the son of Mrs. Richard Schlossinger, of New York, and the late Mr. Schlossinger, of Zurich. He attended Oxford University and is now residing in Sao Paulo, Brazil, where he is in business. The wedding will take place there in the spring.

The Fergusons Hosts to Party Of Hundred

Gay Affair Is One Of Holiday's Largest; Followed by Dinner

One of the largest and gayest of New Year parties was that given yesterday afternoon by Garland Ferguson, member of the Federal Trade Commission, and Mrs. Ferguson at their apartment in the Wyoming. Not only did they receive more than a hundred guests during the afternoon, but after it was all over they entertained at a dinner for 40.

As the reception was a quite formal affair, Mrs. Ferguson wore a white satin evening gown with a metal jacket and a corsage of orchids. Her sister, Mrs. Maude M. Wiggins, who is spending the winter with her, had chosen black net, made with a full skirt and low neck. Also in the receiving line was Mrs. Ralph Scheffer, of New York, who with Mr. Scheffer is spending the holidays with the Fergusons.

Generally assisting throughout the afternoon was Mrs. William B. Snow, jr., daughter of the hosts, who wore a frock of blue and gold and a corsage of gardenias.

Pouring tea at a table centered with red poinsettias were a group of wives of prominent officials, among them Mrs. Paul V. McNutt, Mrs. Henry F. Grady, Mrs. Morris Sheppard, Mrs. William B. Bankhead, Mrs. Ewin Davis, Mrs. Charles March, Mrs. Justin Miller, and Mrs. R. D. W. Connor.

Also Mrs. Nathaniel B. Dial, Mrs. Camden McAtee, Mrs. White Cotton, Mrs. George Thorpe, Mrs. Joshua Evans, Mrs. Adrian Busick, Mrs. Fred B. Harris, Mrs. David McCoach, Mrs. Fred B. Harris, Mrs. William E. Stroud, Mrs. H. A. Townsend, Mrs. Bates Warren, Dr. Frances Fry, Mrs. Frank Bright, Mrs. Clinton Tribby, Mrs. Theodore Benson, Mrs. David Hunt Blair, Mrs. Robert H. McNeil, Mrs. Seth Richardson, and Mrs. Augustus Moncure.

Ranking guests at the dinner which followed were Mr. and Mrs. Grady and Justice and Mrs. Miller.

Mrs. Mitchell, Daughter Visiting Beverly Hills

Mrs. J. T. H. Mitchell and her daughter, Miss Ann Mitchell, of New York City and Greenwich, Conn., who frequently visit here, are at the Beverley Wilshire Hotel in Beverly Hills, Calif., for a brief stay.

They went out shortly before Christmas for a round of parties and mailed their season's greeting cards from there. They attended a St. Moritz party given by Mr. and Mrs. Basil Rathbone and a Christmas dinner dance given by Mr. and Mrs. Errol Flynn.

According to present plans, Mrs. Mitchell and her daughter will come to Washington in the spring to spend several weeks.

Round of Festivities Marks New Year for Women's Clubs

300 Attend Chevy Chase Dance; Mrs. Bonnett Has Charge of the Arrangements Including Intermission Show

A round of festivity marked the celebration of New Year's Day for the women's clubs of Washington. There were many teas and the dance of the Woman's Club of Chevy Chase, attended by more than 300 members and guests.

Mrs. Ralph W. Bonnett was in charge of arrangements for the affair which was given at the clubhouse, Connecticut avenue and Dunlop street. Two large silver Christmas trees, trimmed with blue lights, decorated the stage of the auditorium, where dancing was held. They stood at either side with the red velvet curtains of the stage as a background. Large cedar wreaths, tied with red bows, were hung between the windows and doors along both sides of the room.

Tables for cards, accommodating those who did not dance, were arranged in the library and the board room on the second floor of the clubhouse.

During intermission, there was entertainment including a toe dance by Phoebe Batham, a senior at Bethesda-Chevy Chase High School, and a comedy skit by two children, who were presented as the Olson and Johnson team. Balloon and confetti dances were features of the evening's program. Mrs. Frederick Kerby, president of the club, and Mr. Kerby were among the guests.

Mrs. Bonnett was assisted in arranging for the party by Mrs. Raymond D. Garver, Mrs. Robert Barnett, Mrs. William M. Throckmorton, Mrs. William E. Yost, Mrs. Albert M. Dickson, Mrs. Margaret B. Keyhoe, Mrs. H. S. Yohe, Mrs. Joseph Brantley, Mrs. David K. Robinson, Mrs. Albert R. Merz and Mrs. William D. Wermouth.

Eastern Star Gives Reception

One of the large receptions yesterday afternoon was that given by Mrs. Paul Cromelin, grand matron and Richard E. Titlow, grand patron of the District Grand Chapter, Order of the Eastern Star. It was in the chapter rooms at the site of the Eastern Star Temple, 2600 Sixteenth street. Officers and members of the various chapters in the city were among the 700 attending between the hours of 4 and 7.

Presiding at the tea tables were the general grand secretary of the general grand chapter, Mrs. Minnie E. Keyes and the general grand treasurer, Mrs. Flora E. Campbell; Mrs. Madella Smith, general chairman of the Temple Auxiliary Board; Miss Mildred Hicks, grand conductress; Mrs. Minnie Burdine, associate grand matron; Mrs. Lillie McKenzie, grand treasurer; Mrs. Rose Yost, grand secretary; Mrs. Hazel Engelbrecht, associate grand conductress.

Miss Lillian Zimmerman, grand marshal, was in the receiving line with the matron and patron, as were Mrs. Cromelin and Mrs. Titlow.

Others assisting in the dining room included Mrs. Elsie Douglas, Mrs. Martha Kauffman, Mrs. Blanche Power, Mrs. Harriet Pollard, Mrs. Doris Cope, star points of the Grand Chapter.

Gettysburg League Has Silver Tea

Mrs. Chester Simonton, national president of the Gettysburg College Women's League, was here from Harrisburg, Pa., to attend the annual reception and silver tea given by the Washington chapter at the home of Mr. and Mrs. J. Gould Wickey, 7516 Sixteenth street. She was accompanied by Dr. Simonton and received with Mrs. Mickey and Mrs. Herbert A. Rinard, president of the Washington group.

Hostesses assisting Mrs. Wickey were Mrs. Carl A. Rasmussen, secretary of the League; Mrs. Amos Taylor, Mrs. Frank Gummel, Mrs. Rufus Weaver, Mrs. Albert D. Stangler and Mrs. Ella L. Engelhardt.

Those alternating at the tea table were Mrs. John Zimmerman, Mrs. Paul Dunbar, Mrs. William Krechling, Miss Barbara Wiegand, Mrs. Albert V. Wills and Mrs. Charles Butler, treasurer.

The affair was also in the nature of a farewell for Mrs. Rinard, who leaves, with Chaplain Rinard, U. S. A., February 1, for Randolph Field, Tex., where he is being transferred. Mrs. Herman Blau will serve as acting president, filling out her unexpired term.

Pen Women Receive at Studio

Mrs. Tomas Cajigas served as hostess for the annual New Year's tea of the District League of American Pen Women, given yesterday afternoon at the Grafton Hotel studio. She was assisted by Mrs. William Walter Smith and Mrs. Theodore Tiller. Receiving with the branch president, Mrs. James T. Watson, and the two vice presidents, Mrs. W. Harry King and Mrs. Lyle Campbell, were Mrs. Frederick W. Triepel, a founder of the league, and new members of the local branch.

Members brought their husbands and escorts and several hundred attended during the hours of the tea.

Central Union Mission Sponsors Open House

The annual open house at Central Union Mission also drew a large company of guests. Mrs. Jean Bennett, superintendent of the mission, headed the receiving line and also broadcasted from the chapel at 4 o'clock, assisted by a quartet from the mission glee club. The rooms were decorated with Christmas greens, holly, tinted in gold and silver and festoons of southern smilax.

In the receiving line with Mrs. Bennett were E. H. DeGroot, jr., president of the board of directors; L. E. Bruenlinger, of the board; the Rev. George M. Cummings, of the Ministerial Council; Mrs. W. H. Ramsey, president of the woman's guild; Mr. Ramsey, a member of the board; Col. and Mrs. W. O. Tufts, Mr. and Mrs. Austin M. Cooper, the Rev. Chesteen Smith, of the Ministerial Council.

Alternating at the tables in the dining room where coffee, lunch and ice cream were served, were Mrs. Wilbur Ackley, of Ocean City, N. J., mother of Mrs. Bennett, who is visiting her; Mrs. Thomas Manley, Miss Gertrude Barber, Mrs. John Findlay, Mrs. Marion D. Lord, Miss Isabel MacDonald, Mrs. J. C. Orebaugh. Others who assisted were chairmen of standing committees of the evening auxiliary of the woman's guild.

National President Honor Guest

Post Staff Photo

Mrs. Chester Simonton, of Harrisburg, Pa., national president of the Gettysburg College Woman's League (left), with Mrs. Herbert A. Rinard (center), president of the Washington chapter, and Mrs. J. Gould Wickey, who was hostess yesterday at the annual silver tea given by the Washington group at her home. Mrs. Rinard leaves February 1 for Randolph Field, Tex., where her husband, Chaplain Rinard, U. S. A., is being transferred for duty

Madame Chairman

By Suzanne

Well, with all three sets of twin holidays disposed of—Frankgiving and Thanksgiving, Sunday and Monday for both Christmas and New Year's—maybe we can settle down to normal routine until Lincoln's birthday, and February 29 (also thrown in for good measure). Personally, I'm not so much interested in an extra day for every month as in the double holiday plan. The idea should be encouraged and would make a fine "cause" for any woman's club which does not already have one to promote for 1940.

DOWN TO BUSINESS—Beginning the year in business-like fashion, the District Congress of Parents and Teachers will have an executive committee meeting today and its first board meeting of 1940 next Monday.

Announcement of the board session and other plans for the month is made by Mrs. C. D. Lowe, the president, in the January news-letter, which came to my desk yesterday. With customary diligence and efficiency, Mrs. Lowe, Mrs. Edward R. Seal, publicity director for the Congress, and Mrs. P. C. Eliet, spent all day Saturday at the headquarters office in the N. E. A. building, getting out the letter so the members would be sure to have it the first thing this morning.

When their work was finished and the envelopes were all addressed, they discovered that not a branch postoffice was open, so they carted the whole stack of them down to the main office to be mailed.

WATCHING OUT—One of the announcements in the News-Letter which is much more significant than appears, is that a suggestion has been made for the formation of a new committee, to be known as the "policy committee" whose duty would be to determine whether the D. C. Congress could accept propositions made to it by business firms and other organizations.

The need for such a committee indicates the extent to which commercial enterprises seek to make use of women's organizations. The head of every large and influential group such as the P.-T. A. or the Federation of Women's Clubs, is beseiged by all sorts of requests for indorsements of articles from books to baby food, with suggestions for making money by selling products, visiting business institutions at so much per head, and for getting programs free of charge by engaging speakers supplied by large firms to describe how their wares are manufactured.

The free-speaker plan has been one of the most successful on the list for those who have propaganda to disseminate, but it is being looked on with increasing suspicion by alert women's organizations. They are now inquiring with care as to the speakers offered to them for nothing and would rather round up a home-talent program—if they have no money to spend—than to allow their meetings to be used as channels for propaganda.

NEW STAR POINTS—Treaty Oak Chapter, Order of the Eastern Star, the youngest of those in the District, will have an Acorn meeting Friday night for the initiation of its new Star Points, and on Monday night a reception for new officers given by the new matron, Mrs. Ruth Perry, and the new patron, Maurice Williams.

Mrs. Viola Hodson, 3119 Connecticut avenue, will be hostess at the meeting Friday evening. New Star Points to be initiated are Mrs. Louise Burd, as Adah; Mrs. Ruth Woods, Ruth; Mrs. Maida Ware, Esther; Mrs. Marian Beedle, Martha, and Mrs. Catherine McNeil, Electa.

The reception Monday will be at the regular meeting place of the chapter, the Masonic Hall, 1210 Wisconsin avenue.

NEW CHAIRMAN—Miss Aileen Harris, 3107 Woodland drive, has been announced as the new national chairman of publicity for the Children of the American Revolution. Miss Harris is active in the Daughters of the American Revolution as well as the C. A. R. She was appointed by Mrs. John Morrison Kerr, national C. A. R. president.

INSTALL OFFICERS—Mrs. G. Walter Williams, of New Bedford, Mass., national president of the American Gold Star Mothers, will be here the end of this month for the annual conference on National Defense, and will install the 1940 officers of Grace Darling Seibold Chapter, headed by Mrs. William L. Meeks, who was re-elected.

The date of the installation and luncheon planned in honor of Mrs. Williams will be announced after she has worked out her schedule in connection with the defense meeting. The affair will be at the Raleigh Hotel.

Officers of the chapter, in addition to Mrs. Meeks, are Mrs. Frank B. Harvey, first vice president; Mrs. Kathryn E. Fagan, second vice president; Mrs. William J. Seelye, third vice president; Mrs. Rose Conway Stetson, recording secretary; Mrs. C. J. Searl, corresponding secretary; Mrs. Edna Boardman, treasurer; Mrs. Franklyn P. Nash, chaplain; Mrs. Howard W. Gordon, custodian of records; Mrs. Charlotte E. Davis, color bearer, and Mrs. Henry L. Hurley, Mrs. Margaret E. Loveless and Mrs. Bradley A. Snyder, committee women.

Starmont Aid to Meet

The monthly meeting of the Starmont Aid for Consumptives will be at the home of the president, Mrs. Andrew Stewart, 1442 Clifton street northwest, tomorrow morning at 10:30.

Brackenridge Club Will Meet Friday

The National M. Eleanor Brackenridge Club will meet at 8 p. m. Friday at the home of Mrs. William H. Sharkey, 19 Bryant street northwest. Miss Helen Hardesty and Mrs. Penn Howard will be cohostesses.

Entertainment will include selections by a women's trio and scotch songs in costume by Miss Helen McLesh. Year books will be distributed at the meeting to which members of the club will invite husbands or escorts.

Free Lance Writers to Meet

The Society of Free Lance Writers will meet at the Shoreham Hotel at 8 o'clock Thursday evening.

Women Voters Campaign for Trade Pacts

League to Carry On Reenactment Drive At Current Session

A campaign for re-enactment of the reciprocal trade agreements program will be carried on during the new session of Congress by the National League of Women Voters, it has been announced by Miss Marguerite Wells, the president. The league has also been preparing to exert its influence during the 1940 session on the extension and improvement of the civil service.

The league has drafted, and soon will issue, a flier titled "Keep the Trade Agreements Program" following three main lines of argument—that trade agreements are a factor in national prosperity; that trade agreements are a contribution to world peace; and that trade agreements constitute a scientific method of tariff-making, thus filling a long-felt need of this nation.

Leagues throughout the country will participate in calling attention to the arguments presented in this flier to voters everywhere, but particularly where the trade agreements have been subjects for attacks based on sectional interests.

"Traditionally Congress has passed tariffs by 'log-rolling,' which means that each Congressman, in order to get enough votes to protect his own local interest has voted to protect the local interests of other Congressmen," said Miss Wells. "Tariffs as a result have often been hodgepodge. Some special interests have obtained increased 'protection' to the detriment of other special interests.

"The reciprocal trade program is a scientific method of tariff-making. Under it, Congress defines the broad basis for our trade policy, and leaves to qualified experts the formulation of detailed provisions of trade agreements."

In line with its interest in extension and improvement of the civil service, the women voters will rally their forces behind the Ramspeck Bill, which would authorize the President to bring all exempt Federal positions into the classified service as rapidly as possible. This bill is now awaiting action by the House of Representatives, having been reported favorably from the House Committee on Civil Service.

Other legislation for which the league will push during the session includes increased appropriations for the Civil Service Commission and the Food and Drug Administration; and the Sumners bill for suffrage for the District of Columbia.

D. C. Auxiliary To Back Legion Law Program

Legislation Will Be Pushed in Session Opening Tomorrow

Full support of the American Legion Auxiliary will be given to the new five-point legislative program of the American Legion this year, according to Mrs. Helen McCabe, legislative chairman of the D. C. Department. Passage of legislation to carry out the program will be urged when Congress convenes tomorrow.

The five-points, adopted at the meeting of the Legion's national executive committee, are: Universal service, national defense, protection for widows and orphans of World War veterans, veterans' employment and preference in Government employment and tightening of immigration and deportation laws.

"Ever since the World War, the Legion and auxiliary have been asking for enactment of a law which would make special profits from war impossible and which would provide equal service for all in event of war," said Mrs. McCabe. "We are hoping that action will be taken on this proposal this year.

Wind Reveals Congressmen's Inner Secrets

Scatters Checks From House Restaurant and Some Inside Dope

By Scott Hart
Post Staff Writer

A capricious wind came up yesterday and blew the eating habits of the Nation's statesmen into public view. They like bean soup.

This matter, long the considerable secret of the House of Representatives Restaurant chef, was blown about on waiter checks which littered the classic expanses of the Capitol Plaza. Plainly, the Congressmen also like oyster stew.

Evidently, the checks had been chucked in a trash box somewhere, to be hauled off to the oblivion of the city's furnace.

The Congressmen average about 70 cents for a breakfast, but some get by on 35.

Some eat tremendously of mornings, after fashion of the Iowa postmasters who, in convention here last fall, polished off ham, eggs, sausage, wheatcakes and jam while drenching themselves with coffee and buttermilk. Plainly, other Congressmen had struggled with toast and figs.

All but one paid the cashier; there were no other notations to indicate the House was on the cuff.

Picking from the stack, the sample meals of the statesmen (glimpse at the fuel behind the world's greatest democracy's fatiguing debates) emerge like this:

"Bean soup and pie-a-la-mode and 1 forty-five, 70 cents; bean soup, buttermilk, cup of C, 35 cents; toast and figs, 40 cents; two ham and eggs, two milks, two toast and two coffees, $1.40; oyster stew, coffee and pie, 55 cents; four beers, 80 cents; bean soup, one-half dozen fried oysters, one club sandwich, two coffees, one slice of pie and a refill of coffee, $1.45."

Against the latter breakfast, a humdooler in any world capital, one solon, in faltering writing, scribbled "coffee." It was initialed, indicating the House was on the cuff or that any reaching in a pocket for the dime would have been at risk of pain.

America in flowering tradition, spoke in this scribble: "grapefruit, eggs, toast and coffee." Capitol Hill reporters, picking up the checks, observed that Nero dined on honey to fiddle's wail; that Henry the Eighth, in his brandy blush, had capon; that Richard Coeur de Lion had wild boar a la Crusade, while Gargantua ate like a hog.

The conclusion was that democracy wasn't nourishing itself on things historically insidious.

The New Year Is His 100th

Post Staff Photo

"UNCLE FRANK" WHITTED, born into Southern slavery in 1840, celebrated his 100th birthday anniversary here yesterday with a big cake that was topped by 100 candles. "Uncle Frank" seems more interested in the cutting than the counting

Firebug Blamed For Damage to Old Papal Palace

Rome, Jan. 1 (AP).—Vatican and Italian authorities today investigated the possibility of incendiarism in a fire which destroyed part of the Papal Palace of the Cancelleria, an architectural masterpiece of the Renaissance, and an adjacent church last night.

Investigators said the flames started in several places at once. Experts said priceless frescoes by Giorgio Vasari were ruined, but that the building could be restored.

Pope Pius was saddened by loss of the palace and heard a detailed report from the papal secretary of state, Luigi Cardinal Maglione, who inspected the ruins.

The Federal Diary

2 U. S. Agencies to Study Link Between Land, Tuberculosis

Silica Content of Soil Cited to Explain Difference in Amount of Lung Trouble Among Otherwise Similar Sections

By Alfred Friendly
Post Staff Writer

The Federal agencies are delving into a latter-day scientific Sherlock Holmes mystery. They are looking for a relationship between tuberculosis and the chemistry of land where its victims live.

That any such relationship could exist sounds farfetched on first hearing. But the National Institute of Health and the Interior Department's Geological Survey explain that the composition of the soil and rock in some areas may result in a large volume of silica dust in the atmosphere, and that this dust may have a pronounced effect on the lungs of those who breathe it.

Research physicians are careful to explain, however, that geology is only one factor of many being considered in a tuberculosis investigation that has been under way for three years in two Southern counties.

Background of Inquiry

This is the background of the inquiry:

The mortality rate from tuberculosis in one county in Tennessee has been 10 times as high as that in an Alabama county about 225 miles away. Similar differences exist in other areas, but for various reasons the Tennessee - Alabama locations were chosen for study.

National Institute of Health physicians, working with the Tennessee State Health Department, are trying to find out why there should be such great disparity between the two areas. On the surface, conditions in both spots seem reasonably similar. The population characteristics and background are about the same. Incomes and occupations are not startlingly divergent. Diets are similar. So is the climate.

Experimenters decided, therefore, to subject to scientific scrutiny all the factors that might conceivably, and even inconceivably, have a bearing on the incidence and effect of the disease.

Silica in Air Varies

To date they have found a few differences, but nothing startling. In the county with the higher death rate there appears to be somewhat less sunshine and somewhat less ultra-violet light radiation. Diets are somewhat divergent. There is somewhat more silica in the air of the Tennessee county.

Researchers admit that the study so far has not even pointed to a clue that might explain the difference. The problem is almost as far from solution as ever. Physicians say they may get the answer next week or in the next century. Right now they have not even so much as a good hunch.

Compilation and analysis of the data are still incomplete, however, and the National Institute is asking the Geological Survey for more soil analyses. These may provide the answer. Doctors say that stranger things than soils have proved open sesames in the history of medical research.

Parachute jumpers are being used to fight forest fires, the Forest Service announced yesterday.

Using the same technique as the highly publicized parachute raids of the Soviet Army, but for purposes of conservation rather than destruction, the "smoke jumpers" have been dropped from planes recently in the Chelan National Forest, Washington, to reach small fires in back country.

Special Parachutes

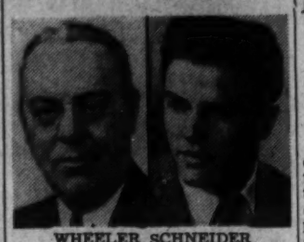
These small fires, the service explained, occurred in spots that could otherwise be reached only by an eight or ten-hour horseback trip or hike. In this time a fire could spread to many acres. Using planes and a parachute, however, only five or ten minutes is consumed to land a man and a box of tools.

A special type of chute is used, with a wide apron and two flaps to allow the jumper to guide his descent. Before he bails out, a dummy chute is dropped to show wind direction and velocity and guide the pilot and jumper to the correct position. After the firefighter has reached the ground, the pilot circles back and throws out a burlap chute bearing a box of tools and equipment.

The service reports that the jumpers found landings in thick stands of young trees 20 or 30 feet high, so easy, that they promptly called them "feather bed landings."

The only trouble with the procedure is that once he has extinguished the blaze, the firefighter usually has a long walk back to civilization, toting a box of tools and a heavy parachute.

Get 'New Roles' In Civic Theater



WHEELER SCHNEIDER

William W. Wheeler, assistant to the president of the Chesapeake & Potomac Telephone Co., has been named acting president of the Washington Civic Theater, while President Marvin Beers is away on a two-month field trip for the Interior Department, it was announced yesterday. Alan Schneider, son of Dr. Leo D. Schneider, of Glendale (Md.) Sanitarium, has been placed in charge of publicity, while Edgar C. Faris, jr., has been chosen acting treasurer

U. S. Workers Warned on Part in Politics

The right to express political opinions privately is retained by Federal employes, but civil service rules bar public expression, the Civil Service Commission reminded workers yesterday in its biennial warning against political activities in the service.

The rules apply to all employes in the executive branch of the Government. Practices prohibited include:

Serving on or for any political committee, party or similar organization; manifesting "offensive activity" at the polls, soliciting votes, assisting voters to mark ballots or helping to get out the voters on election or registration days.

Employes further are forbidden to serve as officers of political clubs or as members or officers of any committees of such clubs. They cannot address such organizations or serve in connection with preparations for a political meeting.

They may not distribute campaign literature or materials or act as recorders, checkers, watchers or challengers for any faction or party.

However, "the right to express political opinions is reversed to Federal employes. Those employes who are in the classified civil service are required by civil service rules to confine themselves to a private expression of opinion," it was stated.

Identical Bidding Reported In $87,326,426 U. S. Purchases

Study of Monopolistic Practices Affecting Tenth of Federal Supplies Made Public By Temporary National Economic Committee

The temporary national economic committee yesterday made public the summary of a report showing that identical bids and other monopolistic practices were present in proposals effecting $87,326,426 worth of supplies purchased by the service and civil branches of the Government in the 12-month period from December, 1937, to November, 1938.

The statement was contained in the summary of a part of a report to the committee by the procurement division group of the Treasury subcommittee on its study of purchasing activities of 45 Federal agencies.

"Identical bids were received on nearly one-fourth of the items on which bids were opened by the Federal Government in the 12-month period December, 1937, to November, 1938," the summary stated. "In dollar value, more than 10 per cent of Federal purchases made in this period were on items on which identical bids were received by the various Federal purchasing agencies."

Ten Per Cent of Total

Of the $860,044,970 expended under competitive bidding by Federal agencies, $87,326,426 was spent in cases where identical bids were received, and these figures did not include an expenditure of $53,356,755 for contract services such as electricity, telephone, gas, water, telegraph and drayage where rates are regulated by Federal, State or local legislation, the report continued.

Of the 331,851 bid openings in the year, 76,705, or 24.1 per cent, were in instances where identical bids were received.

The Procurement Division reported that under the classification of stone, clay and glass products, identical bids in the cement industry were most frequent, with 1,306 instances. In the iron and steel category, wire work led with 1,169 identical bids, while plumbing supplies in this category showed 1,014 identical bids.

Investigating Unit Proposed

The Procurement group asked the agencies for suggestions as to what could be done to stop the identical bidding, which all agencies agreed was harmful save in a few minor cases.

One Federal agency suggested the Government establish a central agency which would investigate all reports of collusion made to it by the Federal purchasing agencies.

"Cases of identical bids or any suspicions of collusion concerning Government contracts may be reported to a designated authority which will be empowered to exercise discretion as to the necessity for further investigation," the agency stated.

"The establishment of such an authority will encourage the reporting of suspicious circumstances and will permit the centralization of reports from diverse offices."

Junior Business Meetings Set

Junior Board of Commerce group meetings this week are:

Officers, 1 p. m., today, Burt's Tavern; aviation committee, 12:30 p. m., tomorrow, Harrington Hotel; committee on ladies' program at the June convention, 12:30 p. m., tomorrow, Madrillon Restaurant; bowling league, 8 p. m., Thursday, Chevy Chase Ice Palace.

Soviet Paper Berates Hoover on Finn Aid

Moscow, Dec. 31 (AP).—The newspaper Trud, organ of Soviet industry, vigorously attacked former President Herbert Hoover today for his Finnish relief work. It said he was aiding the "White Finnish government" and recounted in bitter terms the bonus march in 1932, when he was in the White House.

British Buddhist Asks to Advise U. S.

Shanghai, Monday, Jan. 1 (U.P.).—The Buddhist Abbot Chao-kung, formerly Ignatius Timothy Trebitsch Lincoln, one-time pastor, British legislator and international spy, today announced he was ready to proceed to Washington at once in answer to President Roosevelt's general invitation to religious leaders to discuss peace efforts.

The abbot, who emerged from his Buddhist retreat December 19 to warn belligerent governments that, if they did not resign so a peace conference could be held, the Tibetan Buddhist "supreme masters" would eliminate them from the scene of action, asked that President Roosevelt instruct the United States consul general here to grant him a visa so he could proceed to the United States.

E. W. Allen Dies; Official Of General Electric

Baltimore, Jan. 1 (AP).—E. W. Allen, vice president of the General Electric Corporation, died today at the Johns Hopkins Hospital, where he had been confined three months after a brain tumor operation.

City Council Plan for D. C. Developing

Kennedy May Offer Scheme, Is Report; Also Said to Favor Reform Referendum

A measure to permit election of a city council of five or seven members on the basis of proportional representation is being considered by Chairman Kennedy, of the House District Committee, for submission to Congress, it was learned last night.

Although the proposal still is developing, it was said Kennedy also favors submission of any scheme for reorganization of the District Government to a popular referendum.

Final draft for reorganization, on the basis of the Seal plan, will be considered today by the commissioners' "kitchen cabinet."

Corporation Counsel Elwood Seal completed his report on the reform project yesterday after laboring over the New Year holiday to finish his work.

Citizen Advisors Seen

The reorganization bill, it is believed, will contain provisions for a citizen's committee to act in an advisory capacity to the Commissioners.

Enabling legislation for the radical changes in District government proposed in the Kennedy plan would empower the President to appoint the first city council. The body then would be required to set up election machinery within a definite time, one or two years, for choice of a new council.

District reorganization either would be submitted for approval at the time of the election of city councilmen or in an earlier special referendum.

The plan is understood to have been worked out by Kennedy in conferences with Edwin O. Griffenhagen, who drew up an early scheme for revising the government of the National Capital.

Officials Non-Committal

Congressional and city officials concerned with the District Government generally were non-committal on the proposal.

Chairman King, of the Senate District Committee, declared he was "waiting to get the report of the commissioners on District reorganization."

Hearings by the commissioners, he pointed out, "fully revealed the opinions of the citizens both on suffrage and reorganization."

Maj. Daniel J. Donovan, District auditor, also refused to commit himself. He asserted the proposal was outside his field as the financial officer of the city.

Opposes Gasoline Tax Boost

A similar stand was taken by Harry N. Stull, president of the Federation of Citizens Associations, who said he was not fully informed on the various proposals for reorganization.

Stull pointed out, however, that his organization has "a lot of old stuff" on its calendar which is rapidly being cleared up.

The only proposal of importance, he continued, calls for a 1-cent increase in the gasoline tax to replace the recently enacted District income tax.

Stull said the gasoline tax increase "clearly would result in diversion of funds from expenditure for streets and highways," and added he expected his organization would take a negative stand on the proposal.

Stork and Young 1940 Tied at End of These Four Races

TEN SECONDS younger than 1940 is little Miss Opper (top), born to Mrs. Clarence Opper, of 2802 P street northeast, at Garfield Hospital. The new year beat the stork by 30 seconds at Providence Hospital when this six-pound three-ounce boy was delivered to Mrs. Daniel Longley, of 1604 C street northeast

Post Staff Photos

IN THE STORK'S FAVOR—A frequent visitor to Providence Hospital during the holiday season, the stork was the victor in two blessed events there. On New Year's eve she delivered an eight-pound girl to Mrs. Robert Lee Heffron (left). On Christmas Day, Elmira the Stork had arrived with an eight-pound eight-ounce girl for Mrs. Heffron's daughter, Mrs. Catherine Penn (right), 18, of 24 M street southeast. Now, Mrs. Heffron is a grandmother at the tender age of 40

Girls Wait in Car as Gunman Robs Gas Station of $30

Another Holdup Man Gets Punch; Victim Outruns Third

While two girls and a man waited in a car, a gunman walked into a gas station at 1701 Benning road northeast last night and forced the manager to hand over $30.

The manager, Fred Jordan, 419 K street northeast, told police the holdup man, not more than 24 years old, threatened him with a pistol.

A few minutes after the holdup was reported, police sent two scout cars to the scene with a full description of the bandit, but the car and the two young couples could not be found. Jordan said the car, a black sedan, carried New York plates but he was unable to see the tag numbers.

Melvin Steuer, 1414 Allison street northwest, saved money last night by running after a man prodded his ribs with a pistol in a holdup attempt on Barnum street near Sixteenth street northwest.

John Day, 2902 Vista street northeast, achieved the same result when a colored man attempted to rob him on Georgia avenue near Lamont street northwest, but his methods were different. The would-be robber leaped on Day's truck when he stopped for a light. He demanded money and struck Day on the cheek.

Day said the man fled when he struck back.

93,000 Return To Schools Here Today

Bunker Hill Students To Start Year In New Building

School bells will supplant "Jingle Bells" for approximately 93,000 students this morning as District public schools reopen after the holidays.

Children at Bunker Hill School will have cause for a continuing celebration, for they have a new building in which to start the new year. Although they occupied the first unit of their building just before Christmas, they will begin to settle down in it today. Their new building, which replaces an old two-room school, ultimately will have 16 classrooms, but the completed part consists of 5 classrooms plus offices.

At Smothers School, a new eight-room addition with a combination assembly hall and gymnasium will be occupied today for the first time, enabling all grades to have a regulation day instead of meeting in shifts.

Early in the new year additional space at Crosby Noyes School will be occupied. The first floor has been used for some years, and now the upper floor will be made ready for use, probably by February 1.

Dr. Frank W. Ballou, superintendent of schools, last night foresaw no likelihood that the opening hour would be delayed due to the cold weather and the time required for warming up buildings after the holiday disuse. Throughout the system, schools are due to open at 9 a. m., except for vocational schools at 8:30.

Ticket Travels Without Girl, And That's News at Station

Travelers Aid Gets Them Together in Holiday Congestion; Policeman Thinks People Improved; Redcap 13 Unsuperstitious

A girl's ticket traveled on a train ahead of her . . . a policeman, detailed to see people at their worst, wondered if they aren't getting a little better, this New Year . . . a redcap started his eighteenth unsuperstitious year as No. 13 at Union Station.

Out of the hubbub of the heaviest holiday travel here in years, these assorted angles came to light yesterday at the station.

The worker at the Travelers Aid booth told about the ticket which got one jump ahead of the passenger—just an example of the complications which this booth must untangle in the holiday congestion.

A 10-year-old girl was returning to her mother in New York after a holiday visit to her aunt here. The Travelers Aid got the girl and the ticket together again by wiring Baltimore. The ticket was detained there until the girl, on the next train, could catch up with it.

William A. Palmer, captain of police for the Washington Terminal, remarked yesterday: "It's been one of the heaviest crowds in years but crime has been less. We haven't been bothered to any extent by pickpockets. Only three or four persons have been picked up for drunkenness in the 10-day period."

Brumsic Brandon, who is starting his eighteenth year as No. 13 redcap, grinned and stated that he has disproved any jinx in that number.

"Course, the No. 13 before me died, and I took his number. But I didn't figure the number had anything to do with it. His time had just come," Brandon said. Although the number hasn't brought him any bad luck, he said it couldn't be counted on to bring any extra-size tips either.

Rites for 3 Car Victims Tomorrow

Scores to Attend Mass Services; Boswell to Lie In Arlington

Last rites will be held tomorrow for three Washingtonians who died in automobile accidents on the final day of 1939.

BOSWELL

Fellow Boy Scout cubs and Sunday School classmates will serve as pallbearers for 12-year-old John Moss, jr., of 1300 Jonquil street northwest, who, with his mother, Mrs. Orpha Moss, was burned to death when their auto burst into flames after crashing off the road near Petersburg, Va.

Services for the mother and boy tentatively have been arranged for 2 p. m. tomorrow at Hines funeral home, 2901 Fourteenth street northwest. Burial will be in Fort Lincoln Cemetery.

World War Veteran

The third year-end traffic victim, Clark M. Boswell, 51, killed when his auto struck a culvert near Waldorf, Md., will be buried in Arlington Cemetery following services at 10 a. m. tomorrow at his residence, 3318 South Dakota avenue northeast.

A member of the American Legion, Boswell spent two years with the Twenty-ninth Infantry overseas in the World War. He leaves his wife, Mrs. Ruby Boswell, and a 9-year-old son, Joseph.

Scores to Attend Rites

Scores of friends are expected to attend the funerals for Mrs. Moss, who was active in church and parent-teachers circles, and Johnnie, outstanding pupil at Paul Junior High School. The husband and father, John T. Moss, who was driving the auto on a return trip from a Florida vacation and was rescued from the flames by a passerby, yesterday was in serious condition at Petersburg Hospital.

A native of Grove, W. Va., Mrs. Moss was a member of Calvary Baptist Church, a member of the Parent-Teachers Association and chairman of grade mothers at Paul Junior School and den mother for the Scout Cubs. She leaves, besides her husband, a sister, Mrs. J. Homer Bell, Salem, W. Va.

With a brother, Roderick, Moss operated a hardware store at 455 K street northwest.

Sabotage Jury to Be Asked Today

D. C. Court to Hear Request; Testimony Expected to Start Within a Week

District Court today will become a field headquarters for the Justice Department's campaign against foreign spies, saboteurs and propagandists operating in this country.

A special Grand Jury will study evidence of industrial sabotage, in airplane, automobile, and munitions plants, and other subversive activities under investigation by Government agents for the last six months.

Attorney General Murphy announced last week that the special grand jury would be called today. First move, it was understood, will be to seek the special court order required for impaneling and extraordinary grand jury, and the jury is expected to be in session within a week.

"Ism" Groups Included

To this grand jury, the Attorney General revealed, will go evidence gathered in all parts of the country. Some cases, after presentation here, will be parceled out to other districts for prosecution.

Included in the investigation are organizations fostering anti-Semitism and other "isms" identified with the totalitarian powers Murphy said. He described their activities as a "bonfire" for this country. Besides espionage and sabotage, the grand jury also will receive evidence in antitrust activities connected with the building trades, he said.

Many Indictments Expected

Numerous indictments are expected before the jury ends its work.

The F. B. I. was understood to have gathered ace investigators here to testify.

These will be the first actual prosecutions against espionage and sabotage since the current investigation was launched. Murphy will direct the jury inquiry through John O. Rogge, his criminal division assistant.

Social Workers See Gains Offset By Restrictions

Last year's gains in social legislation and policy were offset by "a series of restrictive measures threatening to people in need," the American Association of Social Workers said last night.

The association listed as gains in 1939 the extension of social security protection for the aged and for dependent children, "steps toward the protection of beneficiaries from publication of their names, and the development of compulsory merit systems covering personnel in these important public services."

Walter West, executive secretary of the association, said, however, there were "indications that certain States and localities are following the lead of the Federal Government in refusing to take responsibility for direct relief."

Civil Aviation Safest in History, Air Board Reports

American civil aviation was four times safer last year than in any previous year since the inauguration of commercial flying, the Civil Aeronautics Authority announced yesterday.

Approximately 5,000,000 passengers were carried on scheduled and nonscheduled flights in 1939 and more than 6,000 private pilots were licensed during the year, officials said.

A 55 per cent increase in passenger patronage last year, CAA economists said, made 1939 the first year the industry as a whole has shown a profit.

Circuit Court Reopens Today in Montgomery

The Circuit Court for Montgomery County will resume activities this morning with a number of civil and criminal cases yet to be tried.

The Orphans Court, which did not meet last week because of the holidays, will be in session today, tomorrow and Thursday.

Richmond's First 1940 Baby Born Amid Din

Richmond, Va., Jan. 1 (AP).—Richmond's first 1940 baby, George Edward Hawley, arrived just 45 seconds after midnight, at the height of the din of the New Year's celebration.

He outdistanced his nearest competitor by 4 hours and 56 seconds.

Frobinson to Take Oath

Richmond, Va., Jan. 1 (AP).—W. Frobinson, Richmond labor leader, will take the oath to membership on the State industrial commission tomorrow. His appointment succeeding Charles G. Kiser, Richmond, was effective today but, owing to the holiday, his duties do not begin until Tuesday.

Norfolk Bridge To Reopen Feb. 1

Norfolk, Va., Jan. 1 (AP).—The Norfolk-Portsmouth toll bridge across the Southern Branch of the Elizabeth River, which was wrecked June 2 when struck by a tanker, will be reopened February 1.

Paving the floor is the principal remaining work to be done on the 570-foot section that was wrecked. Three steel sections were hurled into the river when the Texas Co. tanker Rhode Island struck the stationary span east of the vertical lift draw.

The repair work is costing about $240,000.

Senator Harry Flood Byrd, who presided at the opening of the bridge August 24, 1928, while Governor of Virginia, wil officiate at the reopening of the $1,000,000 structure at 3:30 p. m., February 1. John Lyle Harrington, of Kansas City, one of the original designers, also will attend.

Turf to be Subject At Botanical Meeting

Experiments with turf grass will be subject of a lecture by John Monteith, jr., of the Agriculture Department, at a meeting of the Botanical Club of Washington at 8 p. m. today at the Cosmos Club.

Other speakers will be L. E. Yocum, J. A. Stevenson, N. A. Smith, M. T. Jenkins, I. T. Haig, F. P. Cullinan, G. W. Darrow and E. E. Clayton.

Ninth District G. O. P. To Meet at Bristol

Bristol, Va., Jan. 1 (AP).—Chairman R. H. Woods, of Pearisburg, has called a meeting of the Ninth District Republican executive committee for Saturday afternoon at Hotel Bristol, to review party affairs and possibly fix the time for a convention to nominate a candidate for Congress.

Past Masters Elect Officers in Kensington

The Montgomery County Past Masters Association, at its annual meeting at Kensington, Md., elected these officers for 1940: John J. Price, Kensington, president, and Rowan F. Erb, Rockville, secretary-treasurer, both to succeed themselves, and Philip W. Gates, Rockville, vice president, in place of Fred B. Kitterman, Kensington.

The membership of the association comprises the past and present worshipful masters of the Masonic lodges at Rockville, Kensington, Bethesda, Gaithersburg and Silver Spring.

Patrolman Killed in Crash As He Pursues Motorist

Policeman Is Year's First Traffic Victim; Three Men Held

DAVIS, from Page 1.

near Twenty-fifth street southeast and sped up hill. The motorcycle policeman immediately sped after the coupe and cut sharply to the left to pass the intervening automobile. In making the sharp cut, the sidecar wheels of the motorcycle lifted from the ground, and the cycle crashed into a car driven by William F. Miller, 19, of Silver Hill, Md.

Auto Was at Standstill

Police said Miller was driving downhill and on seeing the motorcycle approach had come to a dead halt, so that his auto was stationary when the collision occurred. Miller was also ordered to appear at the inquest.

An eight-year member of the force, Davis had a forboding of sudden death, a member of the family revealed last night. About two years ago, while attached to the Traffic Division, Davis was severely injured when his cycle was struck by a truck. Since that incident, he expressed fears that another such accident might prove fatal.

Only last November Davis, his wife, Alice, and their three children, Robert, 12; Donald, 7, and Samuel, 2, had moved into their own home at 334 Thirty-fourth place northeast. The purchase was motivated, a relative said, by Davis' desire to make sure his family was provided for in case of his death. At police headquarters it was pointed out that widows of police receive $60 monthly and $10 for each child under 16.

Native of Virginia

A native of Staunton, Va., Davis entered the Army for a short term, married Alice Tyler at Newport News and came to Washington in 1931 to join the metropolitan force. A brother-in-law, S. S. Biddle, is attached to the Third Precinct station.

Popular with his fellow patrolmen and superiors, Davis several years ago captured a suspect wanted in another State. Maj. Ernest Brown, superintendent of police, expressed sympathy to Mrs. Davis at the hospital yesterday afternoon.

Mrs. Davis Stricken

The fatal accident occurred less than two hours before Davis was to have gone off duty for the day. Mrs. Davis, recovering from pneumonia, was in a state of collapse.

Mrs. Ruth Tabb, Davis' sister-in-law, en route to her home in Rocky Mount, N. C., after visiting the Davises, rushed back to Washington when a motorist at Petersburg, Va., recognized her auto and informed her of a radio broadcast telling of the mishap and requesting her to return to the city.

ROBERT W. DAVIS

3 Hurt in Traffic

A man was critically injured and two other persons were injured yesterday in other District traffic accidents.

Hezekiah McCauley, 64, of 1419 Clifton street northwest, was struck by an automobile while crossing Thirteenth street near Clifton street northwest. He was admitted to Garfield Hospital with a fractured skull, compound fracture of the leg, and possible internal injuries. His condition was critical. McCauley is a plate printer at the Bureau of Engraving and Printing.

Nine-year-old Patricia Tipett, of 627 Franklin street northeast, was treated at Sibley Hospital for possible concussion of the brain after she ran in front of an auto near her home. According to police, the auto was operated by Charles A. Mackie, 24, of 5306 Kansas avenue northwest, who took the child to Sibley.

Woman Injured

Mrs. Christine Rowe, 39, of 5301 New Hampshire avenue northwest, received possible back and internal injuries when the taxi in which she was riding collided with a truck at New Hampshire and Concord avenues northwest.

The driver of the taxi, John F. Rohlin, 19, of 19 Olive street, Hyattsville, Md., and the truck driver, Oakley B. Phipps, 37, of Berwyn, Md., were charged with colliding and released on collateral of $25 each for appearance in Traffic Court January 9.

100 Revelers Do Penance For Imbibing

Grinning sheepishly as they paraded before Police Judge Edward Curran, 100 holiday revelers yesterday did penance for capers they cut under the influence of New Year's Eve spirits.

Several were nattily dressed but with clothes soiled and creased as result of a night behind the bars. Others were oldtimers, whose faces said, "Here I am again judge." For them the New Year merely was one of a long line of excuses for imbibing.

The men were in need of shaves and the women looked as though they would have been grateful for mirrors and compacts.

All exuded the ready virtue of a New Year's resolution as they pleaded that the season justified the crime.

Eighty-seven were charged with being drunk. Thirteen were charged with being both drunk and disorderly.

Although police said this New Year's Eve was "a bit quieter" than last, Judge Curran said the number of penitents before him was "slightly larger" than the number last year.

A 45-year-old colored man was fined $10 for "bellowing like a bull" and butting an investigating policeman with his head. The man, William Page, of Alexandria, had rented a room in the 1500 block of Columbia street northwest for the night's celebration.

Judge Curran freed an offender who said he had not realized he was getting drunk on New Year's Eve.

"I wasn't celebrating," he said. "I was just trying to forget my troubles."

He told the court he had lost his wife and was at his wits' end worrying about his five motherless children. He promised to "go on the wagon and look for a job."

One woman, an habitual offender, promised she wouldn't "touch a drop" for 90 days. Judge Curran assured he she wouldn't for one-third of that time anyway. She received 30 days.

A middle-aged woman, who claimed that she had been staggering because of a loose heel, received 15 days. A young cab driver claimed he was just leaning against a wall because he was tired, and hotly denied a policeman's charge that he was "out on his feet." He received a suspended sentence because he had no record.

Dr. Luckett Rites Tomorrow

Masonic services will be held at the Hysong funeral parlor, 1300 N street northwest, at 9:30 a. m. tomorrow for Dr. Llewelyn Fleet Luckett, physician, who died Sunday night at his home, 1419 Rhode Island avenue northwest.

Honorary pallbearers will be Vincent L. Toomey, Paul Puhl, Charles Wallingsford, Harry Freeman Clark, Charles Schneider, Sidney F. Taliaferro and Drs. Frank Tipton, C. N. Chipman, Lewis Taylor, S. Harry Green, Oden Sudler and Huron R. Lawson.

Mrs. Hazel Seitz, Of Silver Spring, Is Dead at 51

Mrs. Hazel Eugenia Seitz, 51, wife of Lawrence Milton Seitz, of 1310 Grace Church road, Silver Spring, Md., died yesterday in Washington Grove, Md., at the home of a lifelong friend, Mrs. Frank Wightman.

Mrs. Seitz had been employed in the cosmetics department of Woodward & Lothrop for 20 years when she was taken ill five months ago. Since that time Mrs. Wightman had been caring for her.

Mrs. Seitz was born in Brooklyn, N. Y. She was a member of St. Michael's Catholic Church, and had lived in Silver Spring for 14 years.

Besides her husband, she leaves a brother, Edwin C. Sloat, of Brooklyn.

Spilled Grease Leads To Restaurant Fire

Patrons of Arbaugh's Restaurant, 2606 Connecticut avenue northwest, had a brief fright last night when spilled grease in the kitchen started a fire. The blaze was subdued with slight damage and no injuries.

Fire Record

Fire alarms sounded yesterday and last night included the following:

12:22 a. m.—1021 Monroe street northwest, chimney.
12:31 a. m.—1378 Sheridan street northwest, needless.
12:34 a. m.—1454 Rhode Island avenue northwest, auto.
3:12 a. m.—930 Emerson street northwest, motor.
6:09 a. m.—Forty-fourth and Albemarle streets northwest, auto.
8:44 a. m.—725 New Jersey avenue northwest, room.
9 a. m.—2553 Nichols avenue southeast, burst water heater.
9:11 a. m.—737 Third street southwest, oil stove.
10:21 a. m.—609 Pennsylvania avenue northwest, defective furnace.
11:41 a. m.—1349 E street northwest, grease afire.
12 p. m.—1657 Park road northwest, roof.
12:25 p. m.—3924 Fourteenth street northwest, chimney.
12:41 p. m.—Rear 420 R street northeast, auto.
12:54 p. m.—Rear 122 Third street northeast, garage.
1:01 p. m.—1023 Hamlin street northeast, curtains.
3:22 p. m.—Eighth between D and E streets southeast, auto.
7:06 p. m.—2606 Connecticut avenue, restaurant kitchen.
8:05 p. m.—1722 H street northwest, needless.
9:08 p. m.—Twelfth and Varnum streets northeast, needless.
9:56 p. m.—1327 Tenth street northwest, needless.
10:13 p. m.—747 L street northeast, burst water pipe.

Skating the Model Way at Model Greenbelt

Post Staff Photo

Greenbelt, the Government's model village, romped yesterday on a model skating rink. About 100 skaters had a quarter-mile square surface all to themselves. The wintry weather covered Greenbelt Lake with a 3-inch coat of ice. Ice was chopped out in a small segment to allow a refuge for wild ducks. Policeman George Pannagoulis (above) good-naturedly chides 3-year-old Mary Jones, of Greenbelt, for some minor infraction of the rules. Torches lit up the filled-in quarry-lake for skaters last night

WASHINGTON played on the first day of 1940 as though it had never tasted winter or the clean north wind before.

Bursting with holiday spirits, the city went outdoors to find what the new year had brought.

It was a day of brittle sunshine, with a top temperature of 24 degrees.

A stinging wind had sent the mercury down to 17 at 7 a. m. It was the coldest of the season.

For thousands it became the first day of winter when the Park Police gave the "all clear" signal for skating on the Reflecting Pool.

The pool reflected nothing but energy and joyousness and color. Over the rhythmic sound of steel against ice rang the shouts of skaters and bright costumes flashed.

Graceful veterans glided deftly, hands behind their backs, past trembling novices who traveled in pairs for stability, or perhaps warmth. There were figure skaters and youngsters practicing with hockey sticks.

Spills were frequent. Long before the first skater appeared, park police tested the ice and found it 3 inches thick over most of the pool. A few soft spots near the edges were marked with red flags.

Three youngsters ignored the mass move to the Reflecting Pool and chose a frozen pond on Rock Creek near Pierce Mill. Out on the Rock Creek Golf Course expert skiiers and children with sleds competed for the downhill runs.

Besides its winter sports the city's day outdoors had madder and more sober touches. Two red-cheeked men, bundled in sweaters, were playing tennis on the Sixteenth street courts. "It's fine weather for tennis," they said.

Five homeless men found the warmest spot in all outdoor Washington, an open grating over the Courthouse steampipes at Sixth and E streets northwest, and huddled there, waiting for the mission meal they would get at 3 p. m.

"They let us stay here when the weather's cold," said the one who had no overcoat.

New Prize Is Hung Up For Aspiring Dramatists

Playwrights' Company Offers Annual Award; Famous Stars Flitting Through Washington; News Notes and Gossip of the Theater

MAXWELL ANDERSON, S. N. Behrman, Elmer Rice and Robert E. Sherwood, comprising The Playwrights' Co., have announced details of the Sidney Howard Memorial Award, a $1,500 prize to be given annually by their producing organization to the new American playwright whose work during the season has shown the greatest merit.

Mr. Howard, fifth member of the original Playwrights, died during the past summer as the result of a tragically ironic tractor accident on his farm. The award was established by his colleagues as a tribute to his memory.

BELL

This prize award, to be made on or about April 1 of each year, is designed to encourage the development of new playwriting talent. Eligible authors will be those who, without previous substantial success as playwrights, have one or more plays produced in New York during the current season. Authors of plays produced after March 16 will be eligible for the following season's award.

Directors of the Playwrights' Co. will compose the award committee. They reserve the right, however, to consult other qualified judges, or—under unusual circumstances—to appoint a committee to select the author whose work is deemed most meritorious.

The prize money will be contributed to the Author's League Fund in any season in which no new talent seems to justify the bestowal of the award.

There seems to be here the genesis of another competitive test of merit comparable to the Pulitzer Prize awards, the New York Drama Critics Circle awards and the small number of others that serve so valuably as an impetus to new achievement in the theater.

We still contend that Martha Raye, headlining this week's stage bill at the Earle, is the present-day counterpart of the Eva Tanguay of decades ago—and for definite reasons. Miss Tanguay's songs, in their day, were as tawdry as Miss Raye's jitterbug numbers of the current rug-cutting era. In both instances their overwhelming success simmers down to a sheer matter of dynamics. It is what Noel Coward calls "star quality"—that elusive endowment that enables a performer to blast over mediocre material with an explosiveness that makes it seem far better than it is. Al Jolson and Eddie Cantor have it. So have Georgie Jessel, Fannie Brice and Olsen and Johnson—just as in the old days of the original "coon shouters," Clarice Vance, Emma Carus, Nora Bayes and, in modified degree, Louise Dresser had it. Miss Raye relies on the microphone to multiply her voltage. Miss Tanguay relied on incessant movement and a ne plus ultra figure to achieve the same ends—beginning in a full-skirted gown, she gradually diminished her apparel to close, finally, in tights. Both devices serve to "blow up" comparatively meager talents into what the public conceives to be "smash hits." That, after all, is more or less the essence of "show business."

The value to the community of the Washington Variety Club's establishment of a premature ward in Sibley Memorial Hospital is made clear in a report made public by Jacob Kotz, M.D., F. A. C. S., clinical professor of obstetrics and gynecology, George Washington University School of Medicine; Morton S. Kauffman, M.D., and Milton M. Greenberg, M.D., covering the period from January 1 to July 1, 1939.

In their summary, these eminent physicians reveal that 37 premature babies were admitted to the Sibley premature ward in the first six months of its operation; that the mortality among premature babies born at Sibley Hospital in that time dropped from 35 per cent to 14.8 per cent; that the mortality among the 10 babies treated from outside the hospital was 60 per cent. They urge immediate transportation of all prematures to the ward.

This is a record that makes clear why this particular humanitarian enterprise of the local Variety Club has been made the model for all of the Variety Tents in the country to follow under mandate of the national president and board of directors.

It will not be surprising if a few long-time attendance records go to smash in the Washington theaters this week. Since the opening of the new hills in the downtown area last Friday business has been terrific. The New Year's Eve extra midnight shows were uniformly jam-packed to over-capacity, with box office lines running from Loew's Capitol around the corner into Fourteenth street and down the block almost to Pennsylvania avenue, and the Earle's in the opposite direction up Thirteenth street to F and around the corner toward Twelfth. These are only two examples of the condition that existed all over the midcity precincts. Stacked up in one pile, that's a lotta dough.

In addition to those appearing on local rostrums this week and those coming to the National in "Three After Three" next week, a few of the other top-flighters of the cinema have been, are or will be filtering through the Union Station on their way South. Al Jolson and his small son are Orange Blossom Specialing to Florida, with a Washington stop-off of minutes, and late this afternoon Charles Laughton, the Quasimodo of "The Hunchback of Notre Dame" now on the screen at RKO-Keith's, is passing through on his way to a brief personal appearance tour below the Mason-Dixon Line. The local drama desks are importuned to board Mr. Laughton's train in Baltimore, along about 5-something, and ride in with him. More of this later—unless something goes "boom" with present plans.

On January 11, Cornelia Otis Skinner will present one of her full-length una-dramas at Trinity College in this city, under the sponsorship of the Trinity College Auxiliary Board, for the benefit of its scholarship fund. Following her single performance Miss Skinner will be honor guest at a reception tendered her and other distinguished attendants by the board.

Cold-Gray-Dawn Note

Well, how do you feel by now?

A Master Melodist Is Picturized

The New Yorker

By Leonard Lyons

A Broadway Nocturne

". . . AND FOR the New Year I think you should look at our Family Budget . . . Well, look at it—it doesn't balance. Maybe I should divorce you and marry a Republican . . . What, dear? . . . Well, because Tom Dewey says that only a Republican knows how to balance a budget."

12 P. M.: "LaGuardia never intended to talk about bringing the movies here for his Film Critics Circle broadcast," a radio official reveals at the Cotton Club. "But this was the seventh time this year that radio chains have refused to carry his speeches. This is no reflection on the mayor. It's just that during the World's Fair he made 32 successive broadcasts for N. B. C. at the openings of the various foreign pavilions" . . . "Senator McNary, the minority leader, told two Republican Presidential hopefuls that they can't win by attacking the New Deal 100 per cent," a politician reports at Moore's, "and that they first must make friends with labor" . . . "James J. Morrison, who is opposing Long for the governorship of Louisiana, and David P. Siegal will prosecute a $9,000,000 antitrust suit against chain stores," a legalite informs at the Tavern. "The plaintiffs are the Louisiana Farmer Prot. Union."

1. A. M.: "What would Stalin say about this chorus number?" George Jessel asks John Gunther at the Midnight Frolics. "Stalin," Gunther assures him, "would say 'We never had a ballet like this in Russia.'" "How would he know?" Jessel returns. "When Russia had ballets like that Joe was in Siberia" . . . Outside the Swing Club, Bert Wheeler meets Billy Conn wearing dark glasses. "That means you've either a black eye or you've gone Hollywood," Wheeler tells the fighter, who just returned from Hollywood. "For your sake, I hope it's only a black eye."

2 A. M.: "I won $110 from you at the prize fights," Paul Stewart reminds Goodman Ace at Sardi's . . . "Okay," Ace acknowledges, fumbling in his pockets. "Got a fountain pen?" . . . "Yes," Stewart replies and gives him a fountain pen . . . "Now," Ace tells him, "that makes $110 and a fountain pen I owe you" . . . "The Dorothy Thompson-Fritz Kortner play was finished last night," an agent states at the Versailles. "It will be produced in the spring. And a new playwrighting team has just been formed—Charles Martin and Mrs. George S. Kaufman" . . . "Joe Brill, assistant to the Attorney General on wages and hours and antitrust prosecution, will resign next week," a ringsider reports at La Martinique. "He's going into private practice."

3 A. M.: "I'm going back to Hollywood in time for the rainy season there." Sir Cedric Hardwicke confides at the Rainbow Room. "I shall love the rain there. Hollywood otherwise is too perfect. Rain in Hollywood to me is like a pimple on the face of a star" . . . "Of course, I look well," Al Jolson beams at the Beachcomber Bar. "I thrive on bad news" . . . "I lunched at the Russian Inn in Philadelphia," Willie Howard relates at the Havana-Madrid, "and asked the manager whether there were Russians and Finns in the room. He said: 'Waddya want for $1.25—a war?'" . . . Harry Hershfield, seeing his nephew, Jules Alberti, conduct the band at the Show Bar, is offered a drink by the management. "I gave up drinking years ago," Hershfield declares. "And while I'm at it—I gave up buying, too."

4 A. M.: "Prince Dinsha of India gave the Duc de Verdura a $30,000 check as a jewelry order," a jeweler reports at Fefe's Monte Carlo. "He told the duc that when all the money was used up and the jewels delivered he'd give him another check" . . . "I just left Marie Wilson," a producer informs at Ruby Foo's. "She said that her drama career started at Sing Sing, when she appeared there this summer, and will wind up in Atlanta next month" . . . "Eddie Dowling, who produced Paul Vincent Carroll's first two plays," an actor states at La Conga, "has bought Carroll's new play" . . . "The Southern Tenant Farmer Union expects thousands of evictions of sharecroppers on January 10," a Washington official declares at El Morocco. "The FSA is working out a five-point plan to absorb them."

5 A. M.: Don Ameche sits at Lindy's and listens to his colleagues tell of the many practical jokes which have been played upon them in Hollywood. "I confess," he reveals, "I did them" . . . "Lew Brown is stepping out of his night-club venture," a publicist informs at Longchamps. "It will operate without him" . . . "Jimmy Walker, who talked to La Guardia about movie production in New York, is practical about it," a municipal aide states at Reuben's. "He doesn't think the entire film industry should move here—but only a percentage commensurate with the percentage of the nation's movie exhibitors here" . . . "I saw Mrs. Roosevelt send a wire in Seattle," a musician relates. "She wrote her message on the blank—and then, automatically, started to count the words—to bring them down to ten."

6 A. M.: "And don't worry because George can't add 8 and 8 yet . . . You don't expect him to grow up to be an Einstein, do you? . . . What, dear? . . . You'd like an Einstein? . . . Well, who understands Einstein? . . . He's the most misunderstood man in the world . . ."

In Hollywood

With Hedda Hopper

Hollywood, Jan. 1.

With "Invisible Stripes" Director Lloyd Bacon has set a new record. Without leaving his home lot, Warners, he's done more than 60 pictures in 14 years. Son of Frank Bacon of "Lightnin'" fame, and he has never become typed. Directors, as well as actors, find themselves in this or that category all too easily. Bacon's done comedies, musicals, dramas and historical pictures.

HOPPER

And looking back, he selected some highlights from the stories he's done. List looked so good, I thought I'd pass it on. He rates Al Jolson in "The Singing Fool" first, especially the scene where Jolson sings Sonny Boy to Davey Lee. (By the way, where is Davey Lee these days?) From "The Sea Beast" the scene where sailor John Barrymore has his leg seared. Final scene in "42d Street" with the audience pouring out of the theater, praising everyone in the show but the man, Warner Baxter, who made it. The Waterfalls number from "Footlight Parade."

From "Wonderbar" the scene in which Delores Del Rio is whipped and then stabs the man who lashed her. "Picture Snatcher," the bit of the photographer sneaking a shot of a woman being executed. "Frisco Kid," the scene in which Irish Cagney teaches Yiddish to George Stone, who's Jewish. From "The Irish in Us," where Cagney won't tell his mother he's leaving because of a quarrel with his brother, who's his mother's favorite. Bette Davis' fight with her sister in "Marked Women." (We've seen so many fights lately we've almost forgotten this one—it was a honey.) "Wings of the Navy" when Olivia de Havilland tells George Brent she's in love with his younger brother.

That's his list of favorite scenes, by the man who made 'em. Wonder if you'll agree with him?

Our people won't forget the all Sibelius concert at the Philharmonic the other night, directed by Werner Janssen. We've eulogized so many foreign musicians, but haven't said much about our own Mr. Janssen, who's one of the greatest musicians this country ever produced. And did more than any single person to introduce Sibelius to this country. Of course, it's for the benefit of Finland.

But while I'm thinking about music, I might just as well get this off my chest. Hollywood talks big about symphony orchestras, Toscanini, Stokowski, Stravinski, the greatest in their field, but we've had an orchestra in Los Angeles for many years—and good, too, with Klemperer at the head. And year after year, the city has struggled for this bit of entertainment and culture. I did a little snooping to find out just what the motion picture industry has done to contribute to its support. And was so shocked, I'm going to tell about it. Because this orchestra furnishes the studios with some of its best musicians. It's kept the Hollywood Bowl an institution for many years and yet this year only eighteen season tickets were bought by Hollywood celebrities. And if this doesn't make them come through, so that they hang on from the rafters when the orchestra plays at the Pantages Theater on Hollywood Boulevard for its next concerts, then nothing can be done about it.

Dick Powell, back from that P. A. tour, say, he'll never again sing in a picture without a good reason. If he sticks to it, others will follow. His wife, Joan Blondell, is looking for serious parts, too.

Something to think about: In a letter from Germany a few days ago, a friend tells me that Hitler has made every effort to obliterate Christian observances. Yes, they can have a tree if they wish; but children know nothing of Christmas as we know it, because it's shorn of all its Christian connotation. And the lovely old songs like "Stille Nacht" and others must not be sung any more. In their place, new marching songs and old pagan festivals take the place of what was once part of Germany's ineffable charm. . . .

Film Table

Loew's Capitol—"The Secret of Dr. Kildare," at 11 a. m., 1:45, 4:30, 7:15 and 10:35 p. m. Louella Parsons and her "Hollywood Stars of 1940" at 12:45, 3:30, 6:15 and 9 p. m.

Earle—"Four Wives," at 10:45 a. m., 1:30, 4:20, 7:10 and 10 p. m. Martha Raye, in person, at 12:30, 3:25, 6:10 and 9 p. m.

Palace—"Gulliver's Travels," at 11:20 a. m., 1:25, 3:30, 5:35, 7:40 and 9:45 p. m.

Metropolitan—"Invisible Stripes," at 11:25 a. m., 1:25, 3:30, 5:30, 7:35 and 9:40 p. m.

R. K. O.-Keith's—"Hunchback of Notre Dame," at 10:45 a. m., 12:50, 3, 5:10, 7:25 and 9:35 p. m.

Columbia—"The Housekeeper's Daughter," at 11:15 a. m., 1:20, 3:25, 5:30, 7:35 and 9:45 p. m.

Little—"Moonlight Sonata," at 11 a. m., 2:05, 5:25, and 8:35 p. m. "Magnificent Obsession," at 12:15, 3:35, 6:45 and 9:55 p. m.

Trans-Lux—Newsreel and shorts, at 10 and 11:45 a. m., 12:30, 1:45, 3, 4:15, 5:30, 6:45, 8, 9:15 and 10:45 p. m.

Tivoli—"Babes in Arms," at 1:25, 3:30, 5:35, 7:40 and 9:45 p. m.

Ambassador—"Four Wives," at 1:20, 3:20, 5:25, 7:25 and 9:30 p. m.

Uptown—"Daytime Wife," at 1:55, 3:50, 7:45 and 9:40 p. m.

Calvert—"Babes in Arms," at 1:25, 3:30, 5:35, 7:40 and 9:45 p. m.

Hollywood's Gain

John Marston, featured in "Emergency Squad," devoted his entire education with the view of entering the ministry, but gave up that ambition, after his junior year in college, to go on the stage.

Trans-Lux

The New Year's bill at the Trans-Lux Theater is most appropriately headed by a dramatically presented resume of the highlights of 1939 as told by a father to his son. Vividly in contrast are the current news pictures, with the second bombing pictures of Helsinki ranking with the fine shots of the Graf Spee as she continues to burn deep in the mud in the mouth of the La Plata River.

Other outstanding news pictures include King George, on a six-day tour of the front "somewhere in France;" President Roosevelt's holiday address; Sweden's war preparations; the British tank corps in action; Pope Pius observing his fortieth year as a priest, and religious rites in Mexico, D. F.

For sports and fun in the news, there is the intercollegiate swim meet at Fort Lauderdale, Fla., and the Tropical Park Inaugural Handicap. Lew Lehr lays 'em in the aisles with his rug cutting, and the ladies are shown the last word in winter resort fashions.

Highlights of the eventful year 1939 and how they will vitally affect world civilization during the next 12 months are depicted in the latest March of Time film, "Newsfronts of War—1940." "Information, Please," that popular radio quiz program, is presented as the beginning of a series and brings to the screen Clifton Fadiman, as master of ceremonies; Oscar Levant, John Kieran, Franklin P. Adams and Rex Stout.

A grand bill to start off the New Year with that delightful Walt Disney cartoon, "Merbabies," to round it out.

Studio Shelves Groan Under Canned Riches

Paramount Completes Films With Estimated Value of $40,000,000

By Frederick C. Othman

United Press Hollywood Correspondent

Hollywood, Jan. 1.—Strongest concentration of wealth the world has ever seen, we guess, is in an air-conditioned vault at Paramount Studios, without even a sign of a machine-gun guard.

Inside are 240 reels of film, representing a cash investment of nearly $15,000,000 and a sales value of perhaps $40,000,000—after you finish paying your way to see the 30 movies represented.

Each tin can of film is worth some 10 times its weight in gold. The Government has more wealth in buried gold at Fort Knox, Ky., but Paramount's is packed a lot tighter.

This back-log of films, some of which aren't scheduled for release until next August, represents a new development for Hollywood. Usually a movie studio is hard pressed to deliver all the pictures it promises every year. Nearly always it has to renege on a few.

For years Paramount was in this unhappy position. Y. Frank Freeman, new studio chief, changed all this in less than a year, by working all the stages overtime and spending that $15,000,000 as quickly as he could.

Waiting on the Shelf

For this outlay he got the following movies, which will be released at the rate of four a month until the end of next summer: "The Great Victor Herbert," "Emergency Squad," "Geronimo," "Santa Fe Marshal," "Remember the Night," "Parole Fixer," "The Light That Failed," "The Sidewalks of New York," "Knights of The Range," "Seventeen," "Adventures in Diamonds," "Women Without Names," "Road to Singapore," "The Farmer's Daughter," "Typhoon," "Opened By Mistake," "French Without Tears," "The Biscuit Eater," "The Way of All Flesh," "Showdown," "Untamed," "The Light of Western Stars," "Buck Benny Rides Again," "Hidden Gold," "Safari," "Dr. Cyclops," "Night of January 16" and "Golden Gloves."

Three of these pictures are westerns, manufactured at a cost of $60,000 each. Half a dozen are in the million dollar class. The rest range in between and the average cost is about $500,000 each. If they're mostly fizzles, the stockholders will take a loss, but if they're good average pictures, they ought to take in $1,500,000 each. If there are any smash hits among the lot, the average will be much higher.

Why Producers Turn Gray

Movie problems: You read a lot about the trick decisions picture producers have to make. They sound foolish to outsiders, but they're mighty important to the manufacturers of entertainment. And that brings us today to a memo on a pink inter-office communication slip at Warner Brothers, thus:

"To Mr. Hal Wallace,

"From Mr. T. C. Wright,

"Subject: Magic bullets.

"For your information Dr. Stimpert cannot give us the insert of the nervous system of a worm, which is an insert for 'magic bullets.'

"We can build a phoney worm and have the process department shoot it for $250.

"Is this insert necessary?

"Kindly let me know."

That gives you a general idea why movie producers turn gray before their day. It also explains why Hollywood correspondents, like us, go around most of the time smiling to themselves. They're thinking about Wallace thinking about worms.

An Ebony Turkey

Another problem we saw settled at R-K-O today involved a freshly-roasted, black-enameled turkey. As problems go, it was a little dilly:

Herbert Wilcox, the British producer, was in the midst of making "Irene." He thought it would be nice if he could show Anna Neagle, his star, in a really blue dress.

The picture was in black and white, but since its plot revolved around Miss Neagle's Alice-blue gown, he thought it would make a fine effect if her dress actually was blue on the screen, while the rest of the scene remained in black and white. He turned that one over to the Technicolor experts.

They said they could do it all right, by making all the scenery, and the people—aside from Miss Neagle—either black, or white, or gray. So they painted the walls gray. They made the floor black. The furniture was white. All the extras had black, white or gray hair, while their clothes were in the same hues.

The blue-gowned Miss Neagle danced with Ray Milland and everything was ready to go, when somebody noticed that a roast turkey on a buffet supper table in the background was a tender brown.

The property department fixed that in a jiffy, with a spray gun full of black paint.

Acting Dentist

Edgar Buchanan, character actor in "State Cop," is a practicing dentist, whose wife runs the office when he's in a picture.

Louella O. Parsons

Close-Ups and Long-Shots Of the Motion Picture Scene

Jan. 1 (INS).—When I was making my predictions for 1940 I should have added that I foresaw Joan Crawford getting a new lease on her career in the next 12 months. Evidently Metro-Goldwyn-Mayer agrees, because they are giving her one of the most fascinating novels I've read in a long time, Louis Bromfield's "Bombay Nights," for her first 1940 production. While we've been on tour I've been reading this colorful serial running in Cosmopolitan Magazine and enjoying every moment of it.

LOUELLA PARSONS

Joan will play the part of Carol, the beautiful but cynical heroine who goes to India seeking excitement and finds redemption through a great love. I'm glad the studio is continuing to give Crawford these roles with more fire and drama, for she is right in believing she is past the typical "glamour girl" roles. I hear she will be as big a surprise in "Strange Cargo" as she was in "The Women." J. Walter Rubin will produce "Bombay Nights."

Orson Welles is bringing France's No. 1 femme star, Dita Parlo, to Hollywood to costar with him in "Heart of Darkness"—proving the bearded Mr. Welles is a very persistent young man. Ever since he signed with RKO he has had his heart set on getting permission from France's wartime government for the beautiful Parlo to come to America. It was a delicate situation to arrange, because she is an Austrian by birth. Miss Parlo, who clicked with American fans in a big way in "Grand Illusion," is expected to leave France the latter part of February since "Heart of Darkness" will not start until Welles completes "Smiler With a Knife."

I have discovered from the questions whom the fans in Washington like. They are divided in their affections between Richard Greene and Deanna Durbin. More questions about Greene than any other male star, except Mickey Rooney who seems to be everybody's favorite these days. I cannot help but wonder again why Deanna Durbin was not mentioned in Martin Quigley's exhibitors' poll. The questions I have received, not only in Washington, but over the country, show the picture-going public is crazy about Deanna.

Snapshots of Hollywood and Washington collected at random: Lana Turner's mother says there'll be no wedding bells for Lana and Greg Bautzer in 1940—which seems like a difference of opinion somewhere; Big Boy Williams' father is quite ill in Texas and he will fly there as soon as he finishes "Virginia City;" Cobina Wright's badly infected tooth may make it neeessary for her to call off her Palace Hotel engagement; Isabell Jewell showing the Hollywood sights to Pablo Sierra, Spanish war correspondent; Bill Powell has been beauing Loretta Young around ever since they posed for pictures together at the "Gone With the Wind" opening.

John Garfield showing up on the Warner lot for the first time since August for "Married Pretty and Poor"—which should be titled "Spurned, Heckled and Unhappy" after all the trouble they've had casting it; Mr. and Mrs. Richard Six joining the Sun Valley contingent; the Jimmy Stephensons are expecting the stork; each place we go we think we like better than the previous town—but Washington fans and the friends we have made here couldn't be grander.

That's all for today. See you tomorrow!

Louella O. Parsons and her "Hollywood Stars of 1940" are now appearing in person on the stage at Loew's Capitol Theatere.

16 WASHINGTON: TUESDAY, JANUARY 2, 1940 X****

12,000 See Dull Battle; Few Threats

Teams Never Inside Five-Yard Lines; Bulldogs Advance To Catholic Nine

By Jack Munhall.
A Staff Correspondent

El Paso, Tex., Jan. 1.—Some sort of record for long distance traveling futility was established here this afternoon when Catholic University and Arizona State Teachers fought to a scoreless tie in the fifth annual Sun Bowl game.

The Cards came 2,100 miles and the Bulldogs 400 miles to play a hard-fought but dull contest that provided little thrills for a crowd of 12,000 fans.

Scoring chances were scarce and neither team was able to reach the other's 5-yard line. In the opening minutes of the first period the Bulldogs got to the C. U. nine for the closest goal line approach of the day. This threat fizzled when a bad pass from center cost the Teachers 17 yards and a fourth down pass was broken up.

Catholic U., able to make little headway against the surprisingly stanch enemy line, never got inside the Teachers' 34 under its own steam. The Cards put together their only sustained running attack of the game to march from their own 39 to the Tempe 34 in the third period.

Tempe's Moral Victory

For Tempe and its great All-Border Conference fullback, Wayne (Rip) Pitts, the stalemate was a moral victory. Entering the game a 5-7 underdog, the Teachers outplayed the Cards most of the way and statistics are greatly in their favor.

Running, Tempe gained 205 yards from scrimmage to 198 for the Cards and 10 first downs to 6. Although neither team's usually high-powered ground offense could move in the face of a pair of powerful lines, few forward passes were used. The Cards threw five times and completed only one and the Teachers missed fire with all of the seven aerials tried.

For a couple of elevens which between them during the regular season scored the amazing total of 512 points, C. U. and Tempe were something less than powerhouses today. Just as they came the closest to scoring, so did the Bulldogs stage the only long drive. In the third period with the hard-hitting, shifty and speedy Pitts ripping off sizable hunks of yardage Arizona, champion of the Border Conference and undefeated within it this season, roared 54 yards. The threat was stalled by an inopportune fumble on the Cardinals' 48.

About the only possible excitement the crowd could have derived from this stubborn battle of lines was from the great all-around performance of Pitts; the fine punting of C. U. Quarterback Pete Sachon and the defensive mastery exhibited by the Cardinals ends, Joe Carrig and Louis Shine and by their fullback, Rocco Pirro.

Pitts, 185 pounds of jolting speed, played the entire game—the one player to do so—and he gave one of the memorable exhibitions in the bowl history with his running, kicking and defensive play. He averaged 34.2 per kick on five punts, ordinarily not an exceptional average but very good today considering the

Traffic Jams Add to Fun At Rose Bowl

Pasadena, Calif., Jan. 1.—The huge Rose Bowl throng had a hard time getting into the stadium in the Arroyo Seco, but it had a rollicking time once one of the toughest traffic problems of the year had been solved.

Giant buses transporting various private parties, many chartered by Hollywood motion picture folk, brought cheers from motorists as they ploughed through the packed highway lanes.

Screen Actress Gail Patrick, who always came out to cheer for her native Alabama teams of the past, joined with her husband, Bob Cobb, vice president of the Hollywood Baseball Club, in taking one party of nearly a score of friends.

Another, fitted with bar and food counter, was chartered by Screen Writer Bruce Manning and his authoress wife, Gwen Bristow, both formerly of New Orleans.

A tremendous cheer went up as the Tennessee squad appeared on the field, while over in a 50-yard-line box, Gov. Prentice Cooper of Tennessee beamed on the lads from his home State.

Contrary to usual custom, the Rose Bowl was virtually full 45 minutes before kickoff time. Thousands turned away from the Tournament of Roses parade route, a little more than a mile away, and headed straight for the football scene after the last float passed.

Clemson Beats Eagles in Cotton Bowl, 6-3

The Trojans' Second Score—A Pass From the 1-Yard Line

Associated Press WIREPHOTO

Fourth down and one yard to go in the last two minutes of the Rose Bowl game, the Southern California quarterback crossed up the Tennessee defense with a pass and Amby Schindler tossed one to Al Kreuger, who caught it alone in the end zone for the second Trojan score. The final count was 14-0

Bostonians' Last-Period Drive Fails

Banks McFadden Knocks Down Passes In Fourth Quarter; 15,000 Watch Game

Dallas, Tex., Jan. 1—Mighty little Clemson of South Carolina halted two furious fourth period drives by Boston College today and carried on to victory over the rugged New Englanders in the fourth annual Cotton Bowl football classic, 6 to 3.

Twice Stringbean Banks McFadden, rated by many the outstanding halfback of 1939, rapped down passes by Boston's Charley O'Rourke within a step of the goal to protect that narrow lead Clemson obtained midway through the second period. A crowd of 15,000 chilled despite the brilliant Texas sunshine, came to cheer the much publicized McFadden but departed with praise for a virtually unknown sophomore fullback, Charley Timmons, of Abbeville, S. C.

It was Timmons whi personally brought Clemson from behind in the second period, ripping the Eagles' stout defense to bits with total gains of 32 yards in five attempts at the rapidly tiring left side of the Boston line. At the end of the 57-yard drive, Timmons plunged 2 yards into the same hole for the touchdown.

A 24-yard field goal by Alex Lukachik, Boston end, shot the Eagles into the lead on the fourth play of the second period. O'Rourke, leading passer in the East this season, set up the kick by driving 27 yards with Bru Trexler's punt from the end zone, making first down on the Clemson 13 as the first period ended.

Coach Frank Leahy sent in a new backfield which hammered in vain at the bristling Clemson line. On fourth down Lukachik dropped back to the 24 and with Ed Cowhig holding, he shot a perfect boot high between the uprights.

When Justin McGowan punted for Boston College on the subsequent kickoff, McFadden returned 7 yards to his own 43 and the Tigers were on their way. On two plays, Timmons picked out his weak spot and rolled up 12 yards. McFadden then attempted to pass, found no receivers, and elected to run, threading his way downfield 13 yards more. Bryant lost six attempting to swing around left end.

McFadden picked up 16 yards with a pass down the middle to Jackson for a first down on the 20. It took Timmons just three plays to score on gains of 12, 6 and 2 yards. Bryant's attempted placement for the extra point was wide.

This Morning

With Shirley Povich

Speaking of bowl games, the manner in which Bob Feller has been bowling over American League opposition has established him rather thoroughly as the most valuable pitching chattel in the big leagues. And, by the same token, the Cleveland Indians, who employ him, are the luckiest club in the majors in a sense.

POVICH

By this time the last lingering doubts of Feller's skill have vanished in an avalanche of performances that have stamped the Iowa farm boy as the best pitcher in the majors. What was once the logical presumption that he was a flash in the pan is no longer tenable. With each succeeding season, the lad has grown in pitching stature.

Before reaching his twenty-first birthday, he has completed four seasons in the American League. And the only team against which he fails to hold an edge in the 117 games he has figured in is the New York Yankees. And the Yankees are able to show only a 7-6 margin over Feller in 13 decisions. In four years he has won 8 out of 10 from the Browns, 12 out of 16 from Chicago, 8 out of 11 from the A's, 11 out of 16 from Detroit, 5 out of 9 from Washington and broken even with Boston.

Cold Figures Pay Eloquent Tribute to Star

The most eloquent tribute to Feller's skill is the set of figures that show the grand batting average of American League hitters against the Cleveland lad is .210. Paradoxically, the team which shows the best batting average against him is the A's with a .256 mark. Washington batters have achieved a .254 average against him and the Yankees have hit .238 when he ws in the box. But the White Sox have a mere .189 batting average against Feller and the Tigers only .184.

The figures are supplied by Mr. Henry Edwards, of the American League Service Bureau, who purports to show that Feller has come a long way since the Cleveland club tried a daring experiment and promoted him from the ranks of the park's peanut-sellers to pitch an exhibition game against the Cardinals. He struck out 16 of the Gas House Gang that afternoon and literally a star was born.

Cleveland is not only fortunate that Feller is the American League's No. 1 pitcher, but the Indians are exceedingly lucky to have title to him. The Indians' front office grossly mishandled the lad's contract in the minor leagues and retained title to him only because Judge Landis violated one of his own rules and refused to declare Feller a free agent.

Johnson Explains Why Feller Is So Good

Feller may not be faster than Walter Johnson, but he'll do until another Johnson comes along. The Iowa boy was in the league for two years before Johnson got a glimpse of the fellow whose speed, folks were saying, rivaled Johnson's. But when he finally did see Feller pitch, Johnson all but corroborated that belief.

"He throws the hardest ball of any young fellow I've ever seen break into the majors," said the former pitching idol of the Nats. "At least you'd have to rate him with the fast ball pitchers. But it's easy for me to see why he is a strike-out pitcher. His speed helps, but it isn't all speed.

"Watch the way he delivers the ball. Notice him as he lets it go. My fastball motion was a wide sweep of my arm with my body behind it. Feller is strictly overhand and he lets the ball go from in close to his body. Then in almost the same motion he falls a bit to the right. That ball comes up to the plate out of the background of Feller's shirt and the battere can't pick it up until it's almost on top of him. That's why he strikes out so many."

Naturally Feller was troubled with wildness, but in his case it was magnified because he was Bob Feller, the strikeout sensation. Many another pitcher, fully as wild, did not acquire the same reputation as a wild man. But there is evidence that Feller is gaining control. In 1938, he walked 240 batters. In 1939, pitching more innings, he walked only 142.

Feller Soon Learned Tricks of His Trade

To the everlasting credit of Feller, he quickly learned the niceties of pitching form. He wasn't content to rely on his fast ball and his ability to fog it past the hitter. He lost too many heart-breaking games because he was lax in holding runners on base, and the Yankees in one battle stole six bases against him. Feller set about to learn how to keep a runner close to the bag.

He has learned, too, and last season base runners were taking few chances with Feller. He's no star fielder on the mound, but he's no shoemaker, either. Walter Johnson, who became one of the great fielding pitchers of baseball, was troubled by bunts in his formative years.

Feller still throws the fastest ball in the American League, but no longer is he strictly a fast-baller. His curve and his change of pace are no mean assets. The Feller curve, in fact, is becoming somewhat famous. Lefty Grove and Wes Ferrell never mastered a curve until arm ailments stripped them of their fast ball. Johnson's was never more than a wrinkle. Feller, 21 last month, can blow 'em down or fool 'em with a hook.

Eagles Defeat Rovers, 8-1, in Garden Clash

5,000 See Washington Hockey Team Tie for Lead as Hosts Suffer Worst Defeat in Three Years; 3 Stars Out

By Al Hailey
A Staff Correspondent.

Madison Square Garden, New York, Jan. 1.—The Washington Eagles celebrated a New Year's Day "bowl game" of their own here today by bowling over the New York Rovers, 8 to 1, in a speedy contest which saw the 1938-39 Eastern Amateur Ice Hockey League champions take their worst defeat in three seasons of playing.

The Eagles did everything but fly as they skated through and around the dizzy Rovers. They struck twice in the first period, eased in three in the second and then turned on a smooth working display of stick handling and accurate passing for three more in the third session.

Five thousand customers shouted themselves hoarse as the Eagles drove in three scores in less than 2 minutes in the final 20-minute period.

Good Game by Lee

The finale was a triumph for a dashing quintet of Lee Burrage, Alan Kuntz, Hal (Admiral) Dewey, Roy Covert and Ross Knipfel. Goalie Gordon Lee, the sixth man, turned in a magnificent performance throughout the game.

The game was the last in the Hershey Cup series, the first third of the Eastern Amateur League championship play, which already had been clinched by the Rovers with their yesterday's victory over the Montreal Royals.

But the Eagles' highly successful 1940 debut puts the Washington team into a tie with the New Yorkers as far as points toward the league championship is concerned. Both teams have 26 points toward the title, which will be decided next March at the close of the league.

Paul Corteau, wingman, was all over the floor for the Eagles while he was in there. He was the key man in both the Eagles' first period scores, which were accredited to Mike Germann, left defenseman, who also turned in a rare holiday performance.

Take Early Lead

The Washingtonians jumped into the lead with the game but 1 minute 40 seconds old when Corteau, on a pass from Less Ramsey, sent the puck to Germann for the conversion. The second Eagle score came with but 17 seconds left to play in the opening session as Corteau, playing the puck like a golf putt, sent it screaming 20 feet across the ice. It glanced off Germann's stick and past the befuddled goalie into the net.

The Rovers' lone score in the first period was not actually scored by a Rover Club player, but by a player drafted from the Manhattan Arrows, Whitey Fountain.

Playing without the services of three of their regulars, out with injuries, the Rovers also had a Manhattan Hawks player—Joe Martin—in the lineup as a draftee.

Just at the sound of the final whistle, the Rovers sent in a goal which wasn't allowed. The game was already over.

It was one of the cleanest games ever seen on the ice in Madison Square Garden—or anywhere else,

Ralph Flanagan Weds Ruth Jump; Diving Champ

By the United Press

Yuma, Ariz., Jan. 1.—Two Olympic Games diving champions, Ruth Jump and Ralph Flanagan, were married here today by Justice Ed Winn after an aerial elopement from Los Angeles.

Miss Jump gave her age as 19 and said she was a model from Los Angeles, while Flanagan said he was 22 and listed himself as a student from Austin, Tex. Witnesses were H. T. Kurtz and Alfred Delavega.

Flanagan is a native of Miami, Fla., where he first achieved national ranking as a swimmer and diver while still in his 'teens. Miss Jump, although born in Nodaway, Iowa, won her aquatic fame in southern California.

$10,000 Race On Coast Won By Whichcee

Kayak II Is Second And Heelfly Third; Specify Runs Fifth

By the Associated Press

Los Angeles, Jan. 1.—Whichcee beat the favorite but top-weighted Kayak II by four lengths to win the $10,000 New Year Handicap at Santa Anita Park today. Heelfly was third.

A crowd of 45,000 persons saw Specify, the pace setter, flatten out in the stretch and wind up a badly beaten fifth. Jockey Basil James brought Whichcee in front in the stretch as Kayak II, carrying 128 pounds, 12 more than the Maj. A. C. Taylor bay gelding, made a game but futile challenge.

Whichcee, third choice in the betting, ran the mile in 1:35 2/5 and paid $13.20, $4.20 and $3.20 across the board. He added $8,300 to his earnings.

Kayak II paid $3.20 and $2.60, while Heelfly was good for $4.00 to show.

Whichcee, taken in hand when Specify, the bettor's second choice, took command, moved into the lead when urged and won under mild punishment. Kayak II, restrained but never far back, responded to pressure but could not cope with the winner. Heelfly, slow to get started, bettered his position gradually, closed gamely, but was not a serious threat. Can't Wait, Pernie and Journey On also ran.

The handle for the feature race was $138,033.

Ardenell paid the day's greatest odds in winning the opening race, a 6-furlong event for 3-year-olds foaled in California. $81, $36.40 and $15 across the board.

Tennessee Defeated By Trojans, 14-0

Powerful Southern California Humbles Unscored-On Vols Before 92,000 in Rose Bowl

ROSE, from Page 1.

roughness. Schindler made 1, and then went over for the touchdown as Guard Bob Suffridge pulled himself out from under the mass of arms and legs.

Tennessee made its bid as the fourth quarter began. Butler passed for 17 to Hust, added 10 more and with Newman and Bob Foxx helping moved into Trojan territory when Foxx passed to Jim Coleman for 36 yards.

Tennessee was on the move. They went on, but Butler was out of the line—injured. Buist Warren came in, and Tennessee pounded on to the 19. Newman got the ball, hit the right side of the line, the ball bounced out of his hands and the Vols' threat was over.

Schindler took over. He made 9, 1, 7; Banta added 6, Banta 14, Schindler 5 and so on, first downs rolled under the Trojans, until they reached the one on Schindler's last two line smashes. The Vols were tense, and fell easy prey to the gentle, arching pass lofted over the left side to Kreuger.

Cafego Is Stopped

Tennessee, with less than a minute to play, tried to come back. Butler passed the ball to his own 35, but the gun caught him and the game was over.

Trojan power first asserted itself after the first four minutes of the game when Lansdell smashed the Tennessee line for gains that carried his mates from the S. C. 35 to the Vols' 22, but the enemy held for downs and on the try, Suffridge tossed Lansdell for a loss and Tennessee took the ball.

Tennessee's Cafego, hampered by his injury, got nowhere, while Coffman looked like the most consistent ground gainer, but the Vols were unable to cross the midfield stripe in the initial period. S. C. had run up seven first downs, Tennessee, one; S. C. had run 132 yards, the Vols only 15, net.

S. C. got the first real break early in the second. Johnny Butler's punt, partially deflected by Floyd Philips of S. C., went for only 14 yards, and the Trojans took the ball on the Tennessee 34. The Tennessee rooters groaned. But not for long. Those Tennesseans wouldn't budge, stopping Nave on three plays and Wallen broke up his fourth down pass try.

Butler got off a long punt this time, and the see-saw struggle went on with neither eleven able to get within scoring territory. Southern California dominated the game, and Tennessee's attack failed for the entire half to get into Trojan territory or chalk up but one first down. That came on the first series of plays after the opening kickoff.

Then came the blast that brought the first score—and the first score the Vols had yielded in 16 games.

50,000 Watch West Defeat East, 28 to 11

Rain and Mud Fail to Mar Brilliant Play of Ex-College Players

By the United Press

Kezar Stadium, San Francisco, Calif., Jan. 1.—The West defeated the East, 28-11, in the annual Shrine East-West football game before 50,000 fans today on a field turned into a quagmire by intermittent rains.

It was a battle in the mud but despite the handicaps of soggy turf, slippery ball and heavy going, the rival teams of college stars turned in a brilliant exhibition.

The first half, played before the gridiron became a sea of mud, produced the best football. In the first 30 minutes the West, with Kay Eakin, of Arkansas, and Leroy Zimmerman, of San Jose State, providing the motive power, struck for three touchdowns while the East was held to one.

East Gets Two Safeties

In the last half the East added four points to its score by two safeties. The West had the last say, however, with Lee Artoe, of California, recovering a wild pass from center for the West's fourth touchdown.

It was the ninth win for the West in the series which had its fifteenth presentation today. The East, favorites before the game, has won only five times. One game was a tie.

The most brilliant play of the day produced the first score. Six minutes after the game opened,

See WEST, Page 18, Column 8.

Four Yards Made Through This Muddy East-West Pile-up

Associated Press WIREPHOTO

Kay Eakin (left), Arkansas' back, crashed through for 4 yards on the muddy turf of Kezar Stadium in San Francisco as the West's college all-stars defeated the East, 28-11, before 45,000. The play was in the first period—Pool of Stanford is 24. Kish, of Pittsburgh, 26. Ed McGee of Temple (note hand) stopped the play

Coach Howard (Sphinx) Jones Highly Praises His Trojans

By the Associated Press

Rose Bowl, Pasadena, Calif., Jan. 1.—Howard Harding Jones, whose sphinx-like attitude is a by-word of the football coaching world, was lavish in his praise of his Southern California Trojans after the Rose Bowl victory over Tennessee.

He said the team played one of its best games since the start of the season last fall, comparing it to the 19 to 7 win over Oregon State's previously undefeated team.

The field generalship of Ambrose Schindler during the 85-yard drive to the second touchdown was described by the headman as outstanding.

The players themselves expressed the general idea they were not greatly impressed with the Tennessee team's play. Some of the boys laughingly explained they had baited the Volunteers at times until the visiting gridders, especially some of the linesmen, were so furious they fell easy prey to blocking and trapping finesse.

Almost to a man the Trojans said they had expected the Volunteers to be considerably tougher.

Two Trojans agreed the finish of this game was a lot easier on the nerves. They were Doyle Nave, quarterback, and Al Krueger, end, whose pass throwing and catching enabled U. S. C. to whip Duke in the last 40 seconds of the Rose Bowl encounter of a year ago.

The Tennessee squad was strangely silent as it trooped into its dressing room, barred the doors and departed quickly for its hotel. Maj. Bob Neyland left a prepared statement as he hurried his players into a waiting bus.

It read: "We were badly beaten by a superior team. I want to congratulate Howard Jones and his staff for the fine team they have turned out."

Lesnevich Beats Clark at Detroit

Detroit, Jan. 1 (AP).—Gus Lesnevich, of Cliffside Park, N. J., won a close ten-round decision over Dave Clark, Detroit Negro, in an afternoon battle here today.

The verdict was unpopular with Clark's Detroit backers.

Lesnevich weighed 174 pounds, Clark 173.

In the first meeting of these light heavyweights last June Lesnevich knocked out Clark in the first round at Nutley, N. J.

At the start Lesnevich had the best of it as Clark attempted to slug. As the fight went on, however, Clark became cagier and finished strong with the last three rounds to his credit. There were no knockdowns.

Jack Johnson Ill

Minneapolis, Jan. 1 (INS).—Former Heavyweight Champion Jack Johnson, Negro, was a pneumonia patient tonight in a Minneapolis hospital. He was stricken while appearing in a current show in Minneapolis. Physicians said his condition was not serious.

Ga. Tech Trounces Missouri; Texas Aggies Beat Tulane

Jackets Win Orange Bowl Clash, 21-7

36,500 Fans Watch Tech Trail in First Period but Rally With 3 Scores

By the Associated Press

Miami, Fla., Jan. 1.—Georgia Tech's magicians dazzled Missouri's football team and 36,500 spectators with magnificent deception today to humiliate the Big Six champions, 21 to 7, in the eighth annual Orange Bowl game.

After the mighty Paul Christman had pitched Missouri to an early touchdown, Tech muffled the big blond's aerial shots and countered with three scoring sorties, two of them on lengthy runs by Rob Ison, the Engineers' All-Southeastern end, and Earl Wheby, a substitute halfback. Ison's 59-yard touchdown dash on an end-around stood out in a game replete with flashy plays.

It was tiny Johnny Bosch, however, who started Tech on its winning surge. His bullet tosses sparked a 64-yard drive that tied the score in the first quarter.

Missouri, clearly outplayed, made a valiant but futile gesture in the waning minutes, only to lose the ball on downs two yards short of a touchdown.

Tech Proves Superiority

Tech proved its superiority in virtually every department, outrushing the Missourians 210 yards to 151 and outpassing them 91 yards to 76.

The game was scarcely 5 minutes old when Christman unlimbered his strong right arm and sent Missouri on the way to first blood. Bob Waldrof had recovered Howard Ector's fumble on Tech's 45-yard line, and Fullback Bill Cunningham had failed to make any headway through Tech's hard-cracking line.

Pitchin' Paul immediately rifled a 21-yard pass to Blaine Currence at end, and three plays later he whipped the ball to him again for 13 more to reach Tech's 5.

From there the Missourians pounded over, with Christman hitting guard for the final yard. Cunningham place-kicked the extra point on his second try, after Tech drew an offside penalty, and Missouri appeared briefly to have the situation in hand.

Tech Marches 68 yards

The boys from Atlanta received the kickoff and didn't give up the ball until they had swept 68 yards for the tying touchdown. On the first play after the kickoff return, Bosch whirled the ball to Paul Sprayberry for a first down. Little Bobby Pair picked up another through the line and then Tech pulled the play that, repeated later, was to prove Missouri's downfall.

Ison, taking the ball from Bosch on an end-around, shouldered his way 14 yards to the Missouri 18. Then the tall end took Bosch's pass on the Tiger 6, and four plays later Ector hammered over center for the last few inches. Roy Goree, Tech's place-kicking specialist, converted to even the game.

Missouri gambled on a fourth-down pass and Tech got the ball on its own 36. Pair made 5 yards on a reverse, a pass by Bosch didn't click.

Ison, pulling out of the line, again grabbed the ball from Bosch and set sail wide around right end. He crashed through Missouri's secondary, dodged the last threat 30 yards from home and breezed down the sideline as free as air. Again Goree was called in to boot the point.

In the third period, Bosch whipped the ball twice to Ison to penetrate into scoring territory, but Jim Starmer recovered Capt. Buck Murphy's fumble almost on the goal line and Currence punted out.

Bosch returned to the Missouri 34 and failed with a pass before turning Whebi loose. The fleet Tech substitute took the ball on one of Tech's mystifying double reverses, went wide around his left end, cut back sharply and sped to the end zone. Goree once more added the point and that was all the scoring.

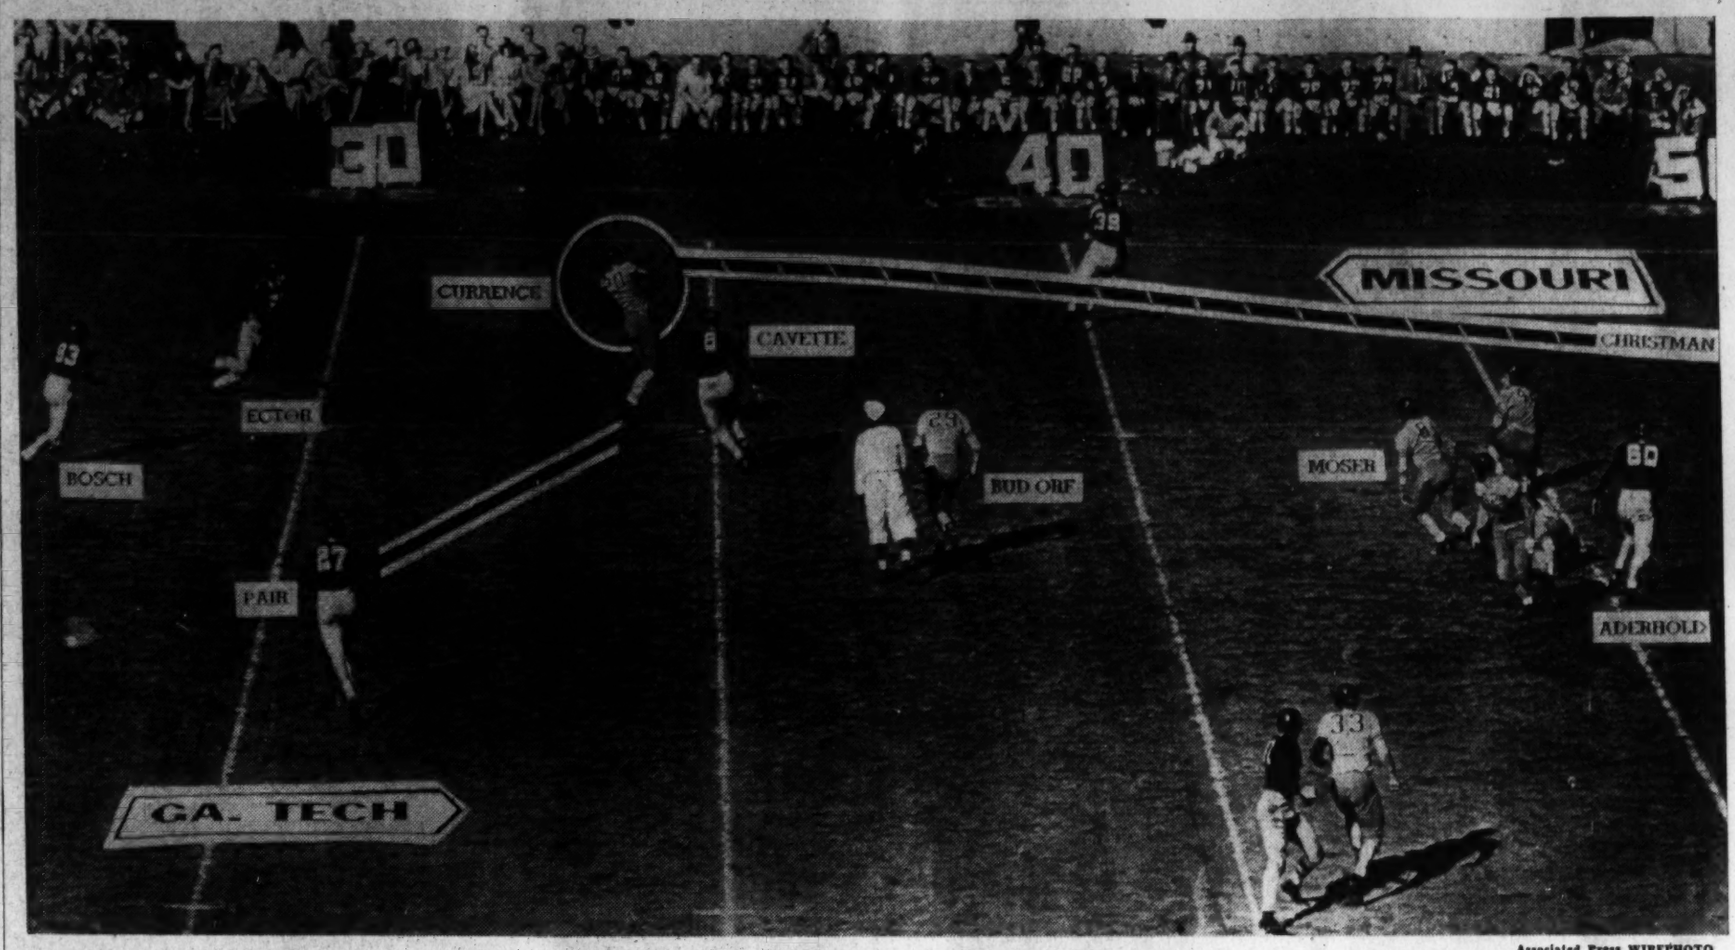
Sports Writer Finds Child's Play Too Rough

Kansas City, Jan. 1 (AP).—Harold (Spike) Claassen, Associated Press sports writer, who stretches 6 feet 7 skyward, resolved today to remain a critic instead of trying to be a coach.

Teaching his daughter how to use a small Christmas sled, Claassen draped his long form on the sled and sped downhill. Near the bottom he applied the brakes. The sled stopped, but Claassen didn't.

Result: A broken collarbone and a kinder sports critic.

A Christman-to-Currence Pass Clicks for Missouri in the Orange Bowl



Associated Press WIREPHOTO

Despite its 21-7 rout by Georgia Tech in the Orange Bowl clash in Miami, Missouri's Tigers were first to score and it was the passing combination of Paul Christman to Substitute End Currence that set up the touchdown. Currence (20) is shown snaring the pass for a 22-yard gain in the first quarter. Bosch (93), the outstanding star for the Jackets; Ector (50), Cavette (8) and Pair (27) close in, with Pair finally making the tackle

Bob Bensinger Wins National Net Title

Washingtonian Defeats Irvin Dorfman, New Yorker, 2–6, 8–6, 6–4, for Championship; Umstadter Takes Junior Crown in Tourney

New York, Jan. 1.—Bobby Bensinger, of Washington, D. C., captured the national boy's tennis championship today when he defeated Irvin Dorfman, of New York, 2—6, 8—6, 6—4. Bensinger succeeds Jimmy Evert, of Chicago, who graduated to the junior tournament this year, and was an unsuccessful semifinalist.

Bill Umstadter, Louisiana State player of Milburn, N. J., defeated his doubles mate, Dick Bender, of Westfield, N. J., 6—3, 1—6, 6—3, 6—4, to take the junior title. Last year's champion was Joe Fishbach, of New York, who passed the age limit this year and was ineligible.

The Bensinger-Dorfman finale was another meeting of doubles mates, although up to this tournament, they had never played as a team.

After taking the first set, Dorfman swept to a 4-1 advantage in the second, and appeared on his way to an easy conquest. Here Bensinger abandoned his conservative baseline tactics, and rushed the net frequently. Dorfman was unable to cope with his opponent's methods.

Richard Shipp, of Harrisburg, Pa., and Frederick V. Krais, jr., Pelham, N. Y., won the doubles championships when they defeated Umstaedter and Bender, 8—6, 7—5, 5—7, 6—4. The boys title went to Bensinger and Dorfman who defeated Albert Shafer, Tarrytown, and Fred Kovaleski, Hamtranck, Mich., 2—6, 6—2, 6—3.

Scorers Disagree—Michigan Shows 'Em Who Won, 44-35

Columbus, Ohio, Jan. 1.—Michigan defeated Pittsburgh, 44 to 35, in an overtime basketball game here tonight, although press box records showed the Wolves won the contest in the regulation period.

With 16 seconds remaining in the regulation game, the official scorers had Michigan leading, 33 to 32, although six newspapermen covering the game recorded the count at 34 to 32. "Red" Port, of the Panthers, made good a free throw for Pittsburgh's thirty-third point, however, and the game was tied up officially.

Michigan, irked by its belief a free throw by Guard Charles Pink had not been counted, staged a spirited rally in the 5-minute overtime to ring up 11 points while holding the Panthers to 2. The Wolves were led by their rangy captain, Center Jim Rae, who counted 14 points for individual scoring honors. Forward Ed Straloski, of Pitt, got 10 points to lead the Panthers.

Terps Defeat Clemson, 53-26; In Baltimore

Lead, 21-3, in Early Scoring; Baltimore Downs Washington

Baltimore, Md., Jan. 1.—The University of Baltimore defeated Washington College, 44 to 26, in the final basketball attraction of a double-header. University of Maryland conquered Clemson College, from Columbia, S. C., 53 to 26, in the first game at the Coliseum.

The result was decided in the first half, in which Maryland ran up a lead of 31 to 11 on its Southern Conference rival.

The Terps scored 7 points before the visitors were able to tally and enjoyed a 21-to-3 lead after 15 minutes of play. Coach Burton Shipley began filtering substitutes into the game, and this slowed down the Maryland point-making.

Charley Weidinger, new Terp center, led the early rush with six field goals in nine attempts.

Maryland's fast break from its zone defense formation, with long passes, was too much for the Tiger defense.

Hoyas Resume Work for Two Big Contests

Georgetown to Meet Temple and Colonials; Ripley Experiments

Georgetown University's basketball squad, which enjoyed a layoff during the holidays, returns to action today at Ryan Gymnasium to prepare for two outstanding tests over the week-end.

On Friday night the Hoyas visit Philadelphia to oppose Temple University's Owls in one end of a double-header, while on Saturday night they entertain George Washington in one of the outstanding games of the District college basketball season at 8:30 o'clock.

Coach Elmer Ripley, rebuilding his team from a crop of promising sophomores, anticipates a noteworthy improvement in his club within the next month, but admits the necessity of experimenting with several shifts of players before determining his best starting order.

Georgetown's rivalry with Temple is a traditional one, extending over a long period of years, while Saturday night will mark the second time of recent seasons that it has met G. W.

Ripley will select his starting lineup for the impending tests from a squad that includes Capt. Johnny Schmitt, George Pajak, Irving Rizzi, Francis Daly, Al Matuza, Jim Giebel and Al Lujack.

On the Line

With CONSIDINE

New York, Jan. 1.—The U. S. L. T. A. should have hired one of its tired old tennis bums of 27 or 28 years of age to lecture to the bright young boys who all last week played in the National Indoor Boys Championship. The kids are getting to the age where they should know the facts of tennis life and to keep them in the dark any longer is to make more harrowing their future life in the grand old game.

CONSIDINE

A lot of them probably don't even know where to begin fixing an expense account. We could name 50 tennis celebrities (but won't, upon advice of counsel), who could have lectured winningly on this topic alone. There was one Davis Cup player who raised the expense account art to an all-time high, and it is certainly regrettable that the youngsters were not given the fruits of his wisdom. He is the bloke who used to go to elaborate pains to make sure he charged no more than 10 cents transportation from the hotel to the courts—and then would put in a bill for $15 for "services on top-hat" and $20 for "two pair of shoes torn on nail near clubhouse."

Bridge Helps Winning Player's Income

The boys should have been told about bridge, too. The game of bridge is the backbone of a tennis bum's existence. From time to time the U. S. L. T. A. Pinkertons will swoop down and cut off his tennis racket—particularly if he has had a bad season as did Gene Mako and Wayne Sabin last year—but bridge can be a constant source of income. William Tatum Tilden 2d made enough out of bridge to support the Chinese village of Wung-Fu for three generations. But the catch to this is that a tennis bum has to keep winning on the courts to be acceptable at the bridge table. That is, the rich people in the club take a curious pride in losing to a bloke who is wading through his tennis competition like a bullet through a waterwing. But if he gets dumped out in the first round of the singles, by a lesser bum, it is no honor for a club member to have him at his bridge table and lose his money to him. And what is more sinister, a lot of the tennis committees give the white pants Willies the bum's rush as soon as they lose. They don't exactly kick them off the premises and consequently away from bridge money. They do it another way. They tell them they can stay if they pay for their room and their meals.

A lot of them probably bought their swatters, or had their old man buy them. They can be gotten free, if you work it right. But you must keep winning, when the photographers take your picture at the net—you must remember to hold your racquet up in such a way that the trademark will show in the paper.

The boys should have been told that they can get a college education out of tennis though the U. S. L. T. A. has been known to resent this four-year intrusion on their bums' services. The thing to do is save all your clippings, and the official books that give your sectional ranking, and send them to the various directors of athletics throughout the country. One or more will bite and give you four years of free tuition.

Sportsmanship May Be Secondary

The thing the boys should have been warned against, by some seasoned old bum, is ever letting good sportsmanship interfere with their chances of winning a match. It is all right to be gallant and throw a point, when it doesn't particularly matter. But never do it when it means a match. Because it might hurt your standing in the free-leading league, and you'll find yourself missing out on the invitations to mooch on the better clubs. Once you're in the top flight you can't afford to lose. For if you start getting kicked around by lower-case tramps you're likely to find yourself barred for breaking the eight-week rule—The U. S. L. T. A. law which prohibits an amateur from playing more than eight weeks of competitive tennis during a season. The law, of course, does not apply to Bobby Riggs, Frankie Parker, Elwood Cooke and one or two others. For they make money for the clubs, or represent the association in money-making enterprise.

The boys should have been warned against marrying too early, too. There will be a lot of pretty little rug-cutters hanging around them from now on, batting their pretty blue eyes at these lank mavericks. The thing to do, the old bums would advise, is to wait around awhile and pick out one whose old man's Dun and Bradstreet ranking is okay.

For if they don't obey this latter and the previous rules here listed they will wake up one day, old and abandoned men at 30, and face the abject horror of having to go to work for a living.

Kimbrough Hero Before 73,000 Fans

Texas Team Scores Late in Sugar Bowl Game to Overcome Tulane's 13-7 Lead

By the Associated Press

New Orleans, Jan. 1.—Bull-shouldered John Alec Kimbrough, sturdy son of the Texas cow country, gathered his fading Texas Aggies for a dramatic fourth-period surge that buried Tulane's Green Wave, 14-13, in the Sugar Bowl classic today.

Seventy-three thousand, the Southland's largest football throng, saw one of the most destructive fullbacks the game has ever known simply crush a Tulane team that had pulled ahead, 13-7, on a grand comeback of its own.

No longer than it took to get the kick-off after Tulane had punched them groggy for a fourth-period touchdown, did Kimbrough and his weary mates wait to sweep downfield 70 yards on seven plays for the clinching score.

75-Yard Touchdown Run

The poise that left the vicious Aggies when Bob (Jitterbug) Kellogg, Tulane's great climax runner, sprinted 75 yards on an incredible sideline run for a third-period touchdown that erased the Aggies 7-0 half-time lead, returned when it seemed the Wave had demoralized them with old-fashioned power.

Throughout the first two periods the Aggies, a cruel, machine-like team that battered for 18 first downs to Tulane's 8 and gained 306 yards to 193, looked like a team that couldn't be stopped.

Kimbrough, a 210-pound all-America boy who still has another year of college football, crashed into the renowned Tulane line with power that had never been seen in these parts.

Aggie pass plays clicked and the Green Wave, stopped once on the 6 by a surging Cadet line, seemed unable to start its power rolling.

Still shackled through six minutes of the third period, Tulane got the shock it needed when Kellogg, a red-haired thunderbolt, caught a looping punt on his 25-yard stripe, moved over to the sideline and started churning. Guard Marshall Robnett, of the Aggies, got his hands on him from behind, rode him 5 yards and then slipped off.

Aggies Bewildered

Four more Aggies were tumbled off their feet by perfect blocking and Kellogg went the last 25 yards unmolested. James Thibault kicked the tying point.

Bewildered, the Aggies got plain jittery to set up the second Tulane score. Sophomore Derace Moser, trapped on a sweep run from a wide spread formation, reversed his field, cut back around right end and gained 12 yards. But there he chose to lateral to Kimbrough, trailing him on the sideline.

The ball struck Kimbrough's big hands, bounded off and bounced around grazily on the sideline. Players flew from everywhere and Tulane came up with the ball on the Aggies' 38.

Monette Butler, Tulane reserve fullback, smashed to the Aggie 28, got 5 more on a delayed buck and then gave over the tackle blasting chores to Fred Cassibry, a nimble giant who went to the 2 on two reversible plays. Harry Hays failed to gain twice, but Butler was over for the touchdown by inches on fourth down.

A First Down for the Aggies' All-American, John Kimbrough

Associated Press WIREPHOTO

The All-American back of the Texas Aggies, John Kimbrough, crashes right guard for a first down as the Tulane and Aggie lines pile up on the driving play in thee eSugad Bowl game at New Orleans. The Southwest Conference champions won, 14-13, over the Green Wave

Dolly Val, 7-1 Shot, Wins Tropical New Year's Day Feature

12,000 See 'Early Bird' Racing Card

James Emery's Mare Leads Bob's Boys And Cardinalis To Imaginary Wire

By the Associated Press

Tropical Park, Fla., Jan. 1.—The Gables Racing Association today staged its second annual morning racing program, beginning at 10 a. m. in order to allow patrons to make the nearby Orange Bowl football game.

The "early bird" crowd saw James Emery's mare, Dolly Val, hang on in a thrilling finish to win the $1,300 lion's share of the purse in the mile and a sixteenth Orange Bowl Handicap. The daughter of Jean Valjean, which became 5 years old today (universal birthday of thoroughbreds) was a 7-1 shot and finished her trip over a good track in 1:45 2-5.

Mrs. Ed Haughton's Bob's Boys headed P. L. Kelley's Cardinalis for the place. Memory Book, an entry with Cardinalis, lost many lengths by running very wide at the turns, but he finished a game fourth. The favored High Fidelity did not close as much ground as in his recent sensational score and wound up sixth in the field of nine.

Figures Below 1939

The turnstile and "tote" figures fell below last New Year's Day. Today's throng of 12,000 wagered $282,024, while a year ago, 15,000 bet $284,905.

Mar Le and Dolly Val raced in that order for a half mile, after which Dolly Val forged into a narrow lead. The mare, under Jockey Bodiou's hard urging, refused to give up when Cardinalis and then Bob's Boys made determined bids through the last quarter mile.

The sixth race, a 3-year-old affair at six furlongs, was a sad spectacle for favorite players. Their choice, Steep, broke last in the field of 10 and could do not better than seventh. Deep Summer proved best, the filly clicking by a length and a half. Anti Air, which set most of the pace, tired in the final drive when challenged by the forward-running winner, but managed to hold Smilin Jack safe for the place award. Three lengths separated the pair. Deep Summer paid $15.20.

Reminiscent Scores

Under a well-judged ride by Eddie Arcaro, Reminiscent, a 2-to-1 favorite, drove to a length-and-a-half triumph in the seventh contest of a mile and a sixteenth. Mordecai beat Combahee a length for second money. Autograph stopped after showing the way for six furlongs. Mordecai then assumed an apparently safe lead, only to weaken when Reminiscent drew alongside in the last furlong.

Bailiwick, paying $30.40, took the last event by a half length, with Gaona beating Bachelor's Bower for the place.

Buddie Treacy, a $13.80-for-$2 chance, with Paul Ryan up, sent his backers away to a perfect start for the 1940 season when he just got up in time to earn a photo victory in a four-way blanket finish. Improving his position steadily, the veteran nipped Spittenimage for the major share of the purse, while Miss Hildur, the pacemaker, saved the show from Fly Me. Calling showed only a flash of early foot for the favorite followers.

Morning Mail Wins

The second race saw the $7.70 for $2 choice, Morning Mail, reporting on time, a half length better than the pacemaking My First. Sun Kincsen, last away from the gate, took the show, four lengths away. Irving Anderson rated Morning Mail behind the fast-stepping My First's pace, called on his mount in the stretch and was rewarded when the favorite gradually wore down the leader to win going away.

Sure Cure was dropped into the right spot in the 6-furlong third race. The filly took nine other 3-year-old platers into camp, scoring with ease by two lengths. Racing close to the early leaders, Sure Cure bounded to the front after entering the stretch and drew out to return $9.30. Arch Hero outfinished Curliqueue by a length and a half for runner-up honors.

The second public choice of the day to make good was Cantata, a $5.80 for $2 chance in the fourth dash. Spirited was second, two lengths back and a like margin before Stand Alone. Valdina Lass and Spirited raced themselves into defeat in the first half mile, after which Sterling Young shot Cantata into command for an easy victory.

Two-dollar mutuels paid—MORNING MAIL, $7.70, $3.70, $2.90; MY FIRST, $5.90, $3.90; SUN KINCSEN, $3.80.

MORNING MAIL followed a fast pace closely until straightened into the stretch. He assumed command under vigorous pressure to win all out. MY FIRST settled into his stride quickly, set a rapid pace while saving ground, but then faltered right at the end. SUN KINCSEN broke tardily. She gradually worked her way up on the outside to finish a fast-going third. GUITAR was unable to get up.

Daily Double, BUDDIE TREACY and MORNING MAIL, Paid $54.40.

THIRD RACE—Six furlongs. Purse, $700; claiming. For 3-year-olds. Start good, won cleverly; place driving. Went to post at 10:56½. Off at, 10:59½. Winner, J. Berman's b. f. (3), by Swift and Sure—Diasnosis. Trained by J. Bauer. Value to winner, $525; second, $100; third, $50; fourth, $25. Time, 1:14⅘.

Horses	Jockeys	Wgt.	Post	St.	¼	½	Str.	Fin.	Straight

FAIRY IMP	(Harrell)	99	6	3	1¹	1¹	4½	10	8.10

Two-dollar mutuels paid—SURE CURE, $9.30, $4.40, $3.20; ARCH HERO, $4.20, $3.10; CURLIQUEUE, $3.70.

SURE CURE, well placed the early stages, gradually bettered her position on the outside the final 3 furlongs, shook off ARCH HERO and won going away. ARCH HERO, lightly restrained while going forwardly from the start, took a brief lead through the stretch, but was no match for the winner. CURLIQUEUE, prominent all the way, faltered the last furlong yet held the others safe. NUTTY had no mishaps.

FOURTH RACE—Six furlongs. Purse, $700; claiming. For 3-year-olds. Start good. Won easily; place driving. Went to post at 11:24½. Off at 11:26½. Winner, Mrs. E. D. Gormley's b. f. (3), by Pilate—Bellham. Trained by J. A. Gormley. Value to winner, $525; second, $100; third, $50; fourth, $25. Time, 1:14⅘.

MISS B. B.	(Stevenson)	108	2	4	6¹	9	9	9	10.90

Two-dollar mutuels paid—CANTATA, $5.80, $4.10, $3.30; SPIRITED, $11.60, $7.50; STAND ALONE, $4.90.

CANTATA, well handled, gained steadily while circling the field the last quarter mile, shook off SPIRITED the last sixteenth mile. SPIRITED raced VALDINA LASS into defeat the opening half mile and was no match for the winner when challenged. STAND ALONE, slow to begin, slipped through on the inside all the way and easily disposed of the others in the final drive. WITCH BALL, under a hard drive, outlasted the others.

FIFTH RACE—One and one-sixteenth miles. Purse, $2,000. Orange Bowl Handicap. For 4-year-olds and upward. Start good. Won driving; place same. Went to post at 11:51½. Winner, J. Emery's br. m. (4), by Jean Val Jean—Marway. Trained by F. Carraw. Value to winner, $1,300; second, $400; third, $200; fourth, $100. Time, 1:45⅘.

OUR KETCHAM	(Johnson)	106½	5	4	4²⁴	4¹	7½	9	10.25

†P. L. Kelley entry.

Two-dollar mutuels paid—DOLLY VAL, $16.00, $9.40, $5.20; BOB'S BOYS, $6.80, $4.60; CARDINALIS (entry), $3.10.

DOLLY VAL, hustled into the thick of contention going to the first turn, forced a steady pace, raced MAR LE into submission, drew out through the stretch, but was under extreme pressure to withstand BOB'S BOYS' bid. The latter made up ground steadily the last half mile between the leaders and finished fastest of all. CARDINALIS, prominent and saving ground the entire trip, held on gamely in the final drive. HIGH FIDELITY, permitted to drop far back the early stages, made up much ground the last quarter mile.

SIXTH RACE—Six furlongs. Purse, $700; claiming. For 3-year-olds. Start good. Won easily; place driving. Went to post at 12:18. Off at 12:22½. Winner, E. and H. Stock Farm's br. f. (3), by Priory—Bertie. Trained by T. H. Heard, Jr. Value to winner, $525; second, $100; third, $50; fourth, $25. Time, 1:15.

Horses	Jockeys	Wgt.	Post	St.	¼	½	Str.	Fin.	Straight

MINT DODGE	(Wells)	101	2	9	10	10	10	10	71.50

Two-dollar mutuels paid—DEEP SUMMER, $15.20, $6.40, $4.80; ANTI AIR, $7.00, $4.70; SMILIN JACK, $5.50.

DEEP SUMMER, going forwardly on the outside under steadying restraint, bore out entering the stretch, but drew away decisively when straightened out. ANTI AIR, well clear from the start, slipped through on the inside rounding the turn, assumed command, but was no equal to the winner when the real tests came. SMILIN JACK broke alertly, responded to punishment while saving ground in the final quarter and easily disposed of the others. STEEP was pulled up at the start.

SEVENTH RACE—One and one-sixteenth miles. Purse, $800; claiming. For 3-year-olds and upward. Start good. Won handily; place driving. Went to post at 12:46. Off at 12:47. Winner, A. H. Waterman's b. h. (7), by Chance Shot—Memories II. Trained by T. J. Tault, Jr. Value to winner, $600; second, $125; third, $50; fourth, $25. Time, 1:46⅘.

Horses	Jockeys	Wgt.	Post	St.	⅛	¼	½	Str.	Fin.	Straight
REMINISCENT	(Arcaro)	118	6	4	4²	3¹	2¹	1¹½	1¹	$2.00
MORDECAI	(Robertson)	113	2	2	2¹	2¹	1¹	1½	2¹	2.45
COMBAHEE	(Allegri)	111	1	1	1¹	1¹	4¹	5¹	3¹³	26.90
DOUBLE R.	(Flinchum)	111	3	5	3¹	5¹	5¹	4¹	4¹	19.45

OLD MAID	(F.A.Smith)	111	7	7	7¹	6¹	6¹	6¹	6¹	6.60
CAMISADO	(Johnson)	116	5	3	6½	7	7	7	7	7.70

Two-dollar mutuels paid—REMINISCENT, $6.00, $3.00, $3.00; MORDECAI, $3.10, $3.20; COMBAHEE, $7.50.

REMINISCENT, rated superbly, was nursed along in the first 6 furlongs and though inclind to lug out a bit came on readily on the far turn to win going away. MORDECAI raced AUTOGRAPH into submission, went into command leaving the backstretch and held on gamely, though overhauled in the last sixteenth. COMBAHEE improved his position in the run down the backstretch and was next best. DOUBLE R. showed some speed and had no excuse.

EIGHTH RACE—One and one-sixteenth miles. Purse, $700; claiming. For 4-year-olds and upward. Start good. Won driving; place same. Went to post at 1:12½. Off at 1:13. Winner, J. Summer's ch. g. (6), by Westwick—Royal Chain. Trained by J. Hastie. Value to winner, $525; second, $100; third, $50; fourth, $25. Time, 1:47⅘.

BERTILLON	(Robart)	116	6	7	7¹	5¹	4½	4¹	8	27.50

Two-dollar mutuels paid—BAILIWICK, $30.40, $14.70, $8.70; GAONA, $19.20, $9.20; BACHELOR'S BOWER, $4.70.

BAILIWICK broke good, was kept out in the firm going, closed fast and was drawing away at the finish. GAONA, well up from the start, displayed good speed and held on well. BACHELOR'S BOWER was rushed to the front midway of the back stretch, saved ground, but weakened in the last sixteenth. SPEED, in close quarters the first 5 furlongs, flattened out when urged.

Hilltop Guard Out 4 Minutes in 8 Games

Milwaukee, Wis.—Speaking of football "iron men," there is Bob Kemnitz, Marquette University junior guard from Green Bay, Wis., who played 476 out of a possible 480 minutes in Marquette's eight games in 1939. He missed three minutes against Southern Methodist and one against Iowa State. Kemnitz, incidentally, scored 13 points for the Hilltoppers on 10 conversions after touchdowns out of 14 chances and 1 field goal.

Bill Bennings

At The Post

Selections at Tropical Park

Dear Al: You have only yourself to blame. That is, if you didn't take advantage of Deep Summer, my first special of 1940. I told you he would make you forget that hangover. Paid off at $15.20, with my best bet label on him. Incidentally, Deep Summer was one of my several good-priced winners. Pardon me for keeping in the back-slapping department this long. However, I hope the good start means a good year. Speaking of this young 1940, pardon me for not reminding you for the fifth straight year that all horses have a birthday on January 1. I want to acknowledge receipt of one statue of a horse from Art Brown, of WOL. Wish I could run a picture of it with this column. Labeled "Dunlad," it has only three legs. One eye is covered with tape and the horse's three "good" legs are wrapped in heavy bandages. With all its faults, this miniature looks a lot better than some of the horses Art played last year. Funny guy, that Art. He gives away hot air in the morning and $2 bills in the afternoon. I wonder what became of Gulf Stream Park. Seems to be little chance of the third Miami area track getting in action this winter. If the plant could only operate at night it could pick up a fortune, but the dog tracks have the evenings sewed up tight and I do mean tight. Remember this is the year in which we hope to put over the compulsory insurance for jockeys. We want the tracks to foot the bills, too. If Charles Town can pay all hospital bills and give injured boys an allowance while they are recuperating, Maryland tracks should do the same. If you live in Maryland drop a letter to your Representative in the Legislature or in Congress. If you live in the District, you won't be able to do anything but root. But some day we will have a race track. Well, now for the winners, and I don't care if every one of the eight pays a $19.40 mutuel. Here they are: BILL.

First race—Shasta Mollie appears best suited of these maiden 3-year-olds. She carries 111 pounds in the form of Jockey Robart and I see no reason for mistakes. Spanish Ball comes from a good stable and will have Acaro up. Alca to take care of the show end.

Second race—Yellow Dust may be the right one in this field. Failed us the last time I put him on top but I look for a different race. **Ten-O-Hearts** probably will draw the bulk of the play and is deserving of attention. **Patras** may find his way into the money circle.

Third race—I'm going to try to put over a long one in this field. **Wee Betsy** gets in with only steadying weight and I have reason to believe that there will be an awakening. **Cherachin** has been racing in good form and is dangercus. **Temulac** for the minor award.

Fourth race—Major B. breaks off the rail and has speed enough to make the most of his position. **Bright And Early** moves up but is good enough to be a serious factor if not the winner. **Isaiah** for the show.

Fifth race—Jock's Betsy may be the right one in this rather open affair. I like her chances and will string along. **Ferdinand** and **Syracuse** appear most likely to fill out the money bracket.

Sixth race—Stones Landing appears capable of coming back with another victory in this field. That last was a good one. **Nicholas S.** has won at the meeting and belongs with this kind. **Feng** is a possible upsetter.

Seventh race—Lackawanna was moved into second money through a disqualification last out. The track was off that day. May win this on a fast oval. **Bow And Arrow** has that class which makes him a factor. **White Eye** could take it all in a wake-up.

Eighth race—Barker should have won that last but for a foul. With clear sailing, this fellow should score. **Deduce** and **UpandUp** for the place and show money.

Best bet—Stones Landing.

George Washington Host to Clemson College Five Tonight

Conference Champs Play At Tech Gym

Colonials Prep For Georgetown Game on Saturday; Preliminary at 7

George Washington University's busy basketball team tonight plays its sixth consecutive home game, entertaining Clemson's Southern Conference champions at Tech High gymnasium.

Clemson misses Banks McFadden, its all-America center, who is with the football squad at Dallas, but Coach Joe Davis has the nucleus of last year's conference title winners at hand.

Last year the Colonials had the hardest kind of time in beating Clemson by three points. Coach Reinhart does not underestimate the Tigers at all, after watching their football and basketball teams the past three years.

This is the third game of Clemson's Northern tour. The "country gentlemen" lost to Baltimore University Saturday night and last night met the University of Maryland.

While the Colonials respect Clemson greatly, they will be excused for looking ahead a bit to their game with Georgetown on Saturday. This is one of the outstanding games of the season for both teams and will go far toward deciding the mythical District championship.

While George Washington was a bit slow to demonstrate its obvious superiority over Florida in Saturday night's game, the contest brought out Matt Zunic, the 6-foot 3-inch sophomore, as an important cog in the Colonial machine. Zunic scored 17 points in the second half against the Gators to set the pace for an erratic but improved team. His shooting, handling of rebounds and general floor play highlighted the game. Reinhart feels he will play an important part in the Clemson and Georgetown battles.

Tonight's game will start at 8:30. There is a preliminary contest at 7 o'clock.

New Year's Day at the Central "Y", a Varied Program of Indoor Sports

Everything from jiu-jitsu to indoor hockey was on the annual New Year's Day open house sports program at the Central Y, M. C. A. They included: Upper left—Bill Werber, third baseman of the Cincinnati Reds, presents swimming awards to Jimmy Poyner, 14; John Edwards, 10, and Alvan Crews, 11, all double winners. Upper right—Baltimore "Y" Reds and Blues staged an indoor hockey exhibition. Lower left—Joe Chang, jiu jitsu instructor, is in the middle of a half-dozen pupils preceding an exhibition. Lower right—Try this on your New Year's Day hangover, Joe Accardy, District heavyweight champion, lifts 269 pounds as a feature of his exhibition

Goal by Boll Wins For Amerks, 1-0, Over Montreal Six

By the Associated Press

New York, Jan. 1.—A second-period goal by Buzz Boll gave the New York Americans a 1-0 victory over the Montreal Canadiens tonight in a dull National Hockey League game before 5,000 fans. It was the seventh straight beating for the Canadiens.

The Americans held the upper hand from the start and only sensational goal tending by Claude Bourque kept the game close. Bourque lapsed just once—beaten on a 20-foot shot from center by Boll midway through the second period—but his mates couldn't get that back against the leech-like American checking.

The Canadiens' best chances came while their winger, Earl Robinson, served the game's only penalty. As the Americans ganged with five men, the Canadiens broke away three times only to have Earl Robertson stop them.

DeChard Tops Amateur Ring Card Tonight

Frankie Mann to Present 35 Rounds At Gonzaga Hall

Memories of the old "bootleg days" of prize fighting will be revived tonight at Gonzaga Hall, 49 I street northwest, where Frankie Mann will present 35 rounds of amateur boxing, featuring his own heavyweight star, Jimmy DeChard, in a match against the Baltimore Diamond Belt champion, Lee Mitrecciani.

The show is being sponsored by the Booster Athletic Association of St. Aloysius' Church, and, judging by the advance sale and the interest displayed in the 11 matches, the 1940 boxing season is due to get away to a flying start.

It was back in 1925, New Year's Day, that the last boxing show was staged by Aloysius, and Mann was the promoter. It is fitting that Lieut. Col. Heinie Milller, N. B. A. president, secretary of the District Boxing Commission and boxing coach at Maryland University, who refereed that night, will be on hand tonight to referee the DeChard-Mitrecciani headliner.

Two Top Heavies

The DeChard-Mitrecciani match, a five-rounder, will bring together the two kingpin amateurs of the Middle Atlantic sector. DeChard, local Golden Gloves champion, and considered by many the uncrowned national titleholder by reason of his amazing victory last October over Tony Novak at the stadium, will be facing a worthy opponent in the Baltimorean, who not so long ago annexed the Diamond Belt title by kayoing two men in one night.

Practically all the local boys on the card, including DeChard, will fight in the Golden Gloves tournament opening January 10 at Turner's Arena. Thus tonight's show will be in the nature of a preview.

128 pounds—Benny Frady (Pete's), vs. Ray Hanon (Merrick).
122 pounds—Jack Wadsworth (Pete's), vs. Pete Kearns (Merrick).
118 pounds—Charlie Pedro (B. C. No. 8), vs. Billy Miller (unattached).
130 pounds—Red Vernon (No. 4), vs. Kid Smith (St. Mary's).
138 pounds—Lew Dundee (Baltimore), vs. Harry Landers (unattached).
112 pounds—Danny Petro (1938 A. A. U. champion), vs. Grover Davis (Pete's).
118 pounds—Willie Tapp (bantamweight champion), vs. Jackie Kelmon (Baltimore), diamond belt champion.
126 pounds—Gilberi Mayo (St. Mary's, 1938 Golden Gloves champion), vs. Don Bascala (diamond belt champion).
147 pounds—Nick Mancini (Pete's), vs. Bryan Healy (diamond belt champion).
Heavyweights—Chester Morris (A. A. U. champion), vs. Casper Vechene (diamond belt champion).
Heavyweights—Jimmy DeChard (Golden Gloves champion), vs. Lee Mitrecciani (diamond belt champion).

Catholic U. And Arizona In 0-0 Draw

Scoring Threats Few As 12,000 Watch Grim Battle of Lines

CATH, from Page 16.

gale-like wind which hampered both teams.

Sachon, as expected, astonished the fans with his long and accurate punting. Only once was Tempe's safetyman and State 220-pound champion, Joe Hernandez, able to return a Sachon kick. The others soared out of bounds deep in Teachers territory. Sachon's best effort was a 48-yarder that skidded out on the 2-yard line, and paved the way for C. U.'s best scoring chance of the afternoon.

Pitts' kick was blocked by the right side of the C. U. line and sailed into the arms of Halfback Joe Guyon, of C. U., on the Arizona 10. The Cards, however, didn't have the necessary punch and handicapped by an offsides penalty they yielded the ball on downs after two passes failed. Before the penalty Guyon reached the five.

Penalties Costly

Penalties were numerous and costly for both teams. There were six penalties against C. U. and four against Arizona costing them 60 and 55 yards, respectively.

One of the game's few thrills was a bit of ball stealing in the third period. End Balshore, of Arizona, downed one of Pitts' kicks on the C. U. 39 but as he held the ball in his arms instead of downing it, Sachon rushed up to snatch it from him and run ten yards before the startled Bulldogs caught him.

This smart play on Sachon's part started the Cards on their one sustained march. Pete Brostek, on the longest run of the game, shook himself loose at left tackle for 20 yards and a first on the Arizona 41. Charley Moutenot cracked through to the 34 but then Tempe braced and held for downs.

David Johnsen Wins Net Meet As 'Y' Celebrates New Year's

Electric Trains Whirl, Ju-Jitsus 'Jit,' Fencers Fence as Varied Program Is Run Off

David Johnsen, City of Washington tourney tennis champion, defeated Hugh Lynch in straight sets yesterday at the Y. M. C. A. in the climax event of the annual New Year's Day "open house" program, an 8-hour show that even included electric train races.

Johnsen won, 6—1, 6—2, and then paired with his father, R. S. Johnsen, to lose in the doubles to Lynch and Lieut. J. T. Farrin 6—3, 6—2.

In addition to the competitive sports, basketball, tennis, volleyball, handball, squash rackets, swimming, badminton and indoor hockey, exhibitions were staged in jiu-jitsu, fencing, weight-lifting, gymnastics and tumbling. Chess and checkers were also on the program, with W. B. Mundelle the featured player.

Schwartz Winner

Jack Schwartz, the perennial handball champion, won the fourth annual "Y" Holiday Tournament, defeating Gustave Goldstein in the finals, 11-21, 21-10, 21-10. The winner then paired with Paul Pearlman to defeat Walter Englehardt and George Newman in the doubles, 21-20, 21-20.

Dr. J. A. O'Donoghue won the squash rackets event, defeating Lincoln Fairley, 12-15, 15-6 and 15-7 in the title round.

John Edwards, Alvan Crews and John Bender were all double winners in the junior swimming championships, Edwards in the prep class, Crews in the junior and Bender, the senior.

Richmond's volley ball team took the odd game from the Washington representatives, 15-7, 8-15, 15-12.

The court feature went to the Y. M. C. A. five that defeated Calvary M. E., 41-39, in an overtime period. The "Y" Flashes won over United Brethren, 17-10, the varsity defeated Library, 30-26, the Eagles lost to Gonzaga Bantams, 48-12, while the Woodward School Varsity five defeated the Alumni, 14-8.

Arthur C. Pearson was chairman.

A New Year's Day ball concluded the program.

JUNIOR SWIMMING CHAMPIONSHIPS

Prep Class

80-foot free style—First, John Edwards; second, Ernest Gonzales; third, William Rector. Time, 32.2 seconds.

80-foot breast stroke—First, John Edwards; second, Charles Manson. Time, 28.1 seconds.

80-foot back stroke—First, Ernest Gonzales; second, Philip Irwin; third, Lester Allison. Time, 31.5 seconds.

Junior Class

80-foot free style—First, Alvan Crews; second, Bill Reinhart; third, Allan Price. Time, 17.6 seconds.

80-foot breast stroke—First, Richard Ayres; second, Bob Coombs. Time, 32.3 seconds.

80-foot back stroke—First, Alvan Crews; second, Allan Price; third, Bill Reinhart. Time, 22.9 seconds.

Intermediate Class

50-yard free style—First, Jimmy Poyner; second, Albert Baiss; third, John Druckenbrod. Time, 31.0 seconds.

50-yard breast stroke—First, Jimmy Poyner; second, Jimmy Walters; third, Don Shenk. Time, 44.3 seconds.

50-yard back stroke—First, Jimmy Walters; second, Don Shenk. Time, 46.4 seconds.

Senior Class

50-yard free style—First, John Bender; second, Robert Means; third, Bob McCulloch. Time, 27.2 seconds.

50-yard breast stroke—First, John Bender; second, Adolph Schick. Time, 34.5 seconds.

50-yard back stroke—First, Don Wyvell; second, Al Kenner; third, Bob McCulloch. Time, 38.1 seconds.

100-yard free style—First, Robert Means; second, Don Wyvell; third, Al Kenner. Time, 1:06.9.

Judges and timers—H. Beatty, R. Ayres, C. Meade, D. Jenkins. Scorer—B. Marsh. Referee—H. Nosse.

Western High Defeats Terp Frosh, 26-24

Western High School courtmen upset the University of Maryland freshmen in an overtime game yesterday at College Park, 26-24, for their third consecutive victory. It was the first start for the losers.

The teams battled to an 11-all tie at the half and maintained the same scoring pace in the next two periods as the regulation game ended in a 22-all tie.

Jimmy Karas opened the overtime period with a field goal, and Lumpkin followed with a two-pointer for one of the biggest margins of the day, 26-22. Horn scored for the baby Terps to close the gap to two points and they last two opportunities from the foul line to tie the score, missing both shots.

Karas and Lumpkin set the scoring pace for the winners, while Floyd was the only member of the losers to connect for more than one field goal, leading the scorers with ten points.

Frank Judson, Eustace Meet In Mat Prelim

Ex-Harvard Mentor Meets Kansas Farmer In Seminal Bout

Two clean exponents of catch-as-catch-can wrestling—Frank Judson, former Harvard wrestling coach, and Alan Eustace, Wakefield, Kans., farmer—have been matched for the semiwindup on Thursday night's card featuring the recognized world's champion, Jimmy Londos, in a title bout against Bob (Strangler) Wagner at Turner's Arena.

Eustace was developed by Farmer Burns and today boasts of one of the finest scissors in the business.

Judson in his first appearance here in four years, following a South American tour, beat "Bad Boy" Brown last year, while Eustace walloped Ed Newman on the same card.

Also enlivening the Thursday proceedings will be the debut of Tarzan White, New York pro Giants' lineman, who meets Chief White Feather. Tarzan has a draw with Jim Londos to his credit.

Navy Resumes Court Drills

Special Dispatch to The Post

Annapolis, Jan. 1.—Members of the Navy basketball squad reported to Head Coach Johnny Wilson at the armory this afternoon in advance of the other midshipmen, in order to get in a practice preparatory to the initial game of the schedule against Columbia here Saturday.

The other midshipmen reported at evening formation and work in all other winter branches of sports, boxing, wrestling, fencing, gymnastics, swimming and small-bore rifle shooting, will be resumed tomorrow afternoon. All except gymnastics open schedules this month.

Mike Hanley, former Western High basketball player who captains Navy this year, was the only player Wilson would name as a likely starter against Columbia Saturday. Norm Lee, also a regular guard last year, is having stiff opposition this season from Walter Shaffer, of last year's squad, and Roy Falconer, plebe guard of last season.

Charley Smith, the big reserve center of the eleven, and Phil Gutting, high scorer of last year's plebes, are leading at center. Gutter was late in reporting, but promises to be the leading point maker of the Navy five this season.

May Attacks 'Success Story' Of TVA Profit

Charges Annual Report Is Designed to Win More Appropriations

By the United Press

Representative May (Democrat), of Kentucky, charged yesterday that the Tennessee Valley Authority's annual report to Congress was a "glowing success story" designed to induce Congressional an public support for increased TVA expenditures.

In publishing its report Sunday, the TVA announced net earnings of its power operations in the fiscal year 1939, the sixth year of its existence, totaled $5,507,000, an increase of 135 per cent over those of the preceding year. The 1939 sum, the authority said, was sufficient to wipe out net expenses of the power program in the previous five years and still leave it $900,000 ahead.

May, a bitter critic of the TVA power program, said the report "created the impression" that the TVA "at last is out of the red and beginning to pay its way." This impression, he added, "is not borne out by the facts."

He listed three factors which he said "blacken the pretty picture designed for public consumption by TVA word painters:"

The TVA "displaced and destroyed" many privately owned power companies that annually paid the Government millions of dollars in taxes.

TVA will "continue to be another millstone on the necks of Federal taxpayers" until it pays "a reasonable rate of interest" on funds appropriated by Congress to purchase "income producing property."

TVA has a 60 per cent "write-off from power charges" for navigation and flood-control facilities.

Asserting that the Authority is not "worthy of trust and good faith," May said:

"Honesty is the only policy on which decent democratic self government can survive. When the rule of common honesy is applied to TVA we may perhaps save something from the mess of what TVA has become. The time cannot come too soon."

Liner St. Louis Runs British Sea Blockade

Berlin, Jan. 1.—Another ship of the hunted Nazi merchant fleet, the 16,732-ton Hamburg-American liner St. Louis, reached "a home harbor" today after slipping through the British naval blockade, it was reported.

The official news agency's announcement of her arrival gave no clue to the course of her wanderings since she slipped out of New York August 27, but informed sources said she had been one of 16 German ships which found haven at Murmansk, Russia's Arctic port, soon after the war's outbreak.

Many of these, including the great 51,731-ton Luxury Liner Bremen of the North German Llyod, already are back home.

The St. Louis had been abroad for seven months. She was the fifth and last of the Hamburg-American's crack North American liners to reach home safely since the war began. The others are the Deutschland, New York, Hamburg and Hansa, all of more than 21,000 tons. The New York was one of the 16 at Murmansk.

Gradually these ships have been navigating the perilous sea lanes back to Germany, those from the Arctic apparently having better luck than others.

The Columbus, third largest unit of the Nazi merchant fleet, was scuttled off the Virginia coast December 19 and her crew brought to New York, and the fast Cap Norte was taken to Britain as a prize. A dozen other ships took refuge in South American or African ports and were captured or scuttled by their crews.

The St. Louis was in the headlines last spring when she carried 900 German-Jewish refugees to Havana, where authorities permitted only a few to land. The St. Louis carried the rest—a despairing shipload—back to Europe, where they were given temporary refuge in Britain, France, Belgium and the Netherlands.

Thanksgiving Day Dispute Goes On Into New Year

New York, Jan. 1 (AP).—That running debate President Roosevelt set off by moving Thanksgiving from the last to the penultimate Thursday in November goes right on into 1940.

Although the President already has marked November 21 for this year's Thanksgiving, there is no unanimity among the calendar makers on the subject that split the Nation's turkey-eaters by a week in 1939.

Examination of the calendars that have arrived from the butchers and the bakers shows that some come out steadfastly in the "last Thursday" tradition, others unequivocally red-letter or circle November 21 and some waveringly mark both November 21 and 28. The Farmer's Almanac just says "November 21?"

One organization issued a calendar with a turkey's neck twisted like a "?" on both dates.

Dual Personality Owned by Titan

Detroit, Michigan.—Speaking of Dr. Jekyll and Mr. Hyde personalities, take the case of Casimere B. Brovarney, left guard on the University of Detroit football team.

Off the field, Mr. Brovarney was one of the mildest-mannered, quietest, shyest young men you would ever meet. He's just the best-natured fellow in the world. But-after that starting whistle blew, he was what writers of pulp magazine stories call " a fiend in human form." Line Coach "Bud" Boeringer, who was rough and tough enough to win the All-American center job while at Notre Dame, says, 'Cas' was one of the most vicious men he ever saw on a football field."

"I've seen some hard-going fellows in my time, but this one is right up with any of them," says Boeringer. "He seems to go crazy with the sheer joy of smacking people down."

11 Students, Lost 12 Hours, Found By Bloodhounds

Haverstraw, N. Y., Jan. 1 (AP).—Eleven New York City College boys and girls on a holiday hike were lost in the freezing, snow-covered mountains near here for 12 hours last night, but were found early today by State police searchers with bloodhounds.

The 11 were among a party of 15 who had come to celebrate New Year's Eve at a hotel here.

They had started out yesterday morning, but two trail-blazers who went ahead of the rest came back yesterday afternoon and said they had lost them. Two other stragglers returned soon afterward.

The lost students, sought first on Dunderberg Mountain, finally were found on Mount Timp, 7 miles away.

They had followed the trail blazed. When found they were building a fire.

The students were all from the evening session of City College.

They took no food, the hotel reported, and fully expected to return the late afternoon or early evening in time to watch the old year out.

Police from Orange County and Palisades Park at Bear Mountain also were called into the search.

Temperatures at the riverside were around 10 degrees above zero.

$12,000,000' Asked to Equip Boosted Army

Funds for Equipment Included in Budget Item for Expansion

The emergency expansion of the Army, ordered by President Roosevelt because of the European war, yesterday was revealed to include nearly $12,000,000 for new weapons and equipment as well as additional men.

Deficiency budget estimates submitted to Congress some weeks ago to pay for neutrality enforcement and defense measures directed by Presidential order in September were disclosed by reliable sources to provide the additional arms.

Earlier official statements had indicated that the emergency funds only provided for personal expansion, additional training for the Army, and the commissioning of laid up ships for neutrality duty.

The increased armament was said to include:

About 50 anti-aircraft guns with sound locators and fire-control instruments, plus a quantity of machine-guns, and tractors for towing artillery; more than $500,000 for ammunition, and other ordnance material.

A number of 10-ton pontoon bridge units capable of handling most of the Army's heavy tanks, together with nearly 250 assault boats.

More than 1,600 trucks to advance the motorization of the National Guard.

The Army is also understood to be seeking funds for several aircraft bombing ranges in various sections of the country. Large tracts of unoccupied land are necessary if new pilots are to perfect their aim in dropping aerial bombs. A 200,000 acre tract in Washington, near McChord Field is sought, together with tracts in California and Alabama or Florida.

Emergency funds for the Army in the deficiency estimate total $120,000,000, a large part of which is for pay, food and housing for 22,000 additional men in the Regular Army and 45,000 more for the National Guard, now being recruited.

Approximately $16,000,000 is included for motorization of the five "stream-lined" infantry divisions, orders for which have largely already been placed. Additional funds go for special training of the divisions this winter.

Hitler Sending Blonde Admirer Home to England

London (Tuesday), Jan. 2 (AP).—Unity Valkyrie Freeman Mitford, blonde daughter of Lord Redesdale and probably the closest British woman friend of Adolf Hitler, is expected to return to her native land today—on a stretcher.

Hitler, it was reported here, arranged the carefully guarded journey.

The London News Chronicle reported that Unity, who was in Germany at the outbreak of war and has been there ever since, was given every facility for the trip by the German Fuehrer, including a special ambulance-type railway car through the Reich. Some British reports have said she is suffering from pistol wounds.

The 25-year-old British girl has been an admirer of Hitler for several years. Hitler is supposed to have spoken of her as "a perfect type of Nordic beauty."

Her family learned on Christmas Eve she was returning to England. They also were told she had met with an "accident" in Munich August 9. She is due at a south coast port at noon today.

Curran Assails Sale of 8 Liners

New York, Jan. 1 (AP).—Joseph Curran, president of the National Maritime Union (C. I. O.), charged today that the U. S. Maritime Commission was "working hand in glove with those elements in the United States, which include ship owners, who are trying to involve us in the war."

He referred to the commission's approval of the sale of eight U. S. liners to the North Atlantic Transport Co., a Norwegian corporation, and added:

". . . It is significant that the U. S. Lines holds 40 per cent of the stock of this Norwegian Co.; who owns the other 60 per cent nobody knows."

15 New Years' Babies Born in Baltimore

Baltimore, Jan. 1 (AP).—Fifteen babies were born in Baltimore on New Year's Day. The stork's first 1940 delivery was a girl for Mrs. Anjhony Simone.

A. F. L. Protest May Get Court Ruling Today

Putting Longshoremen In Single Voting Unit Is Point at Issue

By the Associated Press

The Supreme Court may rule today on the American Federation of Labor's protest against a National Labor Relations Board decision giving the C. I. O. exclusive bargaining rights for all Pacific Coast longshoremen.

Contesting the board's action, the Federation argued that the longshoremen of each individual employer should have been permitted to choose their representatives. Instead, the longshoremen of the entire West Coast were grouped into one voting unit.

The Federation's suit was dismissed by the United States Court of Appeals for the District of Columbia. It held that it had power to pass only upon "final orders" of the Labor Board and that the certification of the C. I. O. was not a final order.

In reply, the Federation asserted that the effect of the certification was "final" because its West Coast locals were "being disrupted" and their membership "was being destroyed."

Two other disputes over Labor Board orders are included in the 22 cases which the court has under consideration.

One of them involves the right of the board to place the name of only one labor organization (a C. I. O. affiliate) on a run-off election ballot to determine collective bargaining representation for employes of the Consumers Power Co. of Jackson, Mich.

The third labor case presents the question whether workmen belonging to a labor organization ordered disestablished by the labor board may again choose that organization as their bargaining agency.

The Labor Board argued in all three cases that the lower courts lacked jurisdiction to decide the issues, since "final orders" were not involved.

Grasp Leadership, Butler Urges U. S.

Copyright, 1939, by New York Tribune, Inc.

New York, Dec. 31.—Dr. Nicholas Murray Butler, as president of the Carnegie Endowment for International Peace, called on the American people today to "grasp leadership" in a movement for "world-wide cooperation."

He issued a statement in which he said "they must no longer delay in accepting and vigorously acting upon" the peace program drafted at London in March, 1935, under the auspices of the endowment.

This program called for a reduction in tariff barriers, currency stabilization on gold, strengthening of the League of Nations and the Court of International Justice, checking the growth of armaments, establishment of a method of consultation to prevent wars and cooperation to "raise the standards of living of the several peoples."

The Weather

Weather Conditions

U. S. Dept. of Agric.—Weather Bureau, Washington, Monday, Jan. 1—7:30 p. m.

Forecasts

For District of Columbia—Fair and continued cold Tuesday and Wednesday; moderate northwest or west winds.

For Maryland—Fair and continued cold Tuesday and Wednesday except light snow flurries in extreme west portion Tuesday.

For Virginia—Fair and continued cold Tuesday and Wednesday except light snow flurries in extreme northwest portion Tuesday.

Weather Conditions

A disturbance of wide extent is centered over the Gulf of Alaska and moving slowly eastward. Kotzebue, Alaska, 992.6 millibars (29.31 inches), and it has been attended by rain over most sections west of the Rocky Mountains. Light snow has fallen in the Rocky Mountain region, the northern Plains States and the Missouri Valley, and over the Lake region, the Ohio Valley, Tennessee, the Appalachian region, and portions of the Carolinas and southern Virginia. A wave disturbance that is moving rapidly eastward is central tonight about 500 miles east of the Virginia Capes with lowest pressure about 996 millibars (29.41 inches). Pressure is high and rising over the Plains States, the West Gulf States, and the Great Central Valleys. Pierre, S. Dak., 1032 millibars (30.48 inches) and pressure is relatively high over southern California. Los Angeles, 1020.0 millibars (30.12 inches). Abnormally cold weather prevails from the Plains States eastward to the Atlantic Coast, on temperatures from 15 to 25 degrees below normal over much of this area. Weather is mild west of the Rocky Mountains.

Local Weather Report

Temperatures—Midnight, 22; 2 a. m., 21; 4 a. m., 20; 6 a. m., 18; 8 a. m., 17; 10 a. m., 19; 12 noon, 23; 2 p. m., 24; 4 p. m., 23; 6 p. m., 21; 8 p. m., 20; 10 p. m., 19. Highest, 25; lowest, 17.

Relative humidity—7:30 a. m., 39; 1:30 p. m., 40; 7:30 p. m., 45. Rainfall (7:30 p. m. to 7:30 p. m.), none. Hours of sunshine, 5.5. Per cent of possible sunshine, 58.

Help—Male 12

OPENING FOR WORKER
YOU MAY BE OUR MAN
THIS MAY BE YOUR OPPORTUNITY
New Merchandising Idea
SEE MEN GETTING BIG INCOMES

An unusual chance for the right man. You have been looking for something a man of average ability can make money with. We have that. Maybe you have heard gilded promises and spectacular claims, and have begun to be skeptical. I hardly blame you—but ask you to be open-minded and as frank with me as we are with you. Would you put in hours—study—energy—if given the same chance as men earning $40 to $125 per week in commission? We have men doing this.

Nothing else resembles our electrical product in any manner—yet it's a necessity! The way we sell it is new—productive—different—yet tested. We set a man up, supply every service he needs to build himself a profitable business of his own—WITHOUT INVESTMENT—with benefit of full training, all necessary equipment supplied free. Five places available now.

We don't know if you are the man. But if you're 25 to 55 years of age, married, trustworthy, a worker, we advise you not to try to guess if Opportunity is knocking for You, but go and see. If it is, your connection here will be a permanent one, with income not subject to declines, and a good future with a very strong, money-making enterprise. Investigate now. That much at least you owe your family. Ask for Mr. Sillings, at Room 205, Denrike Bldg., 1010 Vermont Ave. N.W., between 9:30 and 12:30, Wednesday morning.

SUPERMAN — Superman's Guess Confirmed — By Jerry Siegel and Joe Shuster

THERE'S SOMETHING MIGHTY PECULIAR ABOUT THE AJAX NEWS AGENCY ANNOUNCING THE DESTRUCTION OF THE DAM BEFORE IT OCCURRED. I THINK I'LL GIVE THAT OUTFIT THE ONCE-OVER!
SUPERMAN'S FIGURE COMETS DOWNWARD! AN OUTTHRUST HAND CATCHES THE WINDOW LEDGE OF THE NEWS AGENCY'S OFFICE . . .
IN THE ROOM . . .
FOOL! YOU SENT OUT THAT NEWS DISPATCH HALF AN HOUR TOO EARLY!
IT WAS AN UNFORTUNATE MISTAKE! I NEVER INTENDED . . . OUR SUPERIORS HAVE WAYS OF "DISCOURAGING" MISTAKES, GIGGI!
MY GUESS WAS RIGHT! THESE MEN ARE RESPONSIBLE FOR THE DISASTER. WELL, HERE'S WHERE THEY GET A TASTE OF DISASTER!
302.

JOE PALOOKA — The Bertillion Files. — BY HAM FISHER

THERE'S TWO CROOKS IMPERS'NATIN' JOE PALOOKA OVER TO OUR TOWN AN' THE CHIEF WANTS ME T'LOOK OVER YOUR ROGUES GALL'RY.
SURE. COME IN. I'LL TAKE YOU TO THE PICTURE ROOM.
SMELLS LIKE A GOOD STORY SERGEANT.
FIND ANY THING?
NOPE. NOT YET. BUT THEY OUGHTA BE IN THIS HERE ASSORTMUNT.
WOULD YOU KNOW WALSH AND PALOOKA THEMSELVES?
WAL--CAN'T SAY I WOULD--AINT NEVER SEEN 'EM--BUT OUR PRIS'NERS CERT'NLY AINT THEM!
CITY DESK? LISSEN, SEND ME A COUPLE OF PICTURES OF JOE PALOOKA AND KNOBBY WALSH IN CIVILIAN CLOTHES. THIS IS MIKE. I'M OVER AT POLICE HEADQUARTERS.
MIKE, THE REPORTER GOES INTO ANOTHER OFFICE AND CALLS THE CITY DESK. HE SUSPECTS NOTHING--AND JUST WANTS TO KID THE COP FROM ASHTON.

WINNIE WINKLE — Notorious Notables. — BY BRANNER

SAY--WHAT YOU THINKIN'--A COUPLE OF BIG-TIMER SOCIETY PIPPLE IS JUST COMING IN OUT THERE!
YES?..I MUST TAKE A PEEK!
WHY, SURE ENOUGH! IT'S NICKIE SHERINGTON, THE DEBUTANTE, AND DON DERRY!
BILL, WHO DO YOU THINK IS OUT THERE? NICKIE SHERINGTON AND DON DERRY!
WHO ARE THEY? A COUPLE OF GANGSTERS?
DON'T BE SILLY, BILL! THEIR PICTURES ARE IN THE PAPER AND LOOK WHAT THIS COLUMNIST SAYS--
DONALD VAN COURTLAND DERRY, SOCIALITE, IS THAT WAY ABOUT NICKIE SHERINGTON, GLAMOUR DEB, WHO CAME OUT IN A FIFTY GRAND SPLURGE EARLIER THIS SEASON--THEY ARE NIGHT CLUBBING NIGHTLY AND THE RUMOR IS THEY PLOT A KNOT!
1-3-40

MR. AND MRS. — Ain't It the Truth! — BY ARTHUR FOLWELL AND ELLISON HOOVER

WHAT'S THE GRAND CLEAN-UP FOR?
JUST A LOT OF HOLIDAY WRAPPINGS
LEMME HAVE A LOOK AT 'EM BEFORE YOU THROW 'EM AWAY
WHAT YOU LOOKING FOR?
CONSIDERING WHAT CHRISTMAS HAS COST ME, THOUGHT I MIGHT FIND A LABEL—
I DON'T GET YOU
NOW THAT THE CHRISTMAS BILLS HAVE COME IN, I THOUGHT THIS MIGHT LOOK WELL ON ME. ME!
BREAKABLE

NAPOLEON AND UNCLE ELBY — BY CLIFFORD McBRIDE

FLASH! RADIO LISTENERS; HERE ARE THE LATEST REPORTS FROM THE TROUBLED NATIONS OF WAR TORN EUROPE.
SOLDIERS ARE DROPPING BEHIND THE LINES IN PARACHUTES; FOLKS, BUT BEFORE THEY LAND LET US REMIND YOU OF OUR GIGANTIC SALE OF UNCALLED-FOR SUITS AND OVERCOATS - - -

SPENCE EASLEY — BY JACK PATTON

THE IDEA OF MY KIDDIES HAVING TO JUST PLAY IN THEIR OWN ROOM!
WE'D BETTER HURRY BEFORE YOUR MOTHER GETS BACK FROM THE BEAUTY PARLOR
HOPE DOLLY DOESN'T GET TOO ANGRY
DOLLY, DON'T GET EXCITED THIS IS HOME!!
1940 The Register & Tribune Syndicate

Private Lives — By Edwin Cox

PRINCESS JULIANA OF HOLLAND
FINDS NO HARDSHIP IN THE WARTIME RESTRICTIONS ON GASOLINE. SHE LOVES TO RIDE IN A HORSE-DRAWN CARRIAGE, NOW DOES SO NEARLY EVERY DAY.
BLISS
BEFORE HE CRASHED THE MOVIES TO BECOME DEANNA DURBIN'S LEADING MAN, BOBBY STACK WAS KNOWN TO EVERY SKEET SHOT IN AMERICA. HOLDER OF THE WORLD'S 20-GAUGE TITLE, BOBBY HAS TWICE TAKEN SECOND PLACE IN INTERNATIONAL SKEET CHAMPIONSHIPS.
THE PRESIDENT'S FAMILY IS VERY PROUD OF THIS NEW CLOCK. IT SHOWS BOTH PACIFIC AND EASTERN TIME, SO MRS. ROOSEVELT CAN KNOW WHEN TO CALL UP HER CHILDREN IN SEATTLE AND LOS ANGELES.
1-2-40

Contract Bridge

By Florence Osborn.

Charles Goren, one of the country's leading players, demonstrates how he obtained that position in

Today's Hand

Neither Side Vulnerable

NORTH DEALER

Becker
♠ K 6 2
♡ K 7 3
◇ K 10 9
♣ A K 10 6

♠ 9 7 — ♡ 8 5 4 2 — ◇ J 8 6 2 — ♣ Q 9 8

Goren
♠ A Q J 10 5 3
♡ A Q J 10
◇ None
♣ 4 3 2

♠ 8 4 — ♡ 9 6 — ◇ A Q 7 5 — ♣ J 7 5

The bidding:

North	East	South	West
1 ♣	1 ◇	1 ♠	Pass
1NT	Pass	3 ♡	Pass
3 ♠	Pass	4 ◇	Pass
5 ♡	Pass	7 ♠	Pass
Pass	Pass		

Opening lead: 2 ◇.

his execution of a rare squeeze coup on today's hand.

West led the diamond deuce, which revealed to Goren the placement of the diamonds. The diamond nine was played from dummy. East put on the queen, and South trumped. Goren played all the trumps but one, then all the hearts. This was the situation on the last heart:

North: ♠ None, ♡ None, ◇ K 10, ♣ A K 10
West: ♠ None, ♡ None, ◇ J 8, ♣ Q 9 8
East: ♠ None, ♡ None, ◇ A 7, ♣ J 7 5
South: ♠ Q, ♡ J, ◇ None, ♣ 4 3 2

South leads the last heart, and North discards the club ten.

West discarded a small diamond; dummy the club ten. Declarer entered dummy with a club and led the diamond king East must cover, South trumps; West's bare jack falls and North's diamond ten wins the last trick. If both East and West discard a club, South's small club sets up for the thirteenth trick.

Today's Radio Highlights

Gallant American traces the development of higher education for women—WMAL, 2 p. m.

Commissioner Melvin C. Hazen and Andrew R. Kelley, chairman of the entertainment committee, reveal their plans thus far for the President's Birthday Ball with the stimulus of Post Columnist Louella O. Parsons, Martha Raye, Arleen Whelan, June Preisser, Jane Wyman, Susan Hayward, Joy Hodges and Ronald Reagan—WMAL, 7:30 p. m.

Biographer Carl Van Doren and Screen Actress Gloria Stuart join John Kieran and F. P. A. on that ever-satisfying Information Please—WMAL, 8:30 p. m.

The Court of Missing Heirs dramatizes the whys and wherefores of fortunes that are sitting around waiting to be claimed by rightful legatees—WJSV, 8:30 p. m.

William Cooke, a local husband and father who has been encased since early fall in a mechanical lung in a fight against infantile paralysis, broadcasts from his "iron lung" on We, the People. Bonnie "Oh, Johnny, Oh," Baker is an additional feature—WJSV, 9 p. m.

Burgess Meredith plays Amerigo Vespucci on the first of the new Cavalcade of America series. The drama is based on authentic material prepared by Cavalcade's history-wise research board: Marquis James, Carl Carmer and Dr. Frank Monaghan—WMAL, 9 p. m.

From "Somewhere in France" comes a report from Victor Lusinchi, Mutual's front line representative—WOL, 9:15 p. m.

Listen! with Slocum

Never once, according to Myrtle Vail, of Columbia's "Myrt and Marge," has she had the desire to take her daughter, Donna Damerel, who plays her script daughter, Marge, over her knee and spank her.

Which is just another way of saying that in the eight years mother and daughter have been working together as a radio team, they have never had a squabble.

The two of them sat down one week-end recently and tried to figure out why there had never been a serious disagreement between them.

It all turned out to be very simple. They discovered that unconsciously they had formulated a set of rules. Nothing in black and white, of course, but rules of conduct just the same.

Their first rule, they discovered, was never to let anything interfere with their work. Certain periods of the day are automatically set aside for rehearsal, rewriting and broadcasting. If an emergency comes up which takes more time, appointments are canceled without a question. But the No. 1 rule, which is easy to understand, is—Donna never calls Myrt.

Air Travel 125 Pct. Greater Than in '38

Air passenger traffic here was 125 per cent greater in December than in the same month of 1938, Herbert D. Ford, district manager of American Airlines, announced yesterday.

He also announced inauguration of through service from Washington to Boston. Planes will leave Washington Airport at 11:45 a. m. daily and arrive at Boston Airport at 2:44 p. m. Planes will land at 1:15 p. m. at LaGuardia Field, New York, but passengers en route to Boston no longer will have to change ships.

"The DOCTOR" by MARY ROBERTS RINEHART

Chapter 31

ONCE OR TWICE Beverly tried reading him the occasional letters from Jerry, still training in England and exceedingly cheerful, but he barely troubled to listen. He never really liked Jerry. Now she thought that Jerry might be killed, and it still would not matter to him.

"Why in the name of heaven did he have to choose the air?"

"He likes it, father. He seems happy."

"Well, every fool to his taste."

She did not even know that Chris's division had moved until one day Miss Andrews, Chris's eccentric patient, came to call on her; a determined Miss Andrews facing the great adventure of the streets to do it, stopping uncertainly before venturing into the maelstrom of the traffic.

Beverly found her in the drawing room standing at a window and looking out.

"I suppose you know they've moved on, Chris Arden and all of them? My Mary has a cousin with them, and——"

Beverly stood in the hall after Miss Andrews had taken her leave. She was shaking now, and her knees felt weak under her; but she went quietly enough up the stairs and into her room, locking the door behind her. Alone there she faced the facts. She could not let him go without recognizing before it was too late that some enduring bond held them together. It had nothing to do with their marriages, nothing really to do with romantic love. If they could sit together across a table and talk, just talk together, get back for an hour or two to honesty, so that each would have something to remember, it was all that she would ask.

And on the evening of the third day they were doing just that in a small hotel in downtown New York. Chris in his uniform and she herself across from him, saying to herself that he was sailing that night and that after all she had nothing to say to him. Nothing to say to this strange man who was so determinedly impersonal, and who was grinning at her cheerfully across the table.

"Well, this is splendid. Let's have a real dinner, Beverly. I've eaten mess food for months."

"Christ, are you really sailing tonight?"

"Hush, my child. The waiter is almost certainly a spy, and not more than 100,000 people know about it."

And he was hungry! She watched him eat, marveling after the fashion of women at the ability of all males to eat on the edge of tragedy. He ate and talked, lightly but pleasantly. He was carefully impersonal, as though he had stretched out his arm and held her off. Then, with the coffee, he lapsed into silence. At last he moved and looked at her.

"And that, my darling," he said gravely, "will be that. I'm coming back, of course, but it may be a long time. It can hurt nobody now for us to be honest. That's why you came, isn't it?"

"That's why I came, Chris. I've grown up now I know——"

"You know that I have always cared for you," he said. "I've forgotten you sometimes; we all do that, Beverly. It's our salvation. But I have always loved you. I suppose I always shall."

She was very quiet, looking at him with her direct gaze, like the girl years ago on the doorstep.

"No," she said slowly. "It can hurt nobody now for me to know that, or for you to know what you do. Just to be sure that comebody cares, Chris, that hurts nobody, does it? It makes things easier; and harder, too, in a way. It wasn't necessary, all this. We might have——" She drew a long breath. "Chris, why did you never answer that letter of mine?"

CHRIS STARED at her for a moment, completely bewildered by her question. Rapidly he went back in his mind over those days following his engagement, then in a staggering flash revelation came. As certainly as if he had witnessed the scene, he knew that Katie had destroyed that letter, realized that it was she who had thrust his life away from Beverly's. But Katie was his wife now, and, strengthened by that uncompromising spirit of his, he steadied his voice before he spoke.

"We are not looking back tonight, darling," he told her. "That water is over the dam, and let's forget it. We have a bit of time together, and that's all I ask."

A bit of time it was, for not long after that he looked at his watch and pushed back his chair. Then he leaned forward again and put a hand over hers.

"We may never do this again, Beverly, but this was our hour. I'll carry it with me the rest of my life."

That was actually their farewell. "Send your men off with a smile." But he was not her man. Beverly found herself violently weeping as the cab drove off, and after a time the driver slowed down and turning spoke to her.

"Hard luck, lady," he said. "But I expect he'll come back all right."

"I'm sorry," she gasped. "I'm all right now."

"Fine-looking soldier he makes. I could drive you to the dock, and maybe you'd see him again. You'd have to walk a ways, but I know the transport and where it is."

She could not go back to her lonely hotel room. Not yet, with Chris gathering up his stuff and getting ready to sail. So in the end she did just that, to retain forever in her mind a picture as small as the area under one street lamp, with herself on foot in the shadows, the background a paved yard and a ship, and under that lamp, weighed down with their rifles and blanket rolls, an endless line of men slogging along. They were silent, save for the shuffling of their feet on the stones. They moved out of darkness into the light and then into darkness. The darkness swallowed them. It was as though they had had only that single moment of existence.

But there was no sign of Chris, and at last she turned and went back to the cab.

This is not a story of the war, but of one man who played his own small part in it and emerged perhaps more of a man and certainly a better surgeon. For Chris was always to divide his active life into two parts: before and after that summer of nineteen hundred and eighteen. With only a few weeks in France to the credit of his division, the second battle of the Marne was launched.

He had been shifted about. He was a regimental surgeon now, and he knew what that meant. Along with the other medical officers he was to go forward with the troops to supervise the establishment of first-aid stations; from these the wounded could be evacuated to the field hospitals a few kilometers behind the lines.

He was aware of a suppressed excitement when word came that the division was moving up, and on the last night he wrote the letters which were to go in case things went wrong with him. He wrote four: to Katie first, then to Beverly and Miss Nettie, and last, one to Hiram Mortimer about Ursula's boy.

"I know I have failed you in many ways," he wrote to Katie. "I have wanted you to be happy, but I probably could not have made any woman happy, dear. Among other things, I have been too selfishly engrossed in my work. The failure is mine, not yours; so in case you receive this, I hope you will build yourself a new life, and be happy in it."

There was more to it, as if by very length he could atone for its failure to carry what he could neither feel nor write. But his letter to Beverly was just a line or two:

"Don't grieve, my darling. I have never changed, and—strange how this war makes one think—there may be something Beyond. In that case I shall be there, busy, perhaps, but still the same. Always the same, my dear."

AGAINST the exodus of refugees moved the division, frantically attempting to clear the road, laughing and singing, shouting greetings to the peasants, growling over the delays. "How many kilometers now?" "Why, I could kick a barrel faster than this." And then at last a rise over a hill and a small straggling village, with a few hospital trucks in sight, and Field Hospital No. 1 was located. It was in a schoolhouse, and Chris, making an inventory, felt discouraged at the amount to do and the small time in which to do it. Already the battle was raging fiercely along a wide front, and there were rumors and counterrumors. "Don't get out too much stuff. We may have to retire in a few hours."

The rest of the sanitary train came in. Ambulances appeared from nowhere. Portable stoves, kitchens, tents were set up outside, some of them for gas cases where even the clothing might carry death. Later on the giant disinfectors trailed in, driven by a steam engine and providing a chamber for delousing.

Ted had been appointed a sanitary inspector, and it was at this time that Chris came across him disconsolate in a field.

"Think of it, Chris, 'What did you do in the Great War, Papa?' And I'll have to tell them I was a louse hound!"

Inside the schoolhouse work was already under way, as some of the wounded had preceded them. They sat or lay in the courtyard, silent for the most part, while around them the dust flow and the roar of motor exhausts deafened them. Men were already moving among them, giving those who had not already received it the necessary antitetanus serum. Their faces were streaked with dust and sweat; the line seemed endless.

"Get another tray, and hurry!"

More syringes, more "T's" marked by an iodine cross on the forehead; the line slowly lessening as the litter beds went up or the ambulances were loaded and started back. There were not enough beds. Men lay on their stretchers on the floor, or on the floor without stretchers.

Chris was working at terrific speed. The operating room was small and boiling hot. The men were brought in, their wounds dressed, operations performed when haste was essential, splints applied from the butcher wagon, bandages put on.

"Feel better now, son?"

"Yes, but God, I'm tired, Doc. Lemme lie here won't you?"

But they could not lie there. They had to be moved on, on and back, to make room for the others coming in. They came in hundreds, some only slightly hurt, some to whom the dusty road marked the last journey. The medical personnel grinned at one another when they met—at their reddened eyes, their stained and dirty coats. They ate when they could, or not at all. They seldom slept, except more or less on their feet. Supplies began to give out, and one day a dresser opened a box of bandages and found them packed in newspapers of the date of the Spanish-American War. Chris swore, but he used them.

Then Peters, in charge of the forward battalion aid station, was killed by a piece of shell, and in the emergency Chris was moved up. Close to the front now, the dressing station in a farmhouse already under fire and soon to be abandoned, guns roaring, shells exploding, and even then some of the ambulances being withdrawn. He had had no real sleep for days, and his eyes were red with dust and fatigue when at last he reached the station in complete darkness, and stepped through the curtain of gas blankets into a feeble candlelight.

He was exhausted, but there was no time to rest. There were hemorrhages to be stopped, quick field dressings to apply. He worked all that night and the next day, until at last he turned dizzy on his feet and found a corner to rest in. He had been on his feet for more than 36 hours.

THERE CAME a time when Chris and the others worked in gas masks in the heat, an added torture; and the number of wounded steadily increased. They covered the floor, cringing as shells exploded near by, but otherwise silent. They came in faster than they could be sent back, and supplies were exhausted before they could be replaced. And at last one night the dressings were almost completely used up, and Chris, with no personnel to spare and ready to steal the stuff if he had to, went outside to look for a motorcycle with a sidecar.

There was none to be found, but he discovered an orderly riding one horse and leading another. Chris stepped out of the darkness and stopped him. "Where are you taking that mount, fellow"

"To Black Jack Pershing," he said.

Chris merely reached up a long arm and grabbed a bridle. "Tell Black Jack to take a little walk," he said pleasantly and, jerking the lead rein free, was up and off into the dark.

He was always to remember that night ride of his, the road congested with men, machine-gun outfits, and camions, all moving forward, halting, going on again. In spite of all rules, it was a sluggish river, and military police were helpless against the inevitable flow.

He returned at dawn to find that a shell had made a direct hit on the station and that most of his personnel were either dead or wounded. He stood there in the gray light, sick and dazed. One of his dressers saw him and came on a run.

"We've got to get you, Captain," he said. "It's all gone. Everything."

"There's still the barn," said Chris stolidly.

They moved there, and the work went on. Now the war became a barn to him; a barn filled with wounded who came and went, with light from candles that swayed and dripped in the heat, and with ordors that ranged from the ammonia of the old floor to that of blood, sweat, and dirt.

"Wipe my face, somebody. It's hot as hell in here."

"Better get out of here, Captain."

"We can hang on a bit longer."

They hung on. There was no past and no future, only this hour and perhaps only this minute. The night came, however, when they were ordered out. Chris watched them go, and he was still watching when two exhausted stretcher bearers carried in a badly wounded man. They put the stretcher on the ground for breath. Chris bent over the stretcher.

"Hello, son. Let's see what you've got here."

"I've got plenty," said a weak but familiar voice.

It was Dick Walters.

WON'T DAD AND MOTHER BE SURPRISED! BY THE WAY, WHAT DO YOU HEAR FROM MY GLOBE-TROTTING PARENTS?
I- I SHOULD LIKE A FEW WORDS WITH MRS. WORTH - ALONE!

Rep. Ashbrook, Of Ohio, Dies After Stroke

72, He Was Serving His Tenth Term; Backed Soldiers' Aid

Representative William A. Ashbrook (Democrat), of Ohio, died at his home in Johnstown, Ohio, last night after a paralytic stroke Sunday. He was the fifth Representative to die since the close of the special session of Congress November 3.

ASHBROOK

Ashbrook, 72, was serving his tenth term from the Seventeenth Ohio District. After his first election to Congress in 1906, he was re-elected to successive terms until 1920 when he was defeated in the Harding landslide of that year by 123 votes. He was returned to Congress in 1934.

Sponsored Soldier Pensions

He was credited with sponsoring more soldier's pension bills than any other Representative.

Representative Ashbrook was ill in Washington in October but had improved until he was stricken Sunday. His Washington residence was George Washington Inn.

Was Publisher, Banker

His career had encompassed newspaper publishing, banking and farming. In his youth he became editor and publisher of the Johnstown Independent, and later served for four years as secretary of the National Editorial Association. He was president of the Johnstown Bank, having entered the banking business in 1920.

His wife, the former Marie G. Swank, of Bellville, Ohio, whom he married in 1920; three sons and two daughters survive him.

The other Representatives who have died since the special session were Carl E. Mapes (Republican), of Michigan; J. Will Taylor (Republican), of Tennessee; William I. Sirovich (Democrat), of New York, and John Andrew Martin (Democrat), of Colorado.

Taylor's unexpired term has been filled by the election of John Jennings, jr. (Republican), of Knoxville, in Tennessee's Second Congressional District December 30.

Old Inhabitants Keep Rendezvous With Tradition

The Association of Oldest Inhabitants kept rendezvous with an outmoded tradition yesterday, but had a good time all the same.

The practice, abandoned sometime ago, was to visit the White House each New Year morning and be greeted by the President. But the association clings to the practice of New Year morning meetings and 26 members assembled at their hall, the Old Union Engine House, Nineteenth and H streets northwest.

They heard John Clagett Proctor read the chronicles of 1939. Then they referred to a special committee a resolution opposing any reduction in the number of Washington firemen and appointed committee chairmen, as follows: Finance, L. A. Carruthers; membership, Jesse C. Suter; entertainment, Dr. Hugh M. Smith; sick, John B. Dickman; building, hall and archives, James F. Duhamel; special building, Charles A. Langley, and special committee on renovation, Jesse C. Suter.

Fliers Marooned 15 Hrs. in Seaplane Till Ice Forms

Baltimore, Jan. 1 (AP).—Chilled and hungry, two men who had been marooned on Bear Creek all night in a hydroplane walked ashore over ice today while police and Coast Guardsmen serached for them.

William Kennedy and Werner Ulbersax, employes of the Glenn L. Martin Aircraft Co., walked into the lunchroom at Logan Field early this morning and thawed themselves out with hot coffee.

They took off late yesterday, Kennedy said, and were forced down on the creek.

"We thought somebody would see us and come out and get us," he said. "But apparently that didn't occur to anybody—if they did see us. So we spent the night in the plane. We were there about 15 hours.

"About 8 o'clock this morning the slush had frozen hard enough for us to walk ashore. So we got out and walked to Logan Field. The plane isn't damaged. We're going to get a motorboat, get out and break the ice and tow her back to her moorings."

Foreign-Born Conference Topic

Twenty-two Congressional bills designed to encourage and aid foreign-born persons to achieve American citizenship will be discussed March 2 and 3 at the fourth annual conference of the American Committee for Protection of Foreign Born, Dr. William Allan Neilson, co-chairman of the conference, announced yesterday.

Dr. Neilson said the pending legislation is "an attempt to overcome in an American way the difficulties faced by the noncitizen in his sincere desire to become an American citizen." Earnest Hemingway will serve with Dr. Neilson as joint chairman.

Man Dies of Exposure In Baltimore

Baltimore, Jan. 1 (AP).—An unidentified man died of exposure today, aftermath of Baltimore's coldest weather of the winter.

The temperature dropped to 14 degrees in the suburbs and to 18 in the downtown section as the New Year blew in. The forecast was for even colder weather tonight.

Navy Yard Group To Honor Johns, Retiring at 68

William C. Johns, 68, assistant storekeeper in the Washington Navy Yard supply department, retiring after 32 years of service, will be honored at noon today with a testimonial party by fellow workers. The function will be in Building 176 at the Navy Yard.

Johns said yesterday he hoped to "keep on having a good time" and expected to make trips by train and bus in Maryland, Virginia and Pennsylvania. He is a native of Chambersburg, Pa.

In recent years, he has been in charge of technical stores, including high explosives, at the yard. His home is at 1415 S street southeast.

Army to Join In Tribute to Fechner Today

Band Will Play at Arlington Burial; Host Of Notables to Attend

The United States Army Band will play at the burial of Robert Fechner, director of the Civilian Conservation Corps, in Arlington National Cemetery this afternoon, the firsttime in more than four years that the service band has been called out for a civilian funeral.

Orders for the band to move to the Fort Myer gate of the cemetery at 2 p. m. today went out to its leader, Capt. Thomas F. Darcy, late yesterday. It was the War Department's gesture of last homage to Mr. Fechner whose 6-year supervision of the activities of nearly 2,500,000 CCC enrollees brought him into close contact with many Army leaders.

The last civilian to be so honored, War Department officials said last night, was the late Oliver Wendell Holmes, justice of the Supreme Court, March 8, 1935.

Rites Not Military

Government officials in charge of service arrangements said that the funeral was in no sense to be a military one, although Mr. Fechner was a Spanish-American War soldier.

Friends and associates in the CCC and other Government agencies identified with it, and men who knew Mr. Fechner before he entered the Federal service, will accompany the body as honorary pallbearers. Services will start at 1 p. m. in the S. H. Hines funeral home, 2901 Fourteenth street northwest. Enrollees from CCC camps in Rock Creek and Fort Dupont parks will be active pallbearers.

Honorary pallbearers will be Paul V. McNutt, Federal Security Administrator; J. J. McEntee and Charles H. Taylor, assistant CCC directors; Brig. Gen. George P. Tyner, representative of the War Department on the CCC advisory council; Fred Morrell, Department of Agriculture representative; Conrad L. Wirth, Department of Interior; Brig. Gen. Frank T. Hines, administrator of veteran's affairs; C. W. Bailey, Veteran's Administration; Gen. George C. Marshall, chief of staff, U. S. Army; Maj. Gen. Frederick W. Coleman, governor of the U. S. Soldiers' Home; A. E. Giegengack, the public printer; E. C. Davison, general secretary-treasurer, International Association of Machinists; Harvey W. Brown, president of the association; Fred D. Laudemann, vice president; Fred Hewitt, editor of the Machinists' Journal, and John P. Frey, president of the Metal Trades Department of the A. F. of L.

Hull Pays Tribute

Mr. Fechner, ill since November 20, died Sunday morning in Walter Reed Hospital. Secretaries Hull and Woodring headed a long list of Government officials and other leaders who joined in paying him tribute yesterday. President Roosevelt paid such a tribute Sunday.

"I was most distressed to learn of the passing of your husband," Hull wrote Mrs. Fechner. "His great accomplishments will long be remembered, and in his death the country suffers an irreparable loss."

"I think Robert Fechner was one of the finest characters and most generous executives that it has been my experience to be associated with in the past several years," declared Woodring.

William Green, president of the A. F. of L., described Mr. Fechner's death as "a real loss, not only to the CCC, but to the American labor movement with which he has been so closely connected since boyhood."

Others who mourned Mr. Fechner's death included Giegengack, Brown, Frey, Taylor, Gen. Tyner, Representative Jed Johnson, Maj. Gen. J. A. Woodruff, commander of the First Corps Area; Mary Anderson, head of the Women's Bureau, Department of Labor, and Maj. Gen. Stanley H. Ford, commander of the Sixth Corps Area.

Last Rites Held For Miss Wells

Funeral services for Miss Dorothy Jeannette Wells, daughter of Mrs. Meta L. Wells, of Arlington, Va., were held Sunday. Burial was in Fort Lincoln Cemetery.

Miss Wells had been employed in the economic division of the Department of State. She died December 29. Surviving are her sisters, Mrs. Halsey W. Smith and Mrs. John R. Harwarth, and her mother.

GIVE YOUR LAZY LIVER THIS GENTLE "NUDGE"

Follow Noted Ohio Doctor's Advice To Feel "Tip-Top" In Morning!

If liver bile doesn't flow freely *every day* into your intestines—constipation with its headaches and that "half-alive" feeling often result. So step up that liver bile and see how much better you should feel! Just try Dr Edwards' Olive Tablets used so successfully for years by Dr F M Edwards for his patients with constipation and sluggish liver bile.

Olive Tablets, being *purely vegetable*, are wonderful! They not only stimulate bile flow to help digest fatty foods but also help elimination. Get a box TODAY. 15¢, 30¢, 60¢. All druggists.

H. Frank Taff Dies in Arizona While on Visit

Former Executive of Western Union Here Suffers Heart Attack

H. Frank Taff, 73, former general superintendent of the Western Union Telegraph Co. here, died yesterday at Phoenix, Ariz. He and his wife were visiting their daughter, Mrs. Lewis C. White, at Wickenburg, Ariz., when he was taken ill. Death was attributed to a heart attack.

Mr. Taff was a native of Washington and had been employed by the Western Union Co. most of his life. Starting as a messenger boy, he became head of the organization here at the outbreak of the World War.

When the Government took over the telegraph services of the country, he remained at his post, and handled company executive contacts with the Government throughout the war. In 1933 he retired.

A charter member of the Washington Rotary Club, he was made a life member of the organization upon his retirement from business. His home was at 115 Maple avenue, Takoma Park, Md.

The date of funeral services here will be announced later. His wife, Mrs. Mary C. Taff, and his daughter, Mrs. White, will accompany the body to Washington.

Jewish Appeal To Aid Christians

The United Jewish Appeal for Refugees and Overseas Needs has allocated $250,000 for assistance to Christians, it was announced yesterday.

Half of the funds will be available to Pope Pius XII for aid to Catholics, the other half to be contributed to Protestant agencies through Dr. George A. Buttrick, president of the Federal Council of the Churches of Christ in America.

J. S. McLean, Engineer, Dies At Home Here

Supervised Projects Throughout Nation; Funeral Tomorrow

James S. McLean, engineer who supervised large construction projects throughout the United States, died yesterday at his residence, 3102 Circle Hill road.

Mr. McLean was born at Norristown, Pa., in 1880 and attended the Drexel Institute in Philadelphia. He was resident engineer on construction of the Western Electric Co. plant at Kearney, N. J., and supervised building of the RCA radio station at Rocky Point, Long Island. He was a member of the Washington section, American Society of Mechanical and Electrical Engineers.

With his family, Mr. McLean had made his home here since 1934. Surviving are his widow, Mrs. Dorothy Rogers McLean; a son, James S. McLean, jr.; two brothers, Dr. John R. McLean, of Philadelphia, and Hugh McLean, of Pennsylvania, and a sister, Miss May McLean, of Norristown, Pa.

Funeral will be at 2 p. m. tomorrow at the Lee funeral home, Fourth street and Massachusetts avenue northeast. Burial will be in Cedar Hill Cemetery.

Hamilton to Conduct Parley on Labor Law

Walton H. Hamilton, professor of law at Yale University and former chairman of the NRA Advisory Council, will be chairman of a session on antitrust laws and labor at a conference on labor law relations of the National Lawyers Guild January 12, it was announced yesterday.

Speakers will include Herman A. Gray, chairman of the New York Unemployment Insurance Advisory Council; Louis B. Boudin, of New York, and Dr. Robert K. Speer, of the Institute of Propaganda Analysis.

Rites Today for Mrs. deRuiz, Republican Secretary Chief

Funeral services for Mrs. Virginia Roberts deRuiz, 43, wife of United States Deputy Marshal Richard L. deRuiz, will be held at the S. H. Hines funeral home, 2901 Fourteenth street northwest, at 9:30 a. m. today. Burial will be in Fort Lincoln Cemetery. The Rev. Bernard Braskamp will officiate.

Mrs. deRuiz, who was chief of the secretarial force of the Republican Congressional Committee, died Saturday of a heart ailment.

A native of Louisville, Ky., she was appointed secretary to Earl Venable, executive secretary of the Republican Congressional Committee, in 1922 and had been with the organization since.

Besides her husband, who lives at 1701 Massachusetts avenue northwest, Mrs. deRuiz leaves a sister, Mrs. Ada R. Curran; a niece, Mrs. Elisabeth Sisson, and a nephew, Robert Page Curran.

Honorary pall bearers will include Representatives Joseph W. Martin, of Massachusetts, and J. William Ditter, of Pennsylvania; Earl Venable, Lawrence Sullivan, J. Frederick Richardson, George H. Norton, Walter S. Green, Harry J. Brown, Warren W. Wheaton, T. C. Meeker, sr., John W. McCabe and A. K. Barts.

Active pallbearers will be William S. Warner, Robert L. Mickey, Irvin A. Brown, Dan B. Greer, Ellis C. Meeker and Robert A. Litschert.

4 Children Killed By Gas; Parents in Critical Condition

Perth Amboy, N. J., Jan. 1 (AP).—Four children died today when illuminating gas, seeping through their second-floor flat, overcame a family of seven.

In critical condition were Mr. and Mrs. John Guile and their daughter, Nancy, 4.

Killed by the fumes were two girls and two boys: Theresa, 10; Joan, 7; Frank, 3, and John, 1.

Police found one jet open on a kitchen gas range. On the kitchen floor they found Guile's body. Apparently he had been awakened by the gas, Murray said, but collapsed before he could reach the range to shut off the flow.

Steel Man to Talk

Electric power in the steel industry will be discussed by Fred O. Schnure, electrical superintendent of the Bethlehem Steel Co. plant, Sparrows Point, Md., in a lecture before the college of engineering, Maryland University, at 11:20 a. m. today.

Commodity Rise Main Feature of Market Year

Grange Master Predicts Higher Prices But Warns of Boom

By Louis J. Taber,

Master of the National Grange
(Written for International News Service)

Columbus, Ohio, Jan. 1.—Farmers of America can face 1940 with a little more confidence and assurance than for several years. The total agricultural income for 1939 will be slightly less than for 1937 and 1938, and unsatisfactory marketing conditions.

Factors indicating better prices for 1940, and better conditions are apparent on every hand. The war in Europe and in the Orient has had little direct effect on agriculture thus far. We now know that the Allies as well as Germany had quantities of grain, food, and fiber in storage. If the conflict continues to the end of 1940 there will be continued stiffening of many prices because of dislocation in world production and increased consumption.

The price of wheat will continue to advance because of fall drought and increasing world demand. Wheat is but one indication in the price structure, however. Corn prices are not satisfactory but the yield is good. The storage of wheat and corn is ample.

Livestock Holds Low

The American people need have no fear about feed for livestock or bread for the table, even though there is some advance in price. Hog prices are low. Lard and pork, as well as poultry have been well below normal for months. There is no prospect for immediate improvement, but general price conditions will improve.

On the fiber side the farm situation is mixed. Wool prices have been advancing, which has had direct effect on the price of sheep and mutton, but cotton on the other hand, owing to the tremendous hangover, the loss of world markets, causes depression in the cotton field, although here again there is every evidence of improvement in price.

Milk, butter and cheese were unusually low the first half of 1930. Marketing agreements, drought and increased consumption have improved prices and dairying should be more satisfactory in 1940 than in 1939.

Apples and other fruits have been hard hit by a large crop of poor quality, and curtailed export demands. In the field of vegetables and small fruits no man dare predict with any certainty what a year will bring forth.

A Billion More

In short, 1940 should give the farmers of the Nation a billion dollars more than they received in 1939, if present trends can be maintained and if there can be some recovery in business and industrial life. The farmer has long since learned that the best customer that he can have is well paid labor. If we can turn relief rolls into private pay rolls there will be a definite upturn in prices and income, and improved rural conditions. All thoughtful farm leaders realize that agriculture, industry, and labor must go forward together and that the consumer must be protected. When this is brought about, we will have stability, prosperity and recovery.

Two danger signals are apparent in any forecast of farm conditions for 1940. Should there be a boom in price and sudden termination of the world unrest, we are certain to have a quick drop as happened after the last war, and every other major economic disturbance. Farmers

New Capital Vital, Says Big Board Head

By William McC. Martin, Jr.

President, New York Stock Exchange

The advent of 1940 finds the Nation faced with about the same economic problems that have beset it during the past ten years. In fact, these problems have become more aggravated and the solution has become more complicated, due to measures necessitated by demands to meet the exigencies of the depression. It is now necessary for the Nation to attain a much higher national income in order to support higher taxes and increased debt.

If we are to have an economic revival large enough to meet these requirements, it is imperative that there be a broad revival of the capital markets, a renewal of capital investment and the replenishment of productive enterprise with new equity money.

The securities markets are even more depressed than general business conditions would normally warrant. At the present time the volume of securities business is at such low levels that the general efficiency of the securities markets is threatened. The financial community is beset by numerous difficulties that must be solved if it is to be able to aid effectively in the broad economic revival that is needed. We are hopeful that 1940 will see some relief from these difficulties.

Among the first before us in the new year is an appeal to the New York State Legislature for relief from the high and inequitable transfer tax that is seriously damaging securities business in New York.

In the solution of this as well as in the improvement of our other difficulties we need the sympathetic understanding and cooperation of Government officials and legislators.

Better Times Is the Forecast From All Sections, Ford Says

Ford Now Producing 5,000 Cars a Day Millions Spent on Plans in 2 Years Steady Jobs for Men a Main Objective

By Edsel Ford,

President, the Ford Motor Co.

Here in the Rouge plant in Dearborn we are in constant touch with the pulse beat of business through our branches and dealers in all sections of the United States. In looking ahead we always consider both the immediate future, and what is even more important, the long run future. For 1940 the outlook is definitely favorable.

From the branches and dealers we continue to receive evidence that business in general will be good throughout the country. Our retail sales of cars and trucks during 1939 were approximately 45 per cent greater than the preceding year and indications point to a continuance of this increased pace as 1939 makes way for 1940.

Another encouraging indicator is that the number of used cars in the hands of our dealers is unusually low for this season of the year. So there is no used-car clog in the stream of new business. To meet current demands we are now producing about 5,000 cars and trucks a day.

We have been looking far beyond 1940, however, in what we have planned and done in the Rouge plant in the past year. Ever since the Ford Motor Co. was organized in 1903 it has enthusiastically and unfailingly believed in America and its future. During the recent slack period we have in no degree lost our courage, but have continued to believe as firmly as ever in the growth of our country and the increasing prosperity of its people.

We have always realized here that steady employment, rather than peaks and valleys, take a vast amount of worry off one's mind. It is also better for the national economy. So in Dearborn we shall continue to spare no effort to hold fluctuations of employment down to the lowest possible point.

Radio Industry Completes Its Most Successful Year

American System Meets War's Acid Test U. S. Now Connected With Most of the World Television Introduced to the Public

By David Sarnoff

President, Radio Corporation of America

Radio in 1939 has had its greatest year. More than 9,000,000 radio receivers have been sold. More radio sets are in use in the United States than in all the rest of the world combined. With 45,000,000 receivers in American homes and automobiles, radio has become an integral part of our national life.

The first public service of television programs, adding sight to sound, was introduced in the United States in 1939, by R. C. A.'s broadcasting service, the National Broadcasting Co. It marked the triumph of many years of radio research and technological advance.

American-owned radio communi-

Summaries of 1939 and Forecasts for 1940, Written for The Washington Post's Annual Financial Review, Graphically Show the Growing Commercial Importance of Capital

By Ord Preston,

President, District of Columbia Bankers Association and President, Union Trust Co.

The demand for credit has always been a mark of business prosperity within a community. Data showing the number and amount of credit extensions made by banks in the District of Columbia during 1939 indicate continued expansion in various types of businesses. The member banks of the District of Columbia Bankers Association have manifested their willingness to make sound loans to all responsible individuals and companies which are able to show ability of repayment.

It is interesting to note the data prepared by the American Bankers Association with respect to loans made in the District of Columbia. It reveals that during the first six months of the year 36,000 new loans for a total of $37,000,000 and 44,000 renewals for the amount of $41,000,000, were made by banks in the District.

Best Business Since 1929, War or Peace, Babson Says

He Forecasts a 10 to 15 Per Cent Advance in the First Six Months With Slowing Down Later in the Year

By Roger W. Babson

Special Dispatch to The Post

Babson Park, Mass., Jan. 1.—War or peace, business in the first half of 1940 will be the best for any six months' period since 1929. Jobs, wages, farm prices, business profits, and dividends should all turn in big gains over a year ago. They should even average higher than in the three months' period just closing! At the same time no sharp gains are in the cards for either taxes or living costs. Considering all factors, therefore, I predict that we will come closer to "good times" in early 1940 than in any half year since 1929!

Readers will say that I am going pretty far out on the limb with this forecast in view of the troubled and uncertain times. War, elections, neutrality, labor, Congress, taxes—these are just a few of the clouds lowering over the 1940 horizon. Businessmen, investors and workers are more confused and worried today than on any year-end since the World War. Despite all these uncertainties, however, my forecast is not as rash as it at first sounds.

As the curtain rises on 1940, the Babsonchart Index of Business will be hovering around 115. To be the best first half since 1929, business must average 10 to 15 per cent above the first six months of 1939. In terms of the Babsonchart Index, that means an average of 112. That is a pretty high level, but remember that business must operate at a high level well into the first quarter merely to fill orders now on hand. Business could fall back to as low as 106 on the Babsonchart by June and still ring up the best first half since 1929 before adjustment for population gains.

Leaving the "ifs" and "coulds" out of the picture, my forecast is

ROGER W. BABSON

Banner Year, Shipbuilders Say of 1939

By H. Gerrish Smith

President National Council of American Shipbuilders

The year which is just closing undoubtedly will remain one of the outstanding in the history of American shipbuilding, not only because of the large amount of efficient tonnage which is being produced by the shipyards, but also because the events of the year have confirmed the wisdom of our national policy for the upbuilding of the merchant marine and the transport of a substantial part of American foreign trade in our own vessels.

The situation momentarily resulting from the neutrality policy of the United States may obscure at this time some of the advantages that have followed the Merchant Marine act of 1936 and earlier legislation. But it is safe to say that over a more extended period the benefit to the country resulting from our shipping independence will be clearly manifest.

As the year closes, a large number of American vessels have been withdrawn from the northern European trade routes and are tied at their piers. New routes are being established for some of these vessels and routes are being sought for others. It may seem for the moment that we have a surplus of ships.

Domestic Demand Is the Basis Of Steel Rise, Stettinius Says

Despite Improved Earnings and More Employment, U. S. Steel Chairman Says Many Difficulties Remain

By E. R. Stettinius, Jr.

Chairman, U. S. Steel Corporation

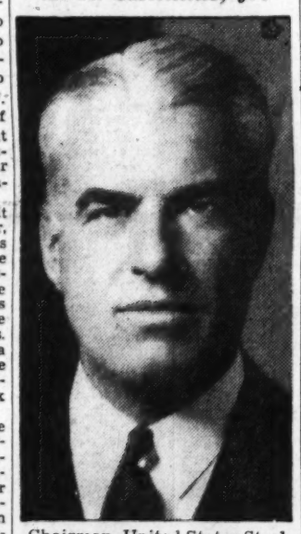
We look forward to the new year encouraged by the substantial improvement which has taken place in the steel industry during the past four months. A sharp upward movement in steel operations began early in September, due chiefly to domestic demand for needs that had been accumulating for some time, with an added stimulus from increasing foreign inquiries.

This is particularly pleasing to us because it gives opportunity for increased earnings and employment to thousands of our steel workers who suffered a curtailment of employment when business fell off so sharply in the latter part of 1937. Likewise, after many months of lean earnings, we are gratified at the prospect, at current rates of activity, of improved return upon our large investment in plants and facilities.

In entering upon the New Year it must be borne in mind, however, that there are many uncertainties and many difficulties yet to be solved before a sound basis for sustained progress can be realized. The future course of American business depends, to a large extent, upon the solution of our domstic problems. Industry can prosper only when a feeling of confidnece permits the full utilization of our great resources, thus putting back to work both idle capital and idle men.

The business future should also be measured in terms of the uncertainty which surrounds the termination of world-wide conflict, particularly in Europe. No healthful or sustained prosperity can be predicted on industrial stimulation which in considerable measure is temporarily inspired by war demands.

E. R. Stettinius, Jr.



Chairman, United States Steel Corporation

Electric Light and Power Industry Sets New Record

Expands With Industrial Upturn Now 38 Per Cent Above Boom Year 1929 Serious Drop in Water Power Output

By C. W. Kellogg

President, Edison Electric Institute

New York, Jan. 1.—The electric light and power industry shared fully in the revival of business activity in this country which took place during 1939. Power output was up 12 per cent over 1938, 7 per cent above the previously high year of 1937, and exceeded that of the boom year of 1929 by 38 per cent.

Output of electricity in 1939 amounted to 128,300,000,000 kilowatt hours, compared with 114,650,000,000 in 1938, with 119,810,000,000 in 1937 and 92, 750,000,000 kilowatt hours in 1929.

An outstanding feature of operation was the substantial increase in output during the latter half of the year, resulting from the industrial expansion which accompanied the outbreak of war in Europe. The growth of total output of electricity from August to December showed an increase considerably above the usual seasonal gain for this period, but the relation of the December, 1939, output to that of August, 1937, corresponds closely to the long-term trend of output growth of the industry, and new capacity had been added during the two-year interval amply to provide for this increase.

Water Power Fails

Another feature of the year's operation was the serious shrinkage in water power production during the autumn months because of the progressive failure of water supply. Rainfall was deficient from the very start of the year; by September the drought became acute and the year closed with many reservoirs empty or nearly so and the streams in some areas reduced to extreme low stage. Generation of electricity by water power during the last four months of the year ran 12 to 15 per cent below that of the previous year and for the year as a whole showed a decline of 4 per cent.

On the other hand production of electricity by steam rose to new high records. The total is estimated to have been 83,600,000,000 kilowatt hours, an increase of 14,850,000,000, or nearly 22 per cent over the year before. This steam power production almost equals the entire output of electricity from all sources during the boom year of 1929.

900,000 New Customers

The grand total of electric customers on December 31 reached 28,750,000, an increase of 900,000 over the number at the close of the previous year. Of these, 380,000 new customers were farms, two-thirds of which were on R. E. A. lines, bringing the total number of electrified farms to 1,786,000, or approximately

President, Edison Electric Institute

Railroads Switch Loss Into Profit, Pelley Says

But, He Declares, a National Policy for Transportation Is An Urgent Need

By J. J. Pelley

President, Association of American Railroads.

The outlook for the railroads, as the year 1939 draws to a close, is more encouraging. Not only is the level of freight traffic now higher than at any corresponding time since 1936, but there also has been an improvement in their current earnings.

The improvement in rail traffic and earnings, however, does not obviate the need for a national transportation policy placing all agencies of transportation on an equal footing under the law. At the last session of Congress, both the Senate and House of Representatives passed the omnibus transportation bill as a step in that direction. Because of the differences in the language of the bill as it passed the two houses, the measure is now in the hands of a conference committee. It is hoped that these differences will be ironed out early in the coming session of Congress and the resulting bill speedily enacted into law.

The railroads will enter 1940 with a level of freight traffic approximately 10 per cent higher than at this time one year ago and about 18 per cent above two years ago. Compared with the corresponding period in 1936, the level will be a decrease of about 4 per cent.

From a financial standpoint, preliminary estimates indicate that the railroads as a whole will have a net income of $95,300,000 in 1939, compared with a net deficit of $123,471,074 in 1938, and approximately the same net income as in 1937.

Upward Course of Freight

Since May, there has been an almost constant upward trend in freight traffic. From August to October the increase, however, was the greatest for any similar period of time on record, amounting to 25.5 per cent. The peak in carloadings this year was reached in the week ended on October 21, when the total was 861,198 cars, which exceeded the 1938 peak by 135,056 cars or 18.6 per cent.

Despite the record-breaking climb in traffic this fall, however, the railroads met the transportation situation successfully with virtually no car shortage except for a few isolated cases where slight delay occurred in furnishing certain types of freight cars. Even then the railroads in October, the period of heaviest traffic, had an average daily surplus of approximately 65,000 cars.

Not only have they handled the heavy freight movement this fall in an efficient and expeditious manner, but the rail carriers assure a continuation of adequate rail transportation facilities regardless of the extent of further increases in traffic.

New Equipment

In anticipation of a substantial stimulation in business, the member roads of this association in September agreed to meet whatever situation that might develop by reducing without delay the number of freight cars and locomotives in need of repair and by purchasing such new equipment as might be needed. As a result of the intensive equipment repair progam which followed, the number of freight cars in need of repair has been reduced by approximately 75,000 cars in the past four months. At the same time locomotives awaiting repairs have been reduced approximately 1,600.

This speeding up of equipment maintenance work as well as the increase in freight movement has

Continued on Page 8.

Watson Buys 1940 and Also The Future

By Thomas J. Watson

President, International Business Machines Corporation and Chairman, Inter-American Commercial Arbitration Commission

The United States belongs to its citizens. What happens in 1940 will depend upon the vision, courage and individual initiative of the citizens.

In our population we have a higher percentage of well trained individuals than any other country in the world.

For the past ten years we have suffered from our ability to produce surpluses of wheat, corn, cotton, copper, steel, coal and oil, which has brought about restrictions in production. Restricting production will never produce prosperity.

It is our job to continue to develop economic agreements with other nations until we have solved the problem of distributing our surpluses among the peoples of the world who are in need of them. In turn, we must buy things we need from other countries, on a fair basis.

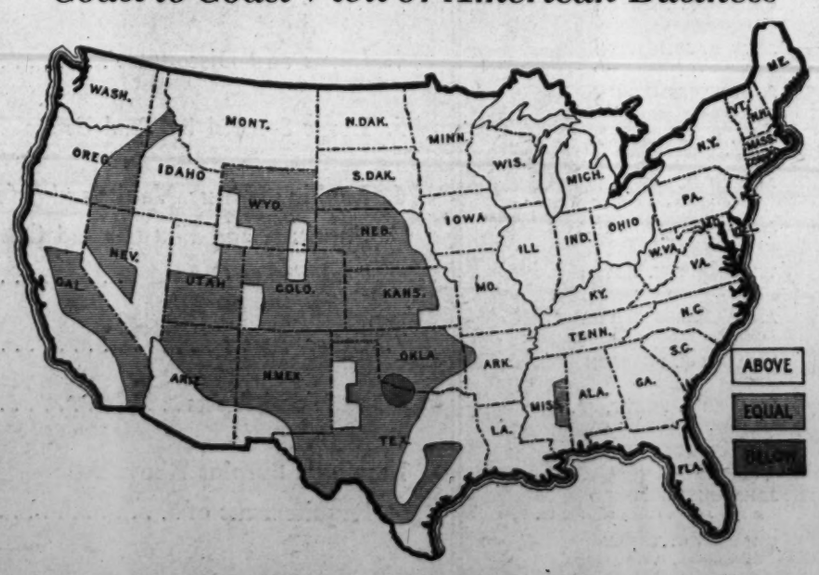
This plan will put all of our people to work, improve our standard of living, and mean a fuller life for everyone.

We cannot complete the job in 1940, but we can increase our efforts in developing trade along the lines of Secretary Hull's reciprocal trade treaties, correcting and improving the methods wherver needed, and, in that way, be able to remove restrictions on production.

Anyone who sells the United States or any of its enterprises short is making a mistake.

I am buying 1940 and the future.

Coast to Coast View of American Business



This map represents current business conditions. It appears in the January number of "Nations Business", published by the United States Chamber of Commerce.

The brighter December 1 map reflects increased income from farm marketings in Western producing areas. Industrial production in November continued the sharp rise registered in September and October and marked the sixth consecutive monthly advance since the current upward movement began last June

In Union Lies Recovery, Says Curb President

By George P. Rea

President, New York Curb Exchange

New York, Jan. 1.—We are passing through a period when the investing public is more than usually confused by the apparent failure of markets to keep pace with business activity. This has led many to assume that there is something fundamentally wrong with the attitude of the public toward the stock exchanges.

While the future is particularly complex, is it not possible that we are experiencing conditions similar to those which existed from the end of 1914 to the spring of 1915? At that time the stock market was stalemated. Investors were endeavoring to appraise the outlook and to more exactly determine the effect of events upon our own domestic economy. Perhaps this is what is going on at the present time in the current market.

Europe has become a more important factor to us than ever before and political events there will have to be watched, measured and evaluated with even greater care and concern. The progress of the war, the possibilities of its extension to other countries, the destruction of goods and merchandise, the transportation problem, the demand for raw materials and the stepping up of our production—all will have a tremendous impact and influence on our economy.

Trade Sources Widen

Increased trade with South America has already begun to evidence itelf particularly in the chemical industry and in other industries where South America formerly received its material and supplies from Europe.

The Far East probably does not hold quite such an important place in our present evaluation of possible price trends for 1940 as it did, because of the overshadowing of the situation by the domestic and European factors which are for the moment more important. Nevertheless, we are tied up in the Far East as to silk, rubber, sugar and many other important commodities which are bound to have material influence on the trade of the United States.

In addition to foreign influences are our domestic problems, which remain the most important of all perhaps in influencing our financial markets. It seems to me that our own political trend is definitely toward the right and that this fact must be reflected in both legislative and executive actions in the year to come. Business activity has been at a relatively high level for some months now and unless the volume of consumption is to largely fail, with a resultant accumulation of inventories, it would seem that this condition would find reflection in market prices.

Private Zeal Hailed

Government regulation has penetrated so far into private enterprise that doubts have been expressed as to whether or not the system of private as opposed to public financing of industry will prevail. Our system is properly based upon private financing and private operation. We have tried the method of detailed prohibition for some years without success.

After all else is said and done, the fundamental facts, the fundamental influences to make for our own prosperity are within ourselves. Business must learn to believe that Government can be and wishes to be helpful. Government must sense that regulation and taxes must not be carried to a point of being destructive.

Washington's Growth Hailed By Capital's Businessmen

Continued from Page 7.

consumer lines as textiles and shoes would not be surprising. Woolen and rayon plants, however, will continue full blast. With industrial activity wide open, service businesses will be in the clover and professional men will see the best collections in many months.

Steady to higher pay rolls in industrial centers, therefore, should hold the purchasing-power spotlight. In addition, farmers will have more money to spend. I do not foresee any runaway gains in farm product prices such as we had in the World War. Yet, heavier demand and higher consumer buying power should bolster up prices to the tune of 10 per cent over the first half of 1939. Wheat, corn and other grains will lead the parade. Fresh vegetable and potato farmers can look ahead to a good year.

Farm Income Up

King Cotton Now on Way To Recovery

Mill Consumption And Exports Well Above 1938 Totals

By Frank J. Knell
President of the N. Y. Cotton Exchange

The year 1939 drew to a close with conditions in the American cotton trade much better in numerous respects than those prevailing at the end of 1938. Domestic mills are consuming cotton at a much higher rate and exports are running very much larger. In view of the European war and the far-reaching activities of the United States Government in the business, there are many uncertainties in the cotton trade picture, but it is believed that in general the outlook for the coming year is promising.

The domestic cotton manufacturing industry is sharing fully in the high general industrial activity in this country. The cotton mills are currently using the staple at a rate of over 8,000,000 bales of all cottons a year, or the highest on record. Manufacturing margins have improved, and so the mill situation has become better from the standpoint of mill earnings. While mill sales of goods ran less than the current high rate of output during the last few months of the year, it is believed that new buying will sustain a high rate of mill activity and result in a large total domestic consumption of cotton during the current cotton season unless there be a marked reversal in the general business situation.

Exports Mount

Exports during the last few months of the year—those constituting the first few months of the new cotton season—showed a very large gain over those in the corresponding period in 1938. The ground work for such increase was laid by the great depletion of foreign stocks of American cotton last season. Foreign buying has been heavy not only because of the previous shortage of supplies but also because American cotton has been exceptionally cheap relative to foreign cottons in foreign markets. The relative cheapness of American cotton has been due in part to an inflationary price movement in certain foreign growths, particularly Indian, and partly to the subsidy on exports by this country. It is believed by many that exports this season will aggregate over 6,000,000 bales.

The cotton trade has found encouragement in the fact that current conditions point to a substantial decrease in the stocks of cotton controlled by the Government of this country. In consequence of the very high rate of domestic consumption and the large export movement, the present prospect is that the trade will be able to absorb a large amount of cotton from the curent season. In addition, the Government loan stock during the Government is disposing of roughly 700,000 bales of old loan cotton under a cotton-rubber barter agreement with the United Kingdom.

Loan Cotton

During the last spring and summer the trade took close to 600,000 bales of loan cotton. If present indications of domestic consumption and exports are realized, it is not improbable that the total decrease in United States Government stocks from the peak reached early in the last year will be 2,500,000 to 3,000,000 bales. The trade is hopeful that Government holdings will not be built up again during the coming calendar year, but there is constant danger of this so long as there is a Federal law calling for mandatory loans under fixed specified conditions.

Production of cotton by foreign countries is still very large, although substantially less than two years ago. China has reduced its production greatly on account of the war in that country. India and Egypt reduced their production largely because of unsatisfactory prices. The recent upward movement of prices of cotton may result in a recovery of output by these countries. Brazil continues a very large producer. The world has continued to use foreign cottons in a volume equal to the output of them, with the result that there has been no unwieldy, price-depressing accumulation of those cottons—unlike the situation on American cotton.

War Clouds Outlook

To a large degree, needless to say, the European war renders it impossible to be certain as to the outlook for cotton. This is particularly so because cotton is primarily an international commodity. Not far from half of all the cotton produced in the world moves in international trade channels, primarily overseas. The widespread destruction of shipping by submarines and mines has at times in recent months created apprehensions that it would become difficult or impossible to move cotton in volume across the oceans.

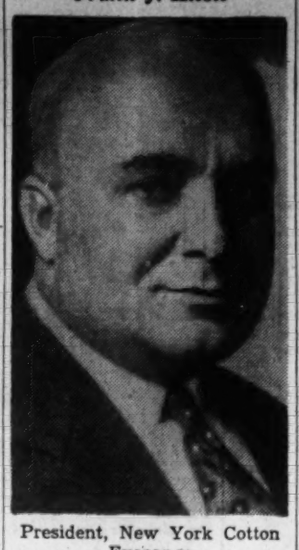
However, at this writing there is adequate shipping available, although at very high rates for freight and war risk insurance. No exact information is available as to the rate of consumption of cotton in the warring countries of Central Europe, but it is taken for granted that the spinning of the staple in those countries has decreased very greatly since those countries did not have large supplies when the war began and the movement of cotton to them is now largely prevented. Consumption in other parts of the world, however, is running at a generally high rate. Even the mills of war-torn China are using cotton in large volume and drawing heavily on foreign countries because of the shortage of domestically produced cotton.

Curb Exchange Dealings Decline to 17-Year Low

New York, Jan. 1 (U.P.).—Curb stocks declined on average this year while sales fell to a new low since 1922.

A September rally centering on the war babies carried sales to an eight-year high to feature in volume. Prices receded irregularly thereafter. Losses were noted in steel, mining, aircraft and oil issues. Chemicals, utilities and coal issues held modest gains.

Frank J. Knell



President, New York Cotton Exchange

Business Leaders Hail the Growth Of Washington

Continued from Page 5.

strides in its development as the world's finest place in which to live. Local business men feel the beneficial effects of increased Federal payrolls and increased expenditures by visitors. On the other hand, while there is every reason to expect a continuation of present favorable economic conditions, political and governmental uncertainties will no doubt continue to cause dissatisfaction in many quarters.

By Joseph A. Marr
President the District of Columbia Life Underwriters Association

The people of Washington continue to keep pace with the rest of the country in their purchase of new life insurance protection. The latest available figures show new life insurance in the District of Columbia for 1939 to be at the rate of 106 per cent of 1938, which is exactly the same figure for the Nation as a whole.

No nation in the world appreciates as much as we do the value of life insurance for, although, we comprise only 7 per cent of the world's population, we own 70 per cent of all the life insurance in existence in the whole world.

Here in the Nation's Capital we can well feel proud of the fact that our citizens lead the way in their acceptance and support of the institution of life insurance which is one of the strongest evidences in America of the strength of our democratic form of government.

History shows that life insurance as an institution goes hand in hand with the preservation of democracy. This may be established by the fact that life insurance is most widely owned in this country, together with England, Canada and France, representing the greatest democratic nations in the world.

Our people in the Nation's Capital and throughout the entire United States through the institution of life insurance have developed the largest single force representing personal security through individual initiative.

D. C. Figures

Let us examine a few figures which will give some evidence of the stake that the people of the District of Columbia hold in the great life insurance fund. They have acquired new life insurance during 1939 in excess of $5,000,000 per month. Life insurance has returned to the people of the District of Columbia during the calendar year approximately $2,500,000 a month, representing death claims, matured endowments, annuity payments, surrender policies, dividends to policyholders, and disability and double indemnity claims. Fortunate, indeed, are we in Washington that our people have had the forethought in the past to save from current income through the medium of life insurance in order that they may reap the harvest of its maturing values.

While it is the individual himself who has made the sacrifies necessary to provide all these benefits to his family and himself and, indirectly, to the community, it must be remembered that without the life insurance agency system the results would not be so impressive. It is the agent who, through his persuasion, logic, perseverance and example, puts the insurance in force and then nurses it through many storms and finally takes care of the settlement of the claim. In order that the public may be even more intelligently served in the future than in the past about 200 local life underwriters have recently completed the most comprehensive "post-graduate" course of study ever conducted in Washington, sponsored by the District of Columbia Life Underwriters Association, Inc. This in itself, speaks for the real interest that the man in the field has in broadening his service to the insuring public.

Solvency

No review of the life insurance year would be adequate without a mention of the companies themselves and how they are fulfilling their service responsibilities. The primary function is to maintain their unsurpassed solvency. This they have done as well as adding to their reserves and paying substantial dividends to policyholders. Further, they have kept pace with economic conditions in the matter of policy forms and many instances could be given of liberal interpretation of old policies. In likening the institution of life insurance to the old family doctor who counseled his patients on all manner of problems, our own Commissioner, the Hon. George E. Allen, recently said, "It is doubtful if any group is more aware of the constantly changing conditions of the world than insurance officials. Every day they feel the public pulse. With each decline in sales, lapse of policy and request for loan, these officials recognize symptoms of social disorders. As a great doctor for society, insurance examines the mind, body and business of millions of people in every part of America. Therefore, it should be in a position to prescribe many safe and effective remedies, in addition to the usual prescription—insurance." This description is very true.

Banks Face New Problems Created by European War

Influx of Gold, Decline in Exchange, Foreign Controls Are Making the U. S. International Money Center

By Seigfried Stern
Vice President Chase National Bank

New York, Jan. 1.—Swiftly moving developments in the field of international finance during the year just ended have had important consequences for the American banking system. Resulting from political developments on the continent of Europe, these included inflow of foreign funds, influx of gold, decline in foreign exchange rates, imposition of exchange controls by belligerent powers, and further development of New York as a world money market.

The influx of foreign capital, which was particularly marked in March and April and again in August, was symptomatic of existing political tensions and was an omen of the approaching conflict. The inflow took the form of short-term banking funds and originated in all parts of the world. The movement from the United Kingdom, France, the Netherlands, Switzerland, Canada, Latin America and the Far East attained significant proportions.

Total short-term liabilities of American banks to foreigners probably have shown little change since the outbreak of war. It would be expected, however, that internal shifts have taken place among countries; the liabilities due the neutral countries undoubtedly have risen and those due the belligerents have fallen. The imposition of rigid controls over foreign exchanges and over capital movements by the belligerents would eliminate all transactions from this source with the exception of those having official approval.

Gold Stock Enhanced

The influx of banking funds and the favorable merchandise balance of trade increased the monetary gold stock of the United States, from the end of December, 1938, to the middle of December, 1939, by approximately $3,000,000,000. The months of heaviest gold imports, March, April, May and September, correspond closely with those of heaviest capital imports. The spring influx resulted from the German occupation of Bohemia and Moravia and that of September from the outbreak of war. If the effect of the profits of gold devaluation on the monetary gold stock in 1934 be disregarded, the increase through 1939 was the largest ever recorded.

The changes occurring through 1939 in security transactions were of a minor character. Contrary to the situation of 1935, 1936 and 1937, when purchases of domestic securities and the repatriation of American-owned foreign securities were important, the inflow of foreign capital through 1939 took the form almost exclusively of banking funds.

The opening of hostilities found the belligerent countries fully prepared to take over their nationals' holdings of foreign securities and the various decrees promulgated with regard to the sale of foreign assets prevented any such liquidation as was experienced in 1914. In fact, in September of this year, stocks on the New York Stock Exchange registered widespread price increases in contrast to the sharp break at the beginning of the last World War.

Since September there has been some evidence of an orderly selling of American scurities by the nationals of the Allied powers. The potential extent of this liquidation is shown in estimates recently released by the board of governors of the Federal Reserve system. The data, as of the end of August, 1939, indicate that holdings of readily negotiable securities on the part of the nationals of the belligerent nations came to $1,420,000,000. If to this sum are added the dollar balances of the belligerent nations of $1,265,000,000 and their central gold reserves of $5,755,000,000, total assets in the form of dollars or readily converted into dollars amount to $8,440,000,000.

During the first eight months of 1939, the pound sterling remained fairly constant at approximately $4.68. The prospect of war brought a break at the end of August, and in the first weeks of September sterling declined sharply. By September 15 it had fallen to $3.72½. This rapid decline is due to the fact that, three weeks earlier, on August 25, the Exchange Equalization Account had removed its support. On September 5 the Bank of England established an official buying rate at $4.06. The buying rate was later reduced to $4.04. A free market rate in neutral countries developed for those buyers and sellers not subject to the British reguiations. This rate rose in the second half of September to the level of the official British rate, but subsequently declined.

Japan Follows Dollar

The imposition of foreign exchange controls and the decline in sterling exchange had important consequences for the New York money market. In the first place, it brought about several notable defections from the sterling bloc. The Scandinavian countries broke their ties with sterling in September and now maintain their exchange reserves largely in the form of dollars. Toward the end of September, Argentina revalued the peso in terms of the dollar and pound (although the link to sterling was not entirely removed).

On October 24 the Japanese ministry of finance announced that the yen would thereafter be linked to the dollar at 23.4 cents. Portugal likewise has established the dollar exchange standard, so that today the only countries whose currencies are linked to the British pound are the British dominions and colonies, State of Ireland, Iran, Iraq and France and colonies, Egypt, Free Siam.

The growth of the dollar exchange standard and the stewardship of 68 per cent of the world's monetary gold stock places a heavy responsibility on this country. It means a trustee relationship with respect to the exchange reserves of those nations whose currencies are linked to the dollar, and it means that domestic monetary and financial policies should be formulated all the more conservatively, inasmuch as they will find reflection in those of foreign countries.

A second result of developments abroad was to give a sharp impetus to the growth of the foreign exchange futures market in New York. There were two reasons for this. Foreign-exchange traders are becoming more reluctant to enter into contracts with respect to those currencies subject to exchange restrictions and a greater demand for dollars has developed in connection with war activities.

The increasing importance of New York as an international financial center has induced several foreign banks not having agencies in New York to establish such. This is to be regarded as a notable development, for, if London's experience in this regard is duplicated, foreign banking agencies will undoubtedly play a most useful role in the money market and will contribute toward the expansion of the foreign trade of the United States.

Neutrality Raises Problems

The neutrality act signed by the President on November 4 has given rise to a number of perplexing problems in connection with the financing of international trade, and has taxed the organizing capacity of the foreign departments of American banks, as it has greatly increased the supervision required in connection with the granting of banking credits to the belligerent countries. The fact that title to all exports to belligerent countries must pass to the buyer before shipment, has, to a large extent, placed our trade with those countries on a cash basis. The granting of acceptance credits to banks in belligerent nations is restricted for the same reasons, as they can be extended only if the bank in question is not acting "for or on behalf" of the particular belligerent power.

Political uncertainties have caused American banks to scrutinize acceptance credits very carefully in order to reduce risks to a minimum. In many cases, terms of payment have been contrasted. In consequence, the volume of outstanding dollar acceptances experienced a further and substantial decline through the year. For example, in November, 1938, the volume came to $273,000,000, and in November, 1939, to $223,000,000. Export bills, domestic warehouses credits and bills based on goods stored in or shipped between points in foreign countries declined. Import bills and bills to finance domestic shipments registered slight increases; the only category of bills to increase sharply was that arising from dollar exchange transactions.

Declines were particularly sharp in the case of acceptance credits and loans granted nationals in Englnd, France, Germany, the Netherlands and Canada. Increases were recorded in the cases of Scandinavia, Switzerland, Argentina and Brazil.

German Loans Reduced

The decline taking place in the acceptance credits and loans previously extended German nationals represented a reduction to that exterminated in consequence of the tent in the standstill credits. Inasmuch as the old agreement was war, a new standstill arrangement was concluded. Since the initial agreement of 1931, German commitments to American banks have been reduced to less than 10 per cent of the original amount.

In the long run the war probably will add to the volume of foreign trade transactions financed through New York. Already London has almost eliminated credits to nationals in most of the neutral states of Europe.

Babson Sees 10 Per Cent Gain For Business in Washington

By Roger W. Babson
Special Dispatch to The Post

Nineteen forty should be a good year for Washington's businessmen and workers. While the past 12 months have been relatively prosperous for the Nation's Capital, with general business averaging roughly 10 per cent above 1938, another 10 per cent gain should be chalked up during the next six months.

Washington is unique among America's great business cities in that it is not an industrial center. Its big job is to take care of an ever-growing army of Government workers and entertain the hordes of tourists which annually come to see Uncle Sam at work. Today Government agencies are going full blast. There'll be no let up in an election year. Bureaucracy may be a pain in the neck to the rest of the country, but it's great stuff for Washington.

The next six months will see a boom in tourist trade. It may be an uneventful session of Congress, but a lot of favorite sons and dark-horses in the presidential derby will be cavorting in the Senate and the House. Add this to cherry blossoms and you have a combination that will attract the most hard-boiled tourist. Hotels, restaurants, and theaters will pack them to the rafters. Gasoline station attendants, taxi-drivers, guides, will be busier than last spring.

A look at some of the significant barometers of Washington's business is interesting. While building is currently off about 10 per cent from a year ago, the year as a whole has been an exceptionally good one for building. A mid-summer boom carried the value of permits issued to the highest point in 12 years. It was along about this time that every desirable lot in Washington seemed suddenly to sprout a foundation and hatch swarms of carpenters, bricklayers, painters and roofers. The next six months will see good building—in both small homes and stores, factories and warehouses.

Power Output Set New Peak In Past Year

Continued from Page 1.

28 per cent of all farms having occupied dwellings. About 1,400,000 of these farms were served by the industry.

New construction in 1939 added 1,310,000 kilowatts of generating capacity, of which amount 1,090,000 kilowatts were installed by the industry and 220,000 by the Federal Government. The total generating capacity, including Government power plants, amounted to 38,600,000 kilowatts at the end of the year. In addition, about 670,000 kilowatts of generating capacity in industrial establishments are interconnected with and contribute to the public supply of electricity.

New construction programs as now planned for 1940 and 1941 will add 4,315,000 kilowatts of additional capacity, of which amount 2,830,000 kilowatts of steam capacity and 70,000 kilowatts of additional hydro-electric capacity will be installed by the industry and 1,415,000 kilowatts of hydro-electric capacity will be added by Government projects.

Proposed Construction

Construction budgets for 1940, according to preliminary reports, will amount to $600,000,000, exclusive of expenditures on Federal projects. Total construction expenditures for 1939, exclusive of Federal projects, are estimated to have been $450,000,000.

Revenues Expand

Total revenues approximated $2,304,000,000 for the year 1939, an increase of $132,000,000 over 1938. Many factors combined, however, to take large bites out of this added revenue, with the result that only about $50,000,000 of it was carried through to net income.

Taxes rose by about $20,000,000 to a new high figure estimated at $345,000,000, and represented 16.2 cents out of every dollar received from consumers; and charges for depreciation were also increased. Thus, net income showed a gain of about 10 per cent over the previous year but was still below that of 1929.

Financing operations in 1939 were confined almost exclusively to refunding and approximated $875,000,000 for the operating electric light and power companies. This compares with $954,000,000 during 1938 and the recent high figure of $1,325,000,000 in 1936. New capital issues in 1939 represented less than $25,000,000.

Tool Steel Price Stable

Assurance of a supply of American mined tungsten ore was a major factor in the November stabilization of prices on high-speed tool steels, according to a statement issued yesterday by I. Gerald Firth, president of Firth-Sterling Steel Co., McKeesport, Pa. He asserted that the protective tariff on imported tungsten ores, which had enabled the progressive development of the domestic tungsten industry, has had the effect of "placing a ceiling over as well as a floor under prices."

Standard Gas Building Budget $37,047,735

Chicago, Jan. 1 (AP).—Public utility operating companies in the Standard Gas and Electric Co. system have a tentative construction budget for 1940 of $37,047,735, Bernard W. Lynch, Standard Gas president announced today. This amount, he said, included $5,365,152 carried over from the 1939 budget on projects not completed this year.

Major projects involving additional electrical generating capacity of 135,000 kilowatts included: A 60,000 kilowatt unit in the James H. Reed station of Duquesne Light Co., Pittsburgh; addition of a 50,000 kilowatt capacity unit by the Northern States Power Co., Minnesota, to one generating station location of which has not been determined; a new generating station of 7,500 kilowatt capacity by Northern States Power at St. Cloud, Minn.; a 10,000 kilowatt station by Northern States Power, Wisconsin, at La Crosse, and the addition of 7,500 kilowatt capacity to the Southern Colorado Power Co. plant at Pueblo.

Preliminary budgets for principal companies in the Standard Gas system follow: California Oregon Power, $1,014,162; Louisville Gas and Electric, $2,015,615; Northern States Power, Minnesota, and subsidiaries, exclusive of Wisconsin Utilities, $3,454,135; Northern States Power, Wisconsin, and subsidiaries, $1,987,560; Oklahoma Gas and Electric, $1,631,104; Philadelphia Company and subsidiaries, $15,262,428; San Diego Consolidated Gas and Electric, $2,809,905; Southern Colorado Power, $1,105,259, and Wisconsin Public Service Corporation, $1,557,590.
